THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapter 10: **Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** it sprouts when given water	Germination indicates life.
2	**(b)** pupa	Metamorphosis.
3	**(b)** reproduction	Life continues.
4	**(b)** seed is living	Growth.
5	**(d)** water	Aquatic eggs.
6	**(b)** need food and air	Cellular.
7	**(a)** no, it cannot grow, respire or reproduce	Machines lack life processes.
8	**(a)** gills	Larvae have gills.
9	**(a)** tadpole	Standard order.
10	**(c)** it can germinate in suitable conditions	Dormancy.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	It germinates under suitable conditions (1); Its life processes are slow (1).	1+1
12	No light for food making (1); Green colour fails to form (1).	1+1
13	Gills work in water (1); It cannot take oxygen from air (1).	1+1
14	It does not grow or reproduce (1); It is made, not born (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Fire does not grow from within (1); It does not reproduce on its own (1); It cannot respond or repair itself (1).	1+1+1
16	Plants make food in leaves (1); Animals cannot (1); They depend on plants (1).	1+1+1
17	Body gets hot (1); Sweat removes waste and heat (1); Helps cooling (1).	1+1+1
	OR: (a) Germinate and grow (1); (b) No life process (1); (c) Grows and reproduces by spores (1).	1+1+1
18	Sunflower follows the Sun (1); Flowers open and close (1); Roots grow towards water (1).	1+1+1
	OR: Needed in all life processes (1); Body is mostly water (1); Helps dissolve food (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Place a potted plant near a window (1); Rotate it after some days (1); It bends towards light (1); Rotate again (1); It bends again (1).	1+1+1+1+1
	OR: Plants: stomata (1); Fish: gills (1); Humans: lungs (1); All take in oxygen (1); Release carbon dioxide (1).	1+1+1+1+1
20	All grow and reproduce (1); Plant makes food (1); Animal eats others (1); Mushroom absorbs from dead matter (1); Only animals move around (1).	1+1+1+1+1
	OR: Observe growth (1); Check for movement (1); Check response (1); Check food use (1); Conclude (1).	1+1+1+1+1

Mistakes to avoid:

- Treating moving things like cars, clouds or flowing water as living; they do not grow, respire or reproduce.
- Writing that plants do not breathe or respond; plants respire and respond slowly to light and touch.
- Mixing respiration (gas exchange for energy) with breathing in and out only, or with excretion.
- Confusing **stimulus** (the change) with **response** (the reaction).
- Saying that all living things breathe with lungs; fish use gills, earthworms their skin.
- Forgetting that every living thing needs food, water and air, including plants.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 2

Chapter 10: **Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** lungs and skin	Adaptation.
2	**(c)** kidney	Kidneys excrete.
3	**(c)** it releases carbon dioxide	Gas exchange.
4	**(a)** mushroom	Fungi are not green.
5	**(b)** shedding leaves	Old leaves carry waste.
6	**(c)** they respire	Respiration is universal.
7	**(c)** crocodile	Reptiles lay eggs.
8	**(c)** respiration	Energy release.
9	**(a)** fire	Fire moves and consumes but is not alive.
10	**(d)** bat	A mammal.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Seed grows into a plant (1); Egg grows into an animal (1).	1+1
12	Respiration (1); Growth and reproduction (1).	1+1
13	They respond to the stimulus (1); It may protect them from harm (1).	1+1
14	It responds to the stimulus (1); It shows a reaction (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Place germinating seeds in a closed jar (1); After some time lower a lighted candle (1); Candle goes out as oxygen is used (1).	1+1+1
16	A living being (1); Animals: dog, hen (1); Plants: neem, rose (1).	1+1+1
17	Mimosa: touch (1); Sunflower: light (1); Both show stimulus-response (1).	1+1+1
	OR: Hot: move away (1); Cold: huddle together (1); Loud noise: run or fly (1).	1+1+1
18	Egg (1); Tadpole (1); Adult frog (1).	1+1+1
	OR: Air contains oxygen (1); Oxygen is used to release energy from food (1); Energy is used for all life processes (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Dog: living (1); Tree: living (1); Stone: non-living (1); Car: non-living (1); Reasons by life processes (1).	1+1+1+1+1
	OR: It shows no activity when dry (1); It germinates when water is available (1); It is alive but dormant (1); Many characteristics are used (1); One character is not enough (1).	1+1+1+1+1
20	Takes water (1); Respires (1); Grows (1); Responds (1); Becomes a plant (1).	1+1+1+1+1
	OR: Frog: eggs are laid in water (1); Frog: tadpole grows into an adult frog (1); Hen: egg is laid (1); Hen: egg hatches into a chick (1); Hen: chick grows into an adult hen (1).	1+1+1+1+1

Mistakes to avoid:

- Treating moving things like cars, clouds or flowing water as living; they do not grow, respire or reproduce.
- Writing that plants do not breathe or respond; plants respire and respond slowly to light and touch.
- Mixing respiration (gas exchange for energy) with breathing in and out only, or with excretion.
- Confusing **stimulus** (the change) with **response** (the reaction).
- Saying that all living things breathe with lungs; fish use gills, earthworms their skin.
- Forgetting that every living thing needs food, water and air, including plants.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 3

Chapter 10: **Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** both show growth	Growth.
2	**(b)** a crystal of salt	Crystals grow by external deposition.
3	**(a)** plants make food, animals depend on others	Nutrition.
4	**(d)** a spider's web	Traps insects.
5	**(b)** plant grows from within by making new parts	Biological growth.
6	**(b)** light is needed for making food	Photosynthesis.
7	**(b)** amphibian	Frogs.
8	**(d)** a cat jumping at a sound	Response.
9	**(c)** they respond to light	Phototropism.
10	**(a)** stoppage of life processes	Death ends them.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	It needs food, water and air (1); It grows and reproduces (1).	1+1
12	Shed leaves and bark (1); Store wastes in parts (1).	1+1
13	Crystal grows by adding material outside (1); Plant grows from within (1).	1+1
14	For all life processes (1); Obtained from food (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Plants: seeds, cuttings (1); Animals: eggs or live young (1); Both give new life (1).	1+1+1
16	Depends on the species (1); Fly: days (1); Tortoise: over 100 years (1).	1+1+1
17	Machines and rivers move (1); Plants show slow movement (1); Use many characteristics (1).	1+1+1
	OR: They grow (1); They reproduce (1); They respire (1).	1+1+1
18	Breathing: taking air in and out (1); Respiration: release of energy from food (1); Breathing is the first step (1).	1+1+1
	OR: Gills (1); Fins (1); Streamlined body (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Eats grass for food (1); Breathes air (1); Grows (1); Responds to danger (1); Gives birth to young ones (1).	1+1+1+1+1
	OR: Produces new organisms (1); Replaces those that die (1); Species continue (1); Seeds (1); Eggs (1).	1+1+1+1+1
20	Releases energy from food (1); Used for movement (1); Used for growth (1); Used for reproduction (1); Used for repair (1).	1+1+1+1+1
	OR: Seed (1); Germination (1); Seedling (1); Flowering (1); Fruit and seeds (1).	1+1+1+1+1

Mistakes to avoid:

- Treating moving things like cars, clouds or flowing water as living; they do not grow, respire or reproduce.
- Writing that plants do not breathe or respond; plants respire and respond slowly to light and touch.
- Mixing respiration (gas exchange for energy) with breathing in and out only, or with excretion.
- Confusing **stimulus** (the change) with **response** (the reaction).
- Saying that all living things breathe with lungs; fish use gills, earthworms their skin.
- Forgetting that every living thing needs food, water and air, including plants.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
