THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 8 — SOCIAL SCIENCE · NCERT-TYPE CHAPTER TEST SET 3

Chapter 13: **Dynamics of Population** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. NCERT-type: questions in the style of the textbook examples and exercises.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The median age of a population is the 1

(a) average age
(b) oldest age
(c) youngest age
(d) age that divides the population into two equal halves

2. The replacement level of fertility is about 1

(a) 5 **(b)** 2.1 children per woman
(c) 0.5 **(d)** 1

3. Which of these tends to lower fertility rates? 1

(a) poverty only
(b) education of girls and women's employment
(c) child marriage
(d) lack of schools

4. Population density is 1

(a) people per village **(b)** people per square kilometre
(c) births per 1,000 **(d)** females per 1,000 males

5. If fertility stays below replacement level for a long time, the population will 1

(a) double **(b)** grow rapidly
(c) stay constant forever **(d)** eventually shrink

6. A population pyramid with a wide base indicates 1

(a) no children **(b)** an ageing population
(c) equal ages **(d)** a young population with high birth rate

7. A country with many elderly people needs more 1

(a) schools only **(b)** playgrounds
(c) health care and pension services **(d)** roads only

8. The sex ratio is the number of 1

(a) children per family **(b)** males per 1,000 females
(c) females per 1,000 males **(d)** births per woman

9. A population pyramid that is narrow at the base and wide at the top shows 1

(a) no migrants **(b)** a young population
(c) an ageing population **(d)** a growing population

10. Which factor does NOT determine the size of a population? 1

(a) births **(b)** soil colour **(c)** deaths **(d)** migration

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. State two reasons for fall in fertility rates. 2

12. What is replacement level fertility? 2

13. What is a population pyramid? 2

14. What is population density? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain the three indicators that decide population size. 3

16. Explain the three stages of demographic transition. 3

17. A town has 40,000 people and a birth rate of 25 per 1,000. Find births per year. 3

OR

Describe China's One-Child Policy and its effects. 3

18. Explain why the sex ratio is important. 3

OR

A region of 200 sq km has 50,000 people. Find the density. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. Describe China's and India's population policies and their results. 5

OR

Describe the challenges of an ageing population using Japan. 5

20. Explain the stages of the demographic transition with reference to India. 5

OR

Describe the role of health and education in changing life expectancy and fertility. 5
