CLASS 6 — SCIENCE · FORMULA SHEET

Chapter 3: **Mindful Eating: A Path to a Healthy Body** | Quick revision, one page

Nutrients and their use

- Carbohydrates: energy (rice, potato).
- Proteins: growth and repair (dal, paneer, eggs).
- Fats: stored energy, warmth (ghee, oil).
- Vitamins and minerals: protect the body and keep it working.
- Water and fibre: water helps digestion; fibre helps remove waste.

Vitamins and deficiency

- Vitamin A: night blindness.
- Vitamin C: scurvy (bleeding gums).
- Vitamin D: rickets (weak bones); sunlight helps make it.
- Iron: anaemia. Iodine: goitre. Calcium: weak bones and teeth.

Food tests

- Starch: iodine solution turns blue-black.
- Fat: food rubbed on paper leaves an oily patch.

Healthy eating

- Balanced diet: all nutrients in the right amount.
- Eat a variety, wash food, eat slowly, do not waste food.
- Junk food: high fat, sugar and salt; eat rarely.
- Read the food label before buying packaged food.
