ANSWER KEY & MARKING SCHEME SET 1

Chapter 3: **Health: The Ultimate Treasure** | Class 8 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** physical, mental and social well-being	Health is more than the absence of disease.
2	**(b)** something a doctor can observe or measure, such as a rash	Signs are observable.
3	**(c)** vitamin C	Bleeding gums and weak joints.
4	**(b)** getting along well with family and neighbours	Social health concerns relationships.
5	**(d)** chronic	Chronic diseases are long lasting.
6	**(b)** vitamin A	Needed for vision.
7	**(b)** communicable	Communicable diseases are infectious.
8	**(b)** tuberculosis	TB can last for months.
9	**(d)** anaemia	Low haemoglobin.
10	**(c)** diabetes	It does not spread from person to person.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	State of complete physical, mental and social well-being (1); Not merely the absence of disease (1).	1+1
12	They prepare the body to fight a particular pathogen (1); They prevent the disease before it occurs (1).	1+1
13	Acute: short duration, e.g. cold (1); Chronic: long lasting, e.g. diabetes (1).	1+1
14	Symptom is felt by the patient, e.g. pain (1); Sign is observed or measured, e.g. fever or rash (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Physical: body works well, e.g. energy for play (1); Mental: emotional balance, e.g. managing stress (1); Social: good relationships, e.g. helping neighbours (1).	1+1+1
16	Vitamin A: night blindness (1); Vitamin C: scurvy, bleeding gums (1); Iron: anaemia, weakness (1).	1+1+1
17	They work only on bacteria (1); Wrong use causes resistance in bacteria (1); May have side effects (1).	1+1+1
	OR: Air: cold, tuberculosis (1); Water and food: cholera, typhoid (1); Vectors or contact: malaria, ringworm (1).	1+1+1
18	Washing hands with soap (1); Brushing teeth and bathing daily (1); Wearing clean clothes and trimming nails (1).	1+1+1
	OR: Wash the wound with clean water (1); Apply antiseptic (1); Cover it with a clean bandage (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	WHO: complete well-being, not just absence of disease (1); Physical: normal body functions (1); Mental: positive emotions, coping with stress (1); Social: healthy relationships (1); All aspects are linked (1).	1+1+1+1+1
	OR: Personal: handwashing, bathing, clean clothes (1); Community: clean water (1); Community: waste disposal (1); Community: drainage and sanitation (1); Together they break the chain of infection (1).	1+1+1+1+1
20	Malaria: Anopheles carries Plasmodium (1); Dengue: Aedes mosquito carries a virus (1); Cholera: contaminated water (1); Prevention: avoid stagnant water, nets (1); Boil water, hygiene (1).	1+1+1+1+1
	OR: Resistance of the body to disease (1); Skin and mucus form barriers (1); White blood cells engulf germs (1); Antibodies destroy the pathogen (1); Vaccines strengthen defence (1).	1+1+1+1+1

Mistakes to avoid:

- Defining health as only the absence of disease; the chapter includes mental and social health.
- Writing that all diseases spread from person to person; diabetes and cancer do not.
- Mixing carriers: malaria is spread by Anopheles, dengue by Aedes.
- Saying antibiotics cure viral diseases like influenza or dengue.
- Confusing a vaccine (prevents) with a medicine (treats).

- Naming only the disease and forgetting its cause, carrier and prevention when asked for a full answer.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 3: **Health: The Ultimate Treasure** | Class 8 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** disease-causing microorganisms	Pathogens cause diseases.
2	**(b)** vitamin D	Weak bones in children.
3	**(d)** female Anopheles mosquito	Malaria is carried by the Anopheles mosquito.
4	**(d)** air droplets from coughs and sneezes	Droplets carry the viruses from person to person.
5	**(a)** iodine	Thyroid swells.
6	**(c)** Aedes mosquito	Aedes breeds in clean standing water.
7	**(d)** vector	Vector carries disease.
8	**(b)** protects against infections	It defends the body.
9	**(b)** cholera	Cholera is a water-borne disease.
10	**(a)** bacteria	Salmonella bacteria.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Diseases that do not spread from person to person (1); e.g. diabetes, heart disease (1).	1+1
12	Drink boiled or purified water (1); Keep food covered and wash hands (1).	1+1
13	Diseases that spread from one person to another (1); e.g. cholera or tuberculosis (1).	1+1
14	Mosquitoes breed in standing water (1); This prevents malaria and dengue (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Female Anopheles mosquito carries the protozoan Plasmodium (1); It bites a person and passes the parasite (1); Prevent by mosquito nets, repellents and removing stagnant water (1).	1+1+1
16	Clean drinking water supply (1); Proper waste disposal (1); Vaccination drives (1).	1+1+1
17	Spreads through droplets in air by coughing (1); Bacterial infection of the lungs (1); Prevention: BCG vaccine and covering the mouth (1).	1+1+1
	OR: Communicable spread; non-communicable do not (1); Communicable are caused by pathogens (1); Non-communicable are due to lifestyle, deficiency or heredity (1).	1+1+1
18	Sneezing releases droplets with germs (1); A cloth stops droplets spreading (1); Reduces infection to others (1).	1+1+1
	OR: Stopping early leaves surviving bacteria (1); They may multiply again (1); Bacteria may become resistant (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Acute: short, e.g. cold (1); Chronic: long, e.g. diabetes (1); Communicable: pathogen, spreads (1); Non-communicable: lifestyle/deficiency (1); Examples for both (1).	1+1+1+1+1
	OR: Mental health affects thoughts and behaviour (1); Get enough sleep (1); Exercise and play (1); Talk to trusted people (1); Avoid too much screen time (1).	1+1+1+1+1
20	Weak or dead pathogen or part is given (1); Body forms antibodies (1); Memory cells protect later (1); Jenner noticed milkmaids with cowpox were protected (1); He made the first smallpox vaccine in 1796 (1).	1+1+1+1+1
	OR: Carbohydrates and fats give energy (1); Proteins build the body (1); Vitamins and minerals protect (1); Water and fibre are also needed (1); Lack of any causes deficiency (1).	1+1+1+1+1

Mistakes to avoid:

- Defining health as only the absence of disease; the chapter includes mental and social health.
- Writing that all diseases spread from person to person; diabetes and cancer do not.
- Mixing carriers: malaria is spread by Anopheles, dengue by Aedes.
- Saying antibiotics cure viral diseases like influenza or dengue.
- Confusing a vaccine (prevents) with a medicine (treats).

- Naming only the disease and forgetting its cause, carrier and prevention when asked for a full answer.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 3: **Health: The Ultimate Treasure** | Class 8 Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** fight germs	Defence cells.
2	**(b)** preparing the body to fight a pathogen in advance	Vaccines train the immune system.
3	**(c)** malaria	Caused by Plasmodium.
4	**(a)** remove germs	Soap removes microbes.
5	**(b)** Edward Jenner	Jenner used cowpox material.
6	**(c)** scurvy	Scurvy is due to vitamin C lack.
7	**(c)** regular sleep, exercise and talking about worries	A healthy routine and support help mental wellness.
8	**(a)** a change that the patient feels	Pain or tiredness are symptoms.
9	**(a)** fungus	A skin infection by a fungus.
10	**(d)** kill pathogens	Heat destroys microbes.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Affects how we think and make decisions (1); Affects relationships and daily work (1).	1+1
12	Organism that carries a pathogen from one host to another (1); Mosquito spreading malaria or dengue (1).	1+1
13	(a) Rickets (1); (b) Goitre (1).	1+1
14	Ability of the body to resist or fight disease (1); Provided by the immune system (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Vaccine has weakened or killed pathogen or its part (1); Body makes antibodies and remembers it (1); Polio, measles, smallpox (1).	1+1+1
16	Bacterial: typhoid, tuberculosis (1); Viral: measles, influenza (1); Antibiotics work only for bacterial diseases (1).	1+1+1
17	Difficulty in studying or working (1); Strained relationships (1); Sleep and eating problems (1).	1+1+1
	OR: Diet with all nutrients in proper amounts (1); Gives energy and growth (1); Prevents deficiency diseases (1).	1+1+1
18	White blood cells attack pathogens (1); Antibodies are made (1); The body remembers past infections (1).	1+1+1
	OR: To find out the cause of the illness (1); To choose the correct medicine (1); To monitor recovery (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Scurvy: vitamin C (1); Night blindness: vitamin A (1); Rickets: vitamin D (1); Anaemia: iron (1); Goitre: iodine (1).	1+1+1+1+1
	OR: Tobacco harms lungs and causes cancer (1); Alcohol damages the liver (1); Drugs harm the brain and nerves (1); They lead to addiction (1); They affect family and social life (1).	1+1+1+1+1
20	Through air: cover face while sneezing (1); Through water: drink clean water (1); Through food: cover and store food well (1); Through vectors: control mosquitoes (1); Through contact: avoid sharing towels (1).	1+1+1+1+1
	OR: Antibiotics treat bacterial infections (1); Vaccines prevent disease in advance (1); Antibiotics do not work on viruses (1); Use only on a doctor's advice (1); Complete the course (1).	1+1+1+1+1

Mistakes to avoid:

- Defining health as only the absence of disease; the chapter includes mental and social health.
- Writing that all diseases spread from person to person; diabetes and cancer do not.
- Mixing carriers: malaria is spread by Anopheles, dengue by Aedes.
- Saying antibiotics cure viral diseases like influenza or dengue.
- Confusing a vaccine (prevents) with a medicine (treats).

- Naming only the disease and forgetting its cause, carrier and prevention when asked for a full answer.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
