ANSWER KEY & MARKING SCHEME SET 1

Chapter 3: **Mindful Eating: A Path to a Healthy Body** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** protein and vitamins	Polished rice mostly has starch.
2	**(b)** vegetables and fruits	They are protective foods.
3	**(b)** the list of ingredients	Ingredients tell what we eat.
4	**(b)** roti, dal, vegetables and curd	Variety of nutrients.
5	**(b)** spinach	It provides iron and vitamins.
6	**(b)** expiry date	Eating expired food is unsafe.
7	**(b)** vitamins and minerals	Vitamins and minerals regulate body functions.
8	**(b)** to retain vitamins	Heat destroys vitamins.
9	**(b)** we may eat too much without noticing	Attention is on the screen.
10	**(b)** iron	Anaemia gives paleness and tiredness.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Proteins and vitamins (1); Minerals and fibre are also low (1).	1+1
12	Difficulty seeing in dim light (1); It may lead to night blindness (1).	1+1
13	They give different vitamins and minerals (1); They give variety (1).	1+1
14	It increases vitamins (1); It makes digestion easier (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	It saves time but lacks nutrients (1); It has too much fat, sugar and salt (1); Regular use harms health (1).	1+1+1
16	Dehydration (1); Wastes not removed (1); Tiredness and headache (1).	1+1+1
17	Carrot (1); Papaya or mango (1); Green leafy vegetables (1).	1+1+1
	OR: Roti or rice for energy (1); Dal or paneer for protein (1); Vegetable and fruit for vitamins (1).	1+1+1
18	Milk and curd (1); Sunlight for vitamin D (1); Green leafy vegetables (1).	1+1+1
	OR: Weakness (1); Poor growth (1); Poor resistance to disease (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Reduce junk food (1); Add fruits and vegetables (1); Add dal or eggs for protein (1); Add milk for calcium (1); Encourage water and exercise (1).	1+1+1+1+1
	OR: Heat destroys vitamin C (1); Boiling vegetables loses water-soluble vitamins (1); Steaming retains nutrients (1); Cooking makes some foods digestible (1); Do not overcook (1).	1+1+1+1+1
20	Starch: iodine on potato turns blue-black (1); Fat: butter leaves an oily patch on paper (1); Iodine on butter stays brown (1); Potato leaves no oily patch (1); Record in a table (1).	1+1+1+1+1
	OR: Rural: local grains and vegetables (1); Urban: more packaged food (1); Both need variety (1); Reduce junk (1); Add fruits and pulses (1).	1+1+1+1+1

Mistakes to avoid:

- Saying iodine solution tests for proteins or fats; it tests only for **starch**.
- Writing that fibre gives energy; it helps the body remove waste but gives no energy.
- Mixing deficiency diseases: scurvy (C), rickets (D), night blindness (A), anaemia (iron), goitre (iodine).
- Writing 'balanced diet means eating a lot'; it means **all nutrients in the right amounts**.
- Thinking water is not a nutrient or that proteins are the main energy source (carbohydrates are).
- Believing all packaged food is healthy; check the label for fat, sugar and salt.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 3: **Mindful Eating: A Path to a Healthy Body** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** whole fruits have fibre and no added sugar	Fibre is retained.
2	**(b)** planning meals and portions	Planning prevents waste.
3	**(b)** use iodised salt	Iodine deficiency.
4	**(c)** it increases vitamins and makes digestion easier	Sprouts have more vitamins.
5	**(c)** they help digestion	Fibre aids digestion.
6	**(d)** sunlight and milk	Vitamin D and calcium.
7	**(d)** dal, soya, peas	All are plant sources.
8	**(d)** obesity	Excess energy foods.
9	**(d)** paneer	Paneer is from milk.
10	**(a)** roasted chana	Healthy and has protein.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	It gives only fat (1); Child needs proteins and others (1).	1+1
12	Adds more fat (1); Excess fat can cause obesity (1).	1+1
13	It may contain harmful germs (1); It can cause food poisoning (1).	1+1
14	Has protein, fat, carbohydrate (1); Has vitamins and minerals (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Different colours show different vitamins (1); Variety gives all nutrients (1); Prevents deficiency diseases (1).	1+1+1
16	Dust and flies carry germs (1); Can cause stomach infections (1); Fresh cut fruit should be covered (1).	1+1+1
17	Whole grains retain fibre (1); They retain vitamins (1); Refined grains lose these (1).	1+1+1
	OR: Less haemoglobin in blood (1); Tiredness and paleness (1); Eat spinach, jaggery, dates (1).	1+1+1
18	Cereals give carbohydrates (1); Milk gives protein and calcium (1); Vegetables give vitamins (1).	1+1+1
	OR: Overeating high-fat foods (1); Lack of physical activity (1); Too much sugar (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Vitamin C: scurvy: amla (1); Vitamin D: rickets: sunlight (1); Iron: anaemia: spinach (1); Iodine: goitre: iodised salt (1); All shown in diet (1).	1+1+1+1+1
	OR: Makes vitamin D in the skin (1); Helps absorb calcium (1); Prevents rickets (1); Warms the body (1); Avoid mid-day harsh sun (1).	1+1+1+1+1
20	Child: more protein and calcium (1); Labourer: more energy foods (1); Patient: easily digestible food (1); Needs depend on age and work (1); Illness changes needs (1).	1+1+1+1+1
	OR: Helps digestion (1); Prevents constipation (1); Sources: whole grains, fruits (1); Lack causes digestion problems (1); Add salads (1).	1+1+1+1+1

Mistakes to avoid:

- Saying iodine solution tests for proteins or fats; it tests only for **starch**.
- Writing that fibre gives energy; it helps the body remove waste but gives no energy.
- Mixing deficiency diseases: scurvy (C), rickets (D), night blindness (A), anaemia (iron), goitre (iodine).
- Writing 'balanced diet means eating a lot'; it means **all nutrients in the right amounts**.
- Thinking water is not a nutrient or that proteins are the main energy source (carbohydrates are).
- Believing all packaged food is healthy; check the label for fat, sugar and salt.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 3: **Mindful Eating: A Path to a Healthy Body** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** stunted growth	Poor growth.
2	**(b)** iodine turns it blue-black	Starch test.
3	**(a)** those with lots of sugar and salt	Excess is harmful.
4	**(c)** butter	Butter is a fat.
5	**(a)** fat	Oily spot.
6	**(c)** iodine	Iodised salt.
7	**(c)** proteins	It lacks protective and body-building foods.
8	**(b)** ghee	Fats give most energy.
9	**(a)** iron	Fortification.
10	**(b)** it is needed for all body functions	Water is vital.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	They spend more energy (1); Carbohydrates are the quick fuel (1).	1+1
12	Starch gives energy (1); Fibre aids digestion and gives no energy (1).	1+1
13	Soap removes dirt and germs (1); Germs entering with food can cause stomach infections (1).	1+1
14	For strong bones and teeth (1); To grow taller with healthy bones (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Soft bones (1); Rickets in children (1); Sunlight and fish liver oil (1).	1+1+1
16	Check ingredients (1); Check expiry date (1); Check nutrients (1).	1+1+1
17	Adding iodine to detect starch in milk (1); Blue-black colour means starch added (1); Pure milk has none (1).	1+1+1
	OR: Needed in large amounts (1); Aids digestion (1); Maintains body temperature (1).	1+1+1
18	Carbohydrates give quick energy (1); Fats give more energy per gram (1); Fats act as energy store (1).	1+1+1
	OR: Prevent overeating (1); Avoid waste (1); Better digestion (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Poor diet causes tiredness (1); Deficiency diseases develop (1); Excess causes obesity (1); Good diet gives energy (1); Healthy habits last for life (1).	1+1+1+1+1
	OR: A: eyes (1); A lack: night blindness (1); C: gums, immunity; lack causes scurvy (1); D: bones; lack causes rickets (1); Sources given (1).	1+1+1+1+1
20	Waste means wasted resources (1); Rotting food produces gases (1); Others go hungry (1); Plan portions (1); Share and compost (1).	1+1+1+1+1
	OR: Day 1: fruit chaat (1); Day 2: roasted chana (1); Day 3: sprouts salad (1); All low in oil (1); Contain protein and fibre (1).	1+1+1+1+1

Mistakes to avoid:

- Saying iodine solution tests for proteins or fats; it tests only for **starch**.
- Writing that fibre gives energy; it helps the body remove waste but gives no energy.
- Mixing deficiency diseases: scurvy (C), rickets (D), night blindness (A), anaemia (iron), goitre (iodine).
- Writing 'balanced diet means eating a lot'; it means **all nutrients in the right amounts**.
- Thinking water is not a nutrient or that proteins are the main energy source (carbohydrates are).
- Believing all packaged food is healthy; check the label for fat, sugar and salt.
