THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 8 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 8: **Understanding the World through Maps and Landforms** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. If elk numbers rise and plants vanish because wolves have disappeared, the step that can restore the balance is 1

(a) planting more elk **(b)** building more roads in the park
(c) draining the rivers **(d)** reintroducing the wolf, the top predator

2. A desert that is cold and found in Asia is 1

(a) Gobi **(b)** Kalahari **(c)** Sahara **(d)** Atacama

3. Bleaching of coral near warm water events shows 1

(a) tides **(b)** river flow
(c) glaciers **(d)** sensitivity of reefs to temperature

4. Fast fashion waste in the Atacama signals a failure in 1

(a) waste management and consumption **(b)** trade routes
(c) rainfall **(d)** wind

5. A pattern in which people live along a river in a desert is explained by 1

(a) forests **(b)** oil
(c) mountains **(d)** water availability

6. A trench 11 km deep is in the 1

(a) Southern **(b)** Arctic **(c)** Atlantic **(d)** Pacific

7. A hot, wet, dense evergreen region near the equator is 1

(a) Steppe **(b)** Tundra
(c) Gobi **(d)** Amazon rainforest

8. The 'Third Pole' nickname for Tibet reflects 1

(a) its height **(b)** its rain
(c) its large stock of ice **(d)** its cold polar bears

9. **Assertion (A):** The Sahara is the largest hot desert in the world. 1
Reason (R): The Gobi is a hot desert in Mongolia and northern China.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** The Ural Mountains separate Asia from Africa. 1
Reason (R): The Alps form a crescent-shaped range in south-central Europe.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why would a nation want control of a strait? 2

12. Why may fast fashion be called unsustainable? 2

13. What does bleaching of corals indicate? 2

14. How does ecological balance depend on predators? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Analyse why the Tibetan Plateau affects billions downstream. 3

16. Assess the Suez Canal's role in global trade. 3

17. Assess why the Sahara remains sparsely populated despite oases. 3

OR

Evaluate the argument that deserts are useless. 3

18. Examine why savannah wildlife needs protection. 3

OR

Examine human adaptation to cold deserts like the Gobi. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** The Tibetan Plateau, with an average height above 4,000 m, is known as the 'Roof of the World'. It was formed by the collision of the Indo-Australian and Eurasian plates, which also raised the Himalaya. North of it lies the cold Gobi Desert, and across Eurasia stretch flat, treeless grasslands. 5
(i) Which plateau is called the 'Roof of the World'?
(ii) Which plates collided to form it?
(iii) Where is the Gobi Desert mainly located?
(iv) Why is the Tibetan Plateau called the Roof of the World?

20. Explain how plate tectonics produced the Tibetan Plateau and Himalaya and how they shape Asia's climate and rivers. 5

OR

Describe how maps with different projections can mislead and how to read them critically. 5

END OF QUESTION PAPER — Total: 40 Marks
