CLASS 6 — SCIENCE · HARD LEVEL CHAPTER TEST SET 3

Chapter 2: **Diversity in the Living World** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Which feature of a bird helps it to find food in mud like a sandpiper? 1

(a) curved claws **(b)** short strong beak
(c) long thin beak **(d)** webbed feet

2. Which plant would survive best with very little water? 1

(a) cactus **(b)** water lily **(c)** hydrilla **(d)** lotus

3. Which is not an adaptation for flight? 1

(a) hollow bones **(b)** wings **(c)** feathers **(d)** webbed feet

4. Which statement is true about the biodiversity of India? 1

(a) India has no animals
(b) India has only forests
(c) India has a rich variety of plants and animals
(d) India has only deserts

5. Which characteristic helps trees to withstand strong winds? 1

(a) thin stem **(b)** shallow roots only
(c) a thick trunk and deep roots **(d)** soft stem

6. Which of these shows that a shrub differs from a herb? 1

(a) woody stem branching near the base **(b)** no leaves
(c) green stem **(d)** no flowers

7. Which one is a correct statement about herbs? 1

(a) they have thick trunks
(b) they live only in water
(c) they are the tallest
(d) they have soft stems and are usually short

8. A plant with weak stem and tendrils is likely to be a: 1

(a) climber **(b)** herb with erect stem
(c) shrub **(d)** tree

9. **Assertion (A):** Herbs are small plants with soft, green stems. 1
Reason (R): The stem of a herb is tender and not woody.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Mango is a tree. 1
Reason (R): A mango leaf shows reticulate (net-like) venation.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. How do you tell the difference between a shrub and a young tree? 2

12. How is the beak of a hawk different from that of a duck and why? 2

13. Why do you see more variety of plant leaves in a rain forest? 2

14. Why must we protect forests for biodiversity? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Describe how to find out whether a given leaf belongs to a grass-like plant. 3

16. Why do nocturnal animals like owls have large eyes? 3

17. Differentiate the gills of a fish and the lungs of a frog. 3

OR

Why is it harmful to remove the plants from a pond? 3

18. Give three examples of plants that show the importance of herbs in food. 3

OR

Why do roots grow downward while stems grow upward? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** Camels live in the Thar desert, where it is very hot and water is scarce. They have long legs, broad padded feet and thick eyelashes, and can go for many days without drinking water. Fish in a river, on the other hand, have gills and fins. 5
(i) What is the place where an organism lives called?
(ii) Name one feature of a camel that helps it walk on sand.
(iii) Which body part helps a fish to breathe in water?
(iv) What is meant by adaptation? Why is a camel not suited to live in a river?

20. Compare the Arctic and desert in terms of weather and the animals living there, with their special features. 5

OR

Describe an activity to study the diversity of plants in your school garden. 5

END OF QUESTION PAPER — Total: 40 Marks
