- Making a century error: the 21st century is **2001 to 2100**, and the 3rd century BCE is 300 to 201 BCE, not 200 to 101 BCE.
- Believing there is a year 0. The count goes from 1 BCE directly to 1 CE.
- Mixing up the experts: **archaeologists** dig up remains, **palaeontologists** study fossils, **epigraphists** study inscriptions, **anthropologists** study societies.
- Putting sources in the wrong type: coins and pottery (archaeological), Vedas and epics (literary), folk tales (oral), paintings and sculptures (artistic).
- Writing that early humans farmed and lived in cities. They hunted and gathered and used caves; farming began after the Ice Age.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
