ANSWER KEY & MARKING SCHEME SET 1

Chapter 3: **Mindful Eating: A Path to a Healthy Body** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** carbohydrates	Carbohydrates give quick energy.
2	**(b)** calcium	Calcium builds bones.
3	**(c)** carbohydrates	They contain starch.
4	**(b)** proteins	Proteins build and repair tissues.
5	**(d)** calcium	Milk contains calcium and protein.
6	**(b)** sunlight	Skin makes vitamin D in sunlight.
7	**(b)** pulses	Pulses and dals are protein-rich.
8	**(b)** dietary fibre	It is the undigested plant material.
9	**(d)** obesity	It has excess fat and sugar.
10	**(c)** fats	Fats give about twice the energy of carbohydrates.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Substances in food needed by the body (1); Examples: proteins and vitamins (1).	1+1
12	Diet with all nutrients in proper amounts (1); It maintains health (1).	1+1
13	It transports nutrients (1); It removes wastes and keeps the body cool (1).	1+1
14	They provide energy (1); They are the main fuel for activities (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Rice: carbohydrate for energy (1); Pulses: protein for growth (1); Butter: fat for energy and warmth (1).	1+1+1
16	No single food has all nutrients (1); Each nutrient has a different job (1); Variety makes a balanced diet (1).	1+1+1
17	Iron: spinach, jaggery (1); Iron: dates (1); Iodine: iodised salt (1).	1+1+1
	OR: Scurvy: vitamin C (1); Rickets: vitamin D (1); Anaemia: iron (1).	1+1+1
18	Eat slowly (1); Chew food well (1); Do not waste food (1).	1+1+1
	OR: Tooth decay (1); Weight gain (1); Risk of diabetes (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Carbohydrates: energy, rice (1); Proteins: growth, pulses (1); Fats: energy, butter (1); Vitamins: protection, fruits (1); Minerals: bones and blood, milk and spinach (1).	1+1+1+1+1
	OR: Eat without distraction (1); Chew well (1); Choose healthy food (1); Do not waste (1); Eat at fixed times (1).	1+1+1+1+1
20	Scurvy: bleeding gums (1); Rickets: bent legs (1); Night blindness: poor dim-light vision (1); Anaemia: tiredness (1); Goitre: swelling in the neck (1).	1+1+1+1+1
	OR: Plants: pulses, soya (1); Animals: milk, egg, fish (1); Used for growth (1); Used for repair (1); Needed daily in right amounts (1).	1+1+1+1+1

Mistakes to avoid:

- Saying iodine solution tests for proteins or fats; it tests only for **starch**.
- Writing that fibre gives energy; it helps the body remove waste but gives no energy.
- Mixing deficiency diseases: scurvy (C), rickets (D), night blindness (A), anaemia (iron), goitre (iodine).
- Writing 'balanced diet means eating a lot'; it means **all nutrients in the right amounts**.
- Thinking water is not a nutrient or that proteins are the main energy source (carbohydrates are).
- Believing all packaged food is healthy; check the label for fat, sugar and salt.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 3: **Mindful Eating: A Path to a Healthy Body** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** roughage	Fibre helps bowel movement.
2	**(b)** sugar and salt	They harm health when eaten in excess.
3	**(d)** amla and lemon	Citrus fruits are rich in vitamin C.
4	**(d)** whole grains and vegetables	Plant foods have fibre.
5	**(a)** paying attention to what and how we eat	Careful and aware eating.
6	**(c)** scurvy	Scurvy gives bleeding gums.
7	**(d)** balanced diet	It meets the body's needs.
8	**(b)** chewing food well	Chewing aids digestion.
9	**(b)** rickets	Weak bones in children.
10	**(a)** carry nutrients and remove wastes	Water transports substances.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	It helps in digestion and bowel movement (1); It prevents constipation (1).	1+1
12	Disease caused by lack of a nutrient (1); Example: anaemia from iron deficiency (1).	1+1
13	Growth of the body (1); Repair of worn tissues (1).	1+1
14	Add iodine solution to the food (1); Blue-black colour shows starch (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Rub the food on paper (1); An oily patch shows fat (1); Hold the paper to light to see (1).	1+1+1
16	Energy: carbohydrates, fats (1); Protective: vitamins, minerals (1); Body-building: proteins (1).	1+1+1
17	Root: carrot (1); Stem: ginger or sugar cane (1); Leaf: spinach (1).	1+1+1
	OR: Sources: carrot, papaya, milk (1); Keeps eyes healthy (1); Lack causes night blindness (1).	1+1+1
18	Polishing removes vitamin B1 (1); Lack of vitamin B1 causes beriberi (1); Whole grain avoids this (1).	1+1+1
	OR: Milk: calcium (1); Eggs: protein (1); Fish: protein (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Starch: add a few drops of iodine to the sample (1); Starch is present if it turns blue-black (1); Fat: rub a little of the sample on paper (1); Fat is present if an oily patch remains (1); Record the observations (1).	1+1+1+1+1
	OR: Germs make food spoil (1); Keep in refrigerator (1); Cover and store (1); Dry or salt (1); Boil milk (1).	1+1+1+1+1
20	Balanced diet has all nutrients (1); Breakfast: milk and fruits (1); Lunch: roti, dal, vegetables (1); Evening: sprouts or fruit (1); Dinner: rice, curd, vegetables (1).	1+1+1+1+1
	OR: Fresh (1); More nutritious (1); Less transport (1); Cheaper (1); Supports farmers (1).	1+1+1+1+1

Mistakes to avoid:

- Saying iodine solution tests for proteins or fats; it tests only for **starch**.
- Writing that fibre gives energy; it helps the body remove waste but gives no energy.
- Mixing deficiency diseases: scurvy (C), rickets (D), night blindness (A), anaemia (iron), goitre (iodine).
- Writing 'balanced diet means eating a lot'; it means **all nutrients in the right amounts**.
- Thinking water is not a nutrient or that proteins are the main energy source (carbohydrates are).
- Believing all packaged food is healthy; check the label for fat, sugar and salt.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 3

Chapter 3: **Mindful Eating: A Path to a Healthy Body** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** is fresh and nutritious	It needs less storage.
2	**(b)** night blindness	Poor vision in dim light.
3	**(c)** iodine solution	Iodine turns blue-black with starch.
4	**(a)** wasteful and harmful for society and nature	Food is a resource.
5	**(b)** anaemia	Iron is needed for haemoglobin.
6	**(c)** blue-black	Starch gives blue-black.
7	**(c)** wash our hands	Hygiene prevents infections.
8	**(a)** goitre	Swelling of the thyroid gland.
9	**(a)** butter	Butter is made mostly of fat.
10	**(d)** dirt and germs	Washing removes them.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	They give vitamins and minerals (1); They give fibre (1).	1+1
12	Scurvy (1); Night blindness or rickets (1).	1+1
13	Milk (1); Curd or paneer (1).	1+1
14	It is high in fat, sugar and salt (1); It leads to obesity and weak health (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Strong bones (1); Strong teeth (1); Source: milk (1).	1+1+1
16	Take a small piece of food (1); Add a few drops of iodine (1); Blue-black colour indicates starch (1).	1+1+1
17	Body needs energy after the night (1); Helps concentration (1); Prevents overeating later (1).	1+1+1
	OR: Give energy (1); Keep the body warm (1); Protect organs (1).	1+1+1
18	Carries nutrients (1); Removes wastes as sweat and urine (1); Controls temperature (1).	1+1+1
	OR: Cover food (1); Wash hands (1); Store in clean and cool place (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Water carries nutrients (1); Water removes wastes (1); Roughage helps digestion (1); Prevents constipation (1); Sources: fruits and whole grains (1).	1+1+1+1+1
	OR: Calcium: bones, milk (1); Iron: blood, spinach (1); Iodine: thyroid, salt (1); Sodium: body fluids, salt (1); Potassium: muscles, banana (1).	1+1+1+1+1
20	High in fat and sugar (1); Leads to obesity (1); Low in vitamins (1); Eat home-cooked food (1); Choose fruits as snacks (1).	1+1+1+1+1
	OR: Obesity: excess weight (1); Causes: junk food, no exercise (1); Under-nutrition: lack of food (1); Causes: poverty, poor diet (1); Prevent by balanced diet (1).	1+1+1+1+1

Mistakes to avoid:

- Saying iodine solution tests for proteins or fats; it tests only for **starch**.
- Writing that fibre gives energy; it helps the body remove waste but gives no energy.
- Mixing deficiency diseases: scurvy (C), rickets (D), night blindness (A), anaemia (iron), goitre (iodine).
- Writing 'balanced diet means eating a lot'; it means **all nutrients in the right amounts**.
- Thinking water is not a nutrient or that proteins are the main energy source (carbohydrates are).
- Believing all packaged food is healthy; check the label for fat, sugar and salt.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
