THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapter 1: **Natural Resources and Their Use** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** life	They sustain living beings
2	**(b)** river	Flows through four states or UTs
3	**(d)** waste plant and kitchen matter	A natural fertiliser
4	**(d)** Wind	Wind never runs out
5	**(a)** solar park	In Rajasthan
6	**(d)** slow-moving ice	Found in high mountains
7	**(a)** Coal	Takes millions of years
8	**(b)** plants	Care of trees
9	**(b)** River	Not made by humans
10	**(b)** energy	Solar power

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Wind (1); Sunlight (or river water) (1).	1+1
12	Sikkim (1); Became fully organic in 2016 (1).	1+1
13	To save (1); To use carefully for the future (1).	1+1
14	Coal (1); Petroleum (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Drinking (1); Farming (1); Industry (1).	1+1+1
16	Plant trees (1); Avoid burning waste (1); Use public transport (1).	1+1+1
17	Factory waste (1); Sewage (1); Plastic waste (1).	1+1+1
	OR: Coal (1); Sunlight (1); Wind (1).	1+1+1
18	Kept sacred groves (1); Stopped fishing in breeding season (1); Built ponds and tanks (1).	1+1+1
	OR: A large area with solar panels (1); Makes electricity from sunlight (1); Bhadla in Rajasthan is an example (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Meaning (1); Water: drinking (1); Wood: furniture (1); Coal: energy (1); Sunlight: solar power (1).	1+1+1+1+1
	OR: Dust (1); Harm to lungs (1); Harm to crops (1); Pollution control rules (1); Alternatives to cement (1).	1+1+1+1+1
20	Meaning of renewable (2); Three examples (1); Meaning of non-renewable (1); Three examples (1).	2+1+1+1
	OR: Oxygen (1); Wood (1); Home of animals (1); Prevent soil erosion (1); Bring rain (1).	1+1+1+1+1

Mistakes to avoid:

- Writing that Nature means only forests and rivers; it includes all living and non-living things not created by humans.
- Calling every resource renewable: timber and fish are renewable only if use stays below the rate of regeneration; coal and petroleum are non-renewable.
- Forgetting the **three** tests for a resource: technology, economic feasibility and cultural acceptability (age or distance is not a test).
- Mixing up **restoration** (back to the original state) with **regeneration** (new life and conditions), and ecosystem *function* with ecosystem *service*.
- Quoting figures wrongly: a mature tree gives about 275 litres of oxygen a day while a human needs about 350 litres; Sikkim went organic in 2016; the International Solar Alliance was launched with France in 2015.
- Treating the resource curse as 'resources cause poverty'; it means that plenty alone does not ensure development without value addition.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 2

Chapter 1: **Natural Resources and Their Use** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** can be replaced naturally	Nature restores them
2	**(c)** solar energy	Free and renewable
3	**(c)** materials	Used for furniture
4	**(c)** Petroleum	Formed from ancient life
5	**(b)** fish numbers	Fewer fish are born
6	**(d)** living and non-living things	Everything not made by us
7	**(b)** materials	Made into objects
8	**(a)** solar energy	Started in 2015
9	**(b)** factory	An industry
10	**(b)** using too much	More than Nature can renew

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Paddy (1); Wheat (1).	1+1
12	Fix leaking taps (1); Reuse water for plants (1).	1+1
13	Anything from Nature that humans use (1); Meets a need (1).	1+1
14	For breathing (1); Trees supply it (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Most of it comes from coal (1); Coal is limited (1); Saving reduces pollution (1).	1+1+1
16	Plants (1); Animals (1); Water, air and soil are non-living (1).	1+1+1
17	Making new things from used ones (1); Paper or glass reuse (1); Reduces waste (1).	1+1+1
	OR: Less oxygen (1); Soil erosion (1); Loss of animal homes (1).	1+1+1
18	Farming without chemical fertilisers (1); Uses compost (1); Uses natural pest control (1).	1+1+1
	OR: Gives oxygen (1); Gives wood and fruits (1); Gives shade (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Water is limited (1); Fix leaks (1); Harvest rain water (1); Reuse water (1); Do not waste (1).	1+1+1+1+1
	OR: Sacred groves (1); Fishing rules (1); Ponds and tanks (1); Respect for rivers (1); Mixed cropping (1).	1+1+1+1+1
20	Used compost (1); Used neem and garlic sprays (1); Grew many crops (1); Stopped chemicals (1); Earned more (1).	1+1+1+1+1
	OR: Meaning (1); Save water (1); Save electricity (1); Plant trees (1); Recycle (1).	1+1+1+1+1

Mistakes to avoid:

- Writing that Nature means only forests and rivers; it includes all living and non-living things not created by humans.
- Calling every resource renewable: timber and fish are renewable only if use stays below the rate of regeneration; coal and petroleum are non-renewable.
- Forgetting the **three** tests for a resource: technology, economic feasibility and cultural acceptability (age or distance is not a test).
- Mixing up **restoration** (back to the original state) with **regeneration** (new life and conditions), and ecosystem *function* with ecosystem *service*.
- Quoting figures wrongly: a mature tree gives about 275 litres of oxygen a day while a human needs about 350 litres; Sikkim went organic in 2016; the International Solar Alliance was launched with France in 2015.
- Treating the resource curse as 'resources cause poverty'; it means that plenty alone does not ensure development without value addition.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 1: **Natural Resources and Their Use** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** not equally spread	Uneven distribution
2	**(b)** oxygen	Gas needed for breathing
3	**(d)** careful and responsible use	Take care of resources
4	**(a)** Fixing leaking taps	Good habit
5	**(c)** organic farming	First fully organic state
6	**(c)** Switching off unused lights	Saves energy
7	**(c)** recycled or reused	Reduces pollution
8	**(c)** groundwater	Over-pumping
9	**(c)** collecting rain water	Used to store water
10	**(c)** give oxygen and wood	Useful ecosystem

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	In Rajasthan (1); It produces solar power (1).	1+1
12	Fuel formed from ancient plants and animals (1); Coal or petroleum (1).	1+1
13	Furniture (1); Paper (1).	1+1
14	Kaveri (1); It is a source of dispute (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Soil (1); Water (1); Sunlight (1).	1+1+1
16	Reuse jars (1); Use old cloth bags (1); Give old books to others (1).	1+1+1
17	Making electricity (1); Cooking in some places (1); Running industries (1).	1+1+1
	OR: Renewable can be replaced, non-renewable cannot (1); Renewable example: wind (1); Non-renewable example: coal (1).	1+1+1
18	Provide water (1); Help farming (1); Support transport and fishing (1).	1+1+1
	OR: Do not waste water (1); Plant trees (1); Reduce, reuse and recycle (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Wheat and paddy need much water (1); Free power (1); Water level falls (1); Wells dry up (1); Remedies (1).	1+1+1+1+1
	OR: Fungi and bacteria break it down (1); Insects feed on it (1); Soil becomes rich (1); New plants grow (1); Nature wastes nothing (1).	1+1+1+1+1
20	Meaning (1); Bhadla Solar Park (1); International Solar Alliance (1); Advantages (1); Clean and renewable (1).	1+1+1+1+1
	OR: They are non-renewable (1); Coal may last only about 50 years (1); They pollute air (1); Use renewables (1); Save for the future (1).	1+1+1+1+1

Mistakes to avoid:

- Writing that Nature means only forests and rivers; it includes all living and non-living things not created by humans.
- Calling every resource renewable: timber and fish are renewable only if use stays below the rate of regeneration; coal and petroleum are non-renewable.
- Forgetting the **three** tests for a resource: technology, economic feasibility and cultural acceptability (age or distance is not a test).
- Mixing up **restoration** (back to the original state) with **regeneration** (new life and conditions), and ecosystem *function* with ecosystem *service*.
- Quoting figures wrongly: a mature tree gives about 275 litres of oxygen a day while a human needs about 350 litres; Sikkim went organic in 2016; the International Solar Alliance was launched with France in 2015.
- Treating the resource curse as 'resources cause poverty'; it means that plenty alone does not ensure development without value addition.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
