ANSWER KEY & MARKING SCHEME SET 1

Chapter 4: **Data Handling and Presentation** | Class 6 Maths | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** 140	Total minus the largest.
2	**(a)** 4	Divide by 3 (the symbols are in the same proportion).
3	**(c)** 84	Multiply.
4	**(b)** 9	Add the children, then divide by the value of one symbol.
5	**(c)** 37	Subtract.
6	**(b)** 16	Add the heights.
7	**(d)** 8	Integer division.
8	**(d)** 7.5	Divide by the scale.
9	**(a)** Both A and R are true and R is the correct explanation of A.	3.5 x 10 = 35, and R says what the half symbol means.
10	**(b)** Both A and R are true but R is not the correct explanation of A.	Both are true: equal widths keep the graph fair, heights show the data, but R does not explain A.

Q.	Expected Answer / Value Points	Marks
11	Milk $= 150 - 62 - 48$ (1); 40 people (1).	1+1
12	First bar $= 180$; Second bar height $= 6$ cm (1); Value $= 120$ (1).	1+1
13	Total $= 2 + 3 + 1 + 4 + 0 + 5 = 15$ (1); Matches with more than 2 goals: 3 (1).	1+1
14	Milk $= 200 - 85 - 77$ (1); 38 people (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Week 1 total $= 61$; Week 2 total $= 60$ (1); Larger: Week 1 (1); Difference $= 1$ (1).	1+1+1
16	Pens $= 36$ (1); Notebooks $= 72$ (1); Total $= 108$ (1).	1+1+1
17	Frequencies: 1: 1; 2: 1; 3: 1; 4: 1; 5: 4; 6: 1; 7: 2; 8: 1 (1); Values greater than 5: 1 + 2 + 1 $= 4$ (2).	1+2
	OR: Week 1 total $= 64$; Week 2 total $= 62$ (1); Larger: Week 1 (1); Difference $= 2$ (1).	1+1+1
18	Pens $= 60$ (1); Notebooks $= 180$ (1); Total $= 240$ (1).	1+1+1
	OR: Frequencies: 1: 3; 2: 1; 3: 2; 5: 1; 6: 2; 7: 1; 8: 2 (1); Values greater than 3: 1 + 2 + 1 + 2 $= 6$ (2).	1+2

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Cricket (1). (ii) $18 + 6 = 24$ children (1). (iii) $18 - 9 = 9$ more (1). (iv) Football, as $12 = 2 \times 6$ (1); Hockey and Kabaddi together: $6 + 9 = 15$ children (1).	1+1+1+2
20	A $= 90$, B $= 60$, C $= 120$ (1); D $= 90 + 60 - 120$ (1); D $= 30$ (1); Height of D $= 2$ cm (2).	1+1+1+2
	OR: Pink $= 80 - 50 = 30$ (1); Blue fraction $= \frac{20}{80} = \frac{1}{4}$ (2); Symbols: red: 3, blue: 4, green: 2, yellow: 1, pink: 6 (2).	1+2+2

Mistakes to avoid:

- Dividing the bar height by the scale (instead of multiplying) to find the quantity, or the reverse when drawing a bar.
- Ignoring the key of a pictograph: one symbol may stand for 5, 10 or 50, not always 1.
- Forgetting the half symbol, or counting it as a whole symbol.
- Counting tally marks wrongly: the crossed bundle is 5, not 4.
- Bars of unequal width or no scale/labels, which makes the graph misleading.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 4: **Data Handling and Presentation** | Class 6 Maths | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** 90	Multiply.
2	**(c)** 26	Add the children, then divide by the value of one symbol.
3	**(b)** 51	Subtract.
4	**(b)** 23	Add the heights.
5	**(b)** 9	Integer division.
6	**(a)** 7.5	Divide by the scale.
7	**(b)** 200	Total minus the largest.
8	**(c)** 6	Divide by 3 (the symbols are in the same proportion).
9	**(c)** A is true but R is false.	4 x 20 = 80, so A is true. You multiply the height by the scale value, so R is false.
10	**(d)** A is false but R is true.	Half symbols are allowed, so A is false and R is true.

Q.	Correct Option	Brief Reasoning
1	**(b)** 51	Subtract.
2	**(b)** 37	Add the heights.
3	**(c)** 7	Integer division.
4	**(b)** 6.5	Divide by the scale.
5	**(c)** 150	Total minus the largest.

7	**(a)** 120	Multiply.
8	**(a)** 20	Add the children, then divide by the value of one symbol.
9	**(a)** Both A and R are true and R is the correct explanation of A.	4 appears three times, so its frequency is 3.
10	**(b)** Both A and R are true but R is not the correct explanation of A.	Both statements are true, but the scale does not explain why the tallest bar is the largest value.
