THE MASTERMIND COACHING CLASSES

CBSE / RBSE · Nursery – Class XII · Road No. 5, VKIA, Jaipur · 9887258679

CLASS VI — SCIENCE · FULL-YEAR PRACTICE PAPER

Annual Examination Pattern · Session 2026-27 · Full Syllabus · Chapters 1–12

Class: 6	Subject: Science	Set 03	Time: 2 Hours 30 Minutes	Max. Marks: 60

General Instructions:

1. All questions are compulsory.
2. This question paper has five sections A, B, C, D and E. Marks are indicated against each question.
3. Section A (Q. 1, parts I–XII) consists of multiple choice questions of 1 mark each.
4. Section B (Q. 2–5) consists of very short answer questions of 2 marks each.
5. Section C (Q. 6–8) consists of short answer questions of 3 marks each.
6. Section D (Q. 9–11) consists of long answer questions of 5 marks each.
7. Section E (Q. 12–15) consists of four case-based / source-based questions of 4 marks each (1 + 1 + 2).
8. There is no overall choice. However, internal choice is given in some questions. Only one of the choices in such questions is to be attempted.
9. Draw neat and labelled diagrams wherever required.

SECTION A — Multiple Choice Questions — 1 questions · 12 marks

Question 1 has twelve parts (I–XII). Each carries 1 mark.

1. From Question I–XII, choose the correct option.

I. Which of the following is NOT a good practice for a scientist? 1

(a) Changing only one variable at a time
(b) Repeating the experiment to check the result
(c) Recording observations honestly
(d) Accepting the result of a single trial without repeating the experiment

II. Which of the following groups contains only trees? 1

(a) Rose, hibiscus, jasmine (b) Money plant, pumpkin, grape vine
(c) Tulsi, mint, coriander (d) Neem, banyan, mango

III. Chips and other fried packaged snacks are called junk food mainly because they are: 1

(a) rich in roughage
(b) high in fat, salt and sugar but low in useful nutrients
(c) full of proteins and vitamins
(d) made only of water

IV. Which of the following will NOT be attracted by a magnet? 1

(a) An aluminium foil (b) An iron nail
(c) A steel pin (d) An iron key

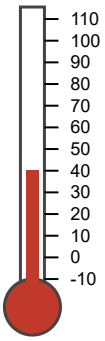

V. Which of these is a standard unit of length? 1

(a) Cubit (b) Handspan (c) Footstep (d) Centimetre

VI. Which of the following will float on water? 1

(a) A stone (b) A steel spoon (c) A wooden cork (d) An iron nail

VII The laboratory thermometer in the figure shows the temperature of water. If the water cools by 15 °C, the new reading will be: 1

(a) 15 °C (b) 25 °C (c) 40 °C (d) 55 °C

VIII Water changing into ice in a freezer is called: 1

(a) evaporation (b) freezing (c) melting (d) condensation

IX Cream is obtained from milk by churning. This method works because: 1

(a) fat dissolves in water

(b) the lighter fat separates out from the liquid when the milk is rotated rapidly

(c) milk is a pure substance

(d) milk evaporates

X A cow gives birth to a calf. This is an example of which characteristic of living things? 1

(a) Movement (b) Growth (c) Excretion (d) Reproduction

XI Which of the following habits helps in saving water at home? 1

(a) Leaving the tap running while brushing (b) Fixing leaking taps promptly

(c) Washing a car daily with a hosepipe (d) Throwing waste into ponds

XII Day and night occur on the Earth because the Earth: 1

(a) rotates on its axis (b) stops for some hours

(c) revolves around the Moon (d) moves away from the Sun

SECTION B — Very Short Answer Questions — 4 questions · 8 marks

2 marks each (about 30–40 words).

2. Write two differences between a herb and a tree. **2**

3. Why does a clinical thermometer have a kink near its bulb? **2**

4. Name the method used to separate (i) wheat grains from stones (ii) a mixture of oil and water in a separating funnel. **2**

OR

Why do we use a sieve while grinding grains at home? Name the method.

5. Why should we not waste natural resources such as water? Give two reasons. **2**

SECTION C — Short Answer Questions — 3 questions · 9 marks

3 marks each (about 60 words).

6. Arun wants to know if a plant grows better with fertiliser. Write (i) a question (ii) a hypothesis (iii) one thing he must keep the same for both plants. **3**

7. A student measures the length of a pencil as 14 cm and the width of a book as 0.21 m. (i) Convert the width of the book into cm. (ii) Which is longer? (iii) By how much? **3**

8. Write any three differences between living and non-living things, with an example for each. **3**

SECTION D — Long Answer Questions — 3 questions · 15 marks

5 marks each.

9. Classify the following into transparent, translucent and opaque: clear glass, butter paper, wooden door, plain water, oiled paper. **5**

OR

Give reasons: (i) Utensils for cooking are made of metals such as steel. (ii) Window panes are made of glass. (iii) The handle of a frying pan is made of plastic or wood. (iv) Raincoats are made of plastic. (v) Mirrors are coated with a shiny metal.

10. List the eight planets of the solar system in the order of their distance from the Sun. Name the planet (i) with rings (ii) known as the 'Red planet'. **5**

OR

Explain why the Moon seems to change shape every night. Name the full-moon day and the new-moon day.

11. Match the nutrient in Column I with its use in Column II. **5**

Column I	Column II
(a) Carbohydrates	(i) Help in digestion and prevent constipation
(b) Proteins	(ii) Give the most energy per gram
(c) Fats	(iii) Help in growth and repair
(d) Vitamins and minerals	(iv) Protect the body and keep it healthy
(e) Roughage	(v) Give quick energy

SECTION E — Case-based / Source-based Questions — 4 questions · 16 marks

Read the cases carefully and answer. Each question carries 4 marks.

12. In an experiment, Sneha placed some ice cubes in a steel plate and kept it in the sun. After some time the ice changed into water. She then left the plate in the sun for the whole afternoon, and the water disappeared.

(a) What is the change of ice into water called? 1

(b) Name the process by which the water in the plate disappeared. 1

(c) If she puts the water in a refrigerator's freezer, what will happen? Name the process. 2

OR

(d) Will the water evaporate faster if she spreads it on a wide tray? Why?

13. Rani went to the market with her mother. They bought fresh green vegetables, fruits, pulses, milk and rice for the week. Rani's mother said, "Local, seasonal and fresh food is cheap and healthy; packaged chips and cold drinks harm our body."

(a) Name the food group to which pulses mainly belong. 1

(b) Name a vitamin and a mineral that fruits and vegetables supply. 1

(c) Why is it better to eat seasonal and local food? 2

OR

(d) Suggest two healthy eating habits for a child.

14. Maya's grandfather uses a small magnet attached to a string to pick up pins that fall on the floor of his tailoring shop. Maya noticed that the magnet attracts iron pins from a little distance, but not brass buttons or plastic buttons.

(a) Which material in the story is attracted by the magnet? 1

(b) Is magnetic force a contact force or a force that acts from a distance? 1

(c) Why is the magnet unable to pick up brass buttons? 2

OR

(d) How can Maya prove that the magnet has two poles?

15. A group of students noted the lengths of five leaves with a ruler: 6.5 cm, 7.0 cm, 5.5 cm, 8.0 cm and 7.5 cm. Their teacher advised them to hold the ruler so that the zero mark is exactly at one end of the leaf and to read the scale with the eye directly above the mark.

(a) Name the longest of the five leaves. 1

(b) What is the difference in length between the longest and shortest leaves? 1

(c) Name the error that occurs if the scale is read from an angle. How can it be avoided? 2

OR

(d) Find the total length if all five leaves are placed end to end.
