ANSWER KEY & MARKING SCHEME SET 1

Chapter 10: **Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** it does not grow or reproduce on its own	Many characteristics are absent.
2	**(b)** pebble	It has one cell.
3	**(b)** a living thing can stay inactive until conditions suit it	Life processes were only slowed down.
4	**(a)** the crystal grows by outside deposition, not from within	Non-living.
5	**(b)** water is needed for germination	Controlled comparison.
6	**(c)** change in body during growth	Life cycle.
7	**(d)** it swells and sprouts in water	Growth suggests life.
8	**(d)** type of seeds and temperature	Same seeds and temperature.
9	**(a)** Both A and R are true and R is the correct explanation of A.	Not showing life processes is why a stone is non-living.
10	**(b)** Both A and R are true but R is not the correct explanation of A.	Both true, but they describe different organisms; R does not explain A.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	It does not grow or reproduce (1); It does not respire or respond (1).	1+1
12	Cells have died (1); No respiration or growth (1).	1+1
13	River, clouds (1); Car, wind (1).	1+1
14	One feature may be seen in non-living things (1); Combination makes the test reliable (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	No chlorophyll (1); Do not make their own food (1); Absorb food from dead matter (1).	1+1+1
16	Respiration is very slow (1); It germinates later (1); So it is alive but dormant (1).	1+1+1
17	Plants give oxygen (1); Animals give CO2 (1); Bees pollinate flowers (1).	1+1+1
	OR: Two flasks, one with germinating seeds, one with boiled seeds (1); Insert thermometers (1); After hours the former is warmer (1).	1+1+1
18	Plants respond to gravity (1); Shoots grow upward (1); Roots grow downward (1).	1+1+1
	OR: Growth (1); Respiration (1); Response to light (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Puppy (or rose plant) (1). (ii) Stone bench (or toy car) (1). (iii) Growth (and reproduction) (1). (iv) Movement alone does not mean life (1); it does not need food, breathe, grow or reproduce (1).	1+1+1+2
20	Dry seed: inactive but germinates (1); Crystal: grows from outside (1); River: moves but does not grow or respire (1); Need many criteria (1); Cells decide (1).	1+1+1+1+1
	OR: Food gives energy (1); Food helps growth and repair (1); Water is needed in all life processes (1); Air gives oxygen for respiration (1); Without them living things die (1).	1+1+1+1+1

Mistakes to avoid:

- Treating moving things like cars, clouds or flowing water as living; they do not grow, respire or reproduce.
- Writing that plants do not breathe or respond; plants respire and respond slowly to light and touch.
- Mixing respiration (gas exchange for energy) with breathing in and out only, or with excretion.
- Confusing **stimulus** (the change) with **response** (the reaction).
- Saying that all living things breathe with lungs; fish use gills, earthworms their skin.

- Forgetting that every living thing needs food, water and air, including plants.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

MASTERMIND

ANSWER KEY & MARKING SCHEME SET 2

Chapter 10: **Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** growth from within using food	Cell division.
2	**(c)** leaf	Stomata.
3	**(c)** seeds release carbon dioxide	Respiration gives CO2.
4	**(a)** they carry stored wastes and die	Excretion in plants.
5	**(b)** mushroom	Fungi do not need photosynthesis.
6	**(d)** proves the change is caused by seeds	Controls matter.
7	**(d)** change during the life cycle	Metamorphosis.
8	**(a)** to continue the species after death	Continuation of species.
9	**(a)** Both A and R are true and R is the correct explanation of A.	Touch is a stimulus and the folding is the response, which is a feature of living things.
10	**(c)** A is true but R is false.	A is true: shoots bend towards light. R is false.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	They make their own food (1); They need not search for food (1).	1+1
12	For release of energy (1); For growth and repair (1).	1+1
13	It germinates with water (1); It shows growth afterwards (1).	1+1
14	It moves because of force (1); It does not sense (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Enclose a leafy twig in dark bag (1); Pass air through lime water (1); It turns milky (1).	1+1+1
16	Plants grow throughout life in some parts (1); Animals grow to a limit (1); Plants grow at tips (1).	1+1+1
17	Fleeing from danger (1); Plants bending to light (1); Find food and shelter (1).	1+1+1
	OR: Both need water (1); Elephant needs food from plants (1); Cactus makes food (1).	1+1+1
18	No growth from within (1); No reproduction (1); No respiration (1).	1+1+1
	OR: Observe under a lens (1); Look for movement (1); Provide food and see growth (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Stimulus (light) (1). (ii) Gills (1). (iii) Respiration (1). (iv) Plants respond to light (1); light is needed for making food, so the shoot grows towards it (1).	1+1+1+2
20	Both respire and reproduce (1); Plant makes its own food but animal eats food (1); Plants are fixed but animals move (1); Both respond to stimuli (1); Both give out wastes (1).	1+1+1+1+1
	OR: Plants give food and oxygen (1); Animals give carbon dioxide (1); Bees pollinate (1); Some organisms clean up dead matter (1); Interdependence (1).	1+1+1+1+1

Mistakes to avoid:

- Treating moving things like cars, clouds or flowing water as living; they do not grow, respire or reproduce.
- Writing that plants do not breathe or respond; plants respire and respond slowly to light and touch.
- Mixing respiration (gas exchange for energy) with breathing in and out only, or with excretion.
- Confusing **stimulus** (the change) with **response** (the reaction).
- Saying that all living things breathe with lungs; fish use gills, earthworms their skin.
- Forgetting that every living thing needs food, water and air, including plants.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 3

Chapter 10: **Living Creatures: Exploring their Characteristics** | Class 6 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** dog	Mammals.
2	**(b)** they make their own food	Autotrophs.
3	**(d)** increasing each day	Differences rise.
4	**(d)** growth	Real plants grow.
5	**(c)** mushroom	Fungi feed on dead matter.
6	**(d)** mango tree	Trees usually live longer.
7	**(d)** shedding leaves in autumn	Seasonal change.
8	**(d)** splitting into two	Binary fission.
9	**(a)** Both A and R are true and R is the correct explanation of A.	Food provides energy for growth, movement and other activities.
10	**(d)** A is false but R is true.	A is false: a car does not grow, respire or reproduce. R is true.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Dormant seeds can germinate (1); Dead ones cannot (1).	1+1
12	It senses danger (1); It responds to the stimulus (1).	1+1
13	To search for food and water (1); To escape from danger (1).	1+1
14	Baby grows from within using food (1); Toy has no life processes (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Cells work only in suitable conditions (1); Temperature and water level need balance (1); Responses help to do it (1).	1+1+1
16	Snail uses muscles (1); Car uses an engine (1); Snail is living (1).	1+1+1
17	Cannot adapt (1); Food or habitat lost (1); Life processes fail (1).	1+1+1
	OR: It feeds (1); It grows (1); It moves and responds (1).	1+1+1
18	Wastes harm the body if they stay (1); Humans pass urine and sweat (1); Plants shed old leaves (1).	1+1+1
	OR: Individuals live without it (1); Species would end (1); Offspring replace the dead (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Reproduction (1). (ii) Excretion (1). (iii) By seeds (or cuttings, spores) (1). (iv) It produces new individuals (1), so that the species does not die out when old ones die (1).	1+1+1+2
20	Cover a potted plant in a dark bag (1); Bring out gas into lime water (1); Lime water turns milky (1); Plants respire all the time (1); In light photosynthesis hides it (1).	1+1+1+1+1
	OR: Crystals grow (1); Sand heaps grow (1); Not by cell division (1); So statement is false (1); Other life processes also needed (1).	1+1+1+1+1

Mistakes to avoid:

- Treating moving things like cars, clouds or flowing water as living; they do not grow, respire or reproduce.
- Writing that plants do not breathe or respond; plants respire and respond slowly to light and touch.
- Mixing respiration (gas exchange for energy) with breathing in and out only, or with excretion.
- Confusing **stimulus** (the change) with **response** (the reaction).
- Saying that all living things breathe with lungs; fish use gills, earthworms their skin.
- Forgetting that every living thing needs food, water and air, including plants.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
