THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 8 — SCIENCE · NCERT-TYPE CHAPTER TEST SET 3

Chapter 6: **Pressure, Winds, Storms and Cyclones** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. NCERT-type: questions in the style of the textbook examples and exercises.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Thunderstorms are accompanied by: 1

(a) volcanoes **(b)** earthquakes
(c) snow only **(d)** lightning and thunder

2. A dam wall is made thicker at the bottom because: 1

(a) to save material **(b)** the base is colder
(c) water pressure increases with depth **(d)** water is heavier at the surface

3. A suction cup sticks to a wall because of: 1

(a) gravity **(b)** magnetism
(c) atmospheric pressure **(d)** friction only

4. Which of these should be done during a cyclone warning? 1

(a) stand under trees
(b) fly kites
(c) stay indoors and listen to official updates
(d) go to the beach

5. The pressure due to the weight of air is called: 1

(a) tyre pressure **(b)** water pressure
(c) blood pressure **(d)** atmospheric pressure

6. When we drink with a straw, the liquid rises because: 1

(a) the liquid is light
(b) the straw pulls
(c) gravity helps
(d) atmospheric pressure pushes the liquid up

7. A cyclone shelter is meant: 1

(a) to protect people from storms and floods **(b)** to store food only
(c) to make rain **(d)** to keep animals

8. Atmospheric pressure at higher altitudes is: 1

(a) higher **(b)** lower **(c)** infinite **(d)** the same

9. Pressure of a gas in a container is due to: 1

(a) weight of container
(b) colour
(c) collisions of gas particles with the walls
(d) temperature of air only

10. Wind speed is measured with an: 1

(a) voltmeter **(b)** thermometer **(c)** barometer **(d)** anemometer

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Name two instruments used in weather study and their use. 2

12. State two properties of pressure in liquids. 2

13. Differentiate between a sea breeze and a land breeze. 2

14. Give two safety measures during a thunderstorm. 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Describe how a barometer is used and what it shows at a mountain top. 3

16. Describe how a thunderstorm forms. 3

17. Why does a drinking straw work? Explain with pressure. 3

OR

Explain land and sea breeze in brief. 3

18. Why does a hot air balloon rise? 3

OR

What are the effects of a cyclone on coastal areas? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Describe the structure of a tropical cyclone and how it forms. Why does it weaken on land? 5

OR

Describe the working of a sea-breeze day and a land-breeze night, using temperature and pressure of air above land and sea. 5

20. Explain the effects of thunderstorms, tornadoes and cyclones and measures to reduce loss of life. 5

OR

Describe how weather forecasting helps farmers, fishermen and the public in storm season. 5

END OF QUESTION PAPER — Total: 40 Marks
