THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 6 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 1

Chapter 3: **Landforms and Life** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A village on a steep slope grows rice on small flat steps. This is 1

(a) terrace farming **(b)** fishing **(c)** plain farming **(d)** plateau farming

2. Why do hill people build houses with sloping roofs? 1

(a) to hold water **(b)** to look nice
(c) to let rain and snow slide off **(d)** to collect heat

3. Which would be a sustainable activity in mountains? 1

(a) blasting rocks **(b)** eco-friendly tourism
(c) dumping waste **(d)** mass deforestation

4. A region has coal, iron and manganese along with forests. It is most likely a 1

(a) delta **(b)** island **(c)** plateau **(d)** glacier

5. Why is a mountain region sparsely populated? 1

(a) steep land and harsh climate **(b)** fertile soil
(c) warm climate **(d)** flat land

6. Why does a plateau often have fewer rivers than plains? 1

(a) no slope **(b)** no rock
(c) no rain **(d)** rocky surface and slope

7. A river drops 90 m from the edge of a plateau forming a fall. The landform to blame is the 1

(a) glacier **(b)** flat plain
(c) delta **(d)** steep edge of the plateau

8. Which would reduce soil erosion on a hillside? 1

(a) ploughing downhill **(b)** planting trees and terracing
(c) cutting trees **(d)** burning grass

9. **Assertion (A):** The Himalayas have tall, sharp, snow-covered peaks. 1
Reason (R): The Himalayas are young fold mountains that have not been worn down much by erosion.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** The Aravalli Range is an old mountain range with rounded tops. 1
Reason (R): The Aravalli Range is higher than the Himalayas.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why are plateaus important for hydroelectric power? 2

12. How do glaciers form rivers? 2

13. Why is mining both useful and harmful? 2

14. How do mountains make people physically fit? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Calculate the temperature at 3,500 m if the base temperature is 30 degrees C and it drops 6.5 degrees C per 1,000 m. 3

16. Compare the lives of farmers on hills and plains. 3

17. Analyse why waterfalls are tourist attractions and energy sources. 3

OR

Analyse why plains are densely populated while mountains are sparsely populated. 3

18. Examine the importance of forests on slopes. 3

OR

Examine how landforms influence the location of industries. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** Pooja visits a village in the Himalayan foothills. She sees steps cut into the slopes where people grow crops. Many families run guest houses for visitors who come to see the snow peaks. The local people tell her that heavy rain sometimes causes sudden falls of earth and rock, and in winter snow slides down the slopes. 5
(i) What is the farming on steps called?
(ii) Name one source of income here other than farming.
(iii) What is the fall of earth and rock called?
(iv) Why is it difficult to build roads and railways in mountain regions?

20. Compute and explain temperature changes with altitude and its effect on vegetation and settlement. 5

OR

Explain the evolution of landforms through time and how erosion and deposition change them. 5

END OF QUESTION PAPER — Total: 40 Marks
