3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A food gives a blue-black colour with iodine and an oily patch on paper. It contains: 1

(a) fat only **(b)** starch and fat
(c) starch only **(d)** protein and fibre

2. Why do nutritionists advise limiting packaged drinks? 1

(a) they contain protein
(b) they have vitamins
(c) they have fibre
(d) they contain much sugar and few nutrients

3. A paper rubbed with a food sample shows a translucent oily patch that stays even after drying. The food contains: 1

(a) fibre **(b)** fat **(c)** sugar **(d)** starch

4. A student tested three foods P, Q, R with iodine. Only Q turned blue-black. Which statement is correct? 1

(a) Q contains fat **(b)** All three contain starch
(c) P and R contain starch **(d)** Q contains starch

5. A person eats only steamed vegetables and fruits and nothing else. The likely lack is: 1

(a) protein and fat **(b)** water **(c)** vitamins **(d)** fibre

6. An experiment gave these results: Food X – blue-black with iodine; Food Y – oily patch; Food Z – no change in either test. Which is correct? 1

(a) X has starch, Y has fat, Z has neither starch nor fat
(b) X has fat, Y has starch, Z has both
(c) X has no starch, Y has starch, Z has fat
(d) all three contain starch

7. A child gets tired quickly, has pale skin and breathlessness. Which food should the doctor suggest? 1

(a) chips **(b)** sugar
(c) butter **(d)** spinach and jaggery

8. Which combination in a vegetarian diet gives good-quality protein? 1

(a) cereals with pulses **(b)** water with salt
(c) sugar with butter **(d)** only fruits

9. **Assertion (A):** Proteins are called body-building nutrients. 1
Reason (R): Proteins help in growth and repair of the body.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Lack of vitamin C causes scurvy. 1
Reason (R): Citrus fruits like lemon and amla are rich in vitamin C.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. A food sample turns blue-black with iodine and leaves an oily spot on paper. What conclusions can you draw? 2

12. Why is a diet rich only in proteins and fats not balanced? 2

13. Why are growing children given more protein-rich food? 2

14. Why is playing in sunlight good for children's bones? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. A girl's diet: breakfast - bread and jam, lunch - noodles, dinner - fried snacks. Evaluate it and suggest changes. 3

16. Why should dairy foods be included in a school child's diet? 3

17. How does one choose healthy snacks when travelling? 3

OR

Explain why a mixture of cereal and pulse such as dal-rice gives a better meal than rice alone. 3

18. Fruits and vegetables lose vitamins when cut and stored for long. Why and what to do? 3

OR

Explain why we say 'You are what you eat'. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** Aarav's tiffin usually has only chips and biscuits. His teacher in Chennai explained that such packaged junk food has a lot of fat, sugar and salt but little else. She asked the class to read food labels and to eat a variety of foods such as dal, vegetables, fruits, rotis and milk. 5
(i) Which nutrient in dal helps growth?
(ii) Name a nutrient in fruits and vegetables that protects the body from disease.
(iii) What can we learn by reading a food label?
(iv) Why is a mix of foods better than only chips and biscuits?

20. Plan a balanced day's menu for a 12-year-old, justify each meal's nutrients and mention what to avoid. 5

OR

Explain why vegetarians and non-vegetarians can both be healthy, discussing sources of each nutrient. 5

END OF QUESTION PAPER — Total: 40 Marks
