THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapter 13: **Dynamics of Population** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** 1,440	60 x 24 = 1,440
2	**(d)** falling birth rate with a growing working-age group	India now
3	**(a)** child mortality	Deaths below five
4	**(c)** 200 per sq km	80,000/400 = 200
5	**(a)** there are no jobs or skills for youth	Needs jobs
6	**(a)** social imbalance in marriage and safety	Concern for society
7	**(c)** 1,900,000	2,000,000 x 950 / 1,000
8	**(b)** a fall in fertility and a rapid ageing later	Later relaxed
9	**(d)** Beti Bachao Beti Padhao	Launched in 2015
10	**(a)** 30 per 1,000	3,000/100,000 x 1,000

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	5 x 20 = 100 (1); 100 births (1).	1+1
12	Some children die young (1); Needs margin (1).	1+1
13	Falling birth rate (1); Fewer children (1).	1+1
14	90,000 / 300 = 300 (1); 300 per sq km (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Growth is births minus deaths (1); If births exceed deaths population rises (1); Migration also matters (1).	1+1+1
16	Many young people (1); Need jobs (1); Need education (1).	1+1+1
17	Fertile plains (1); Hilly terrain (1); Employment (1).	1+1+1
	OR: Delays marriage (1); Reduces fertility (1); Improves child health (1).	1+1+1
18	Fall in births (1); Ageing (1); Gender imbalance (1).	1+1+1
	OR: 600 x 15 = 9,000 (1); 9,000 births (1); Rate is per 1,000 (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Death rate fall (1); Medicine (1); Sanitation (1); Birth rate stays (1); Result (1).	1+1+1+1+1
	OR: Median age (1); Causes (1); Health (1); Economy (1); Policy (1).	1+1+1+1+1
20	Stage 1 (1); Stage 2 (1); Stage 3 (1); India's position (1); Future (1).	1+1+1+1+1
	OR: Policy (1); Method (1); Result (1); Difference (1); Lessons (1).	1+1+1+1+1

Mistakes to avoid:

- Forgetting that birth rate and death rate are per **1,000** people per year, and that sex ratio is **females per 1,000 males** (943 in 2011, not 94.3 or 1.06).
- Mixing fertility rate (children per woman, replacement level about 2.1) with birth rate (births per 1,000 population).
- Reversing demographic transition stages: Stage 1 both rates high; Stage 2 death rate falls, birth rate high (rapid growth).
- Reading a wide-based pyramid as an ageing population; a wide base means young, a wide top means ageing.
- Confusing push factors (lack of jobs at home) with pull factors (better jobs in cities).
- Saying a large young population automatically gives a demographic dividend; it needs skills and jobs. Population density is per square kilometre, and the census is every 10 years.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 13: **Dynamics of Population** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** push factor	Disasters push people out
2	**(b)** in-migration	Migration adds numbers
3	**(a)** 8 per 1,000	800/100,000 x 1,000
4	**(a)** pull factor	Attracts migrants
5	**(b)** age and the workforce shrinks	Out-migration
6	**(d)** 849 million	1,210 - 361
7	**(b)** some children do not survive to adulthood	Allows for mortality
8	**(b)** land, resources and employment differ	Uneven distribution
9	**(d)** health care improved quickly while social habits changed slowly	Cause of the population explosion
10	**(c)** have an ageing population	Like Japan

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Higher literacy lowers it (1); Later marriage (1).	1+1
12	Jobs (1); Education and health (1).	1+1
13	4,000,000 x 940 / 1,000 (1); 3,760,000 (1).	1+1
14	Health costs (1); Fewer workers (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Shows age structure (1); Shows distribution (1); Helps allocate funds (1).	1+1+1
16	Cost of living (1); Education (1); Women's work (1).	1+1+1
17	1,200 x 450 (1); = 540,000 (1); 5.4 lakh (1).	1+1+1
	OR: Better care lowers deaths (1); People live longer (1); More elderly (1).	1+1+1
18	Girl education (1); Awareness (1); Strict laws (1).	1+1+1
	OR: Emigration leaves a country (1); Immigration enters a country (1); Same movement different view (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Data trend (1); Reasons (1); Bihar vs Kerala (1); Policy (1); Conclusion (1).	1+1+1+1+1
	OR: Meaning (1); Data (1); Causes (1); Effects (1); Measures (1).	1+1+1+1+1
20	Meaning (1); 1950 (1); Today (1); Change (1); Planning (1).	1+1+1+1+1
	OR: Death rate (1); Birth rate (1); Women (1); Life expectancy (1); Examples (1).	1+1+1+1+1

Mistakes to avoid:

- Forgetting that birth rate and death rate are per **1,000** people per year, and that sex ratio is **females per 1,000 males** (943 in 2011, not 94.3 or 1.06).
- Mixing fertility rate (children per woman, replacement level about 2.1) with birth rate (births per 1,000 population).
- Reversing demographic transition stages: Stage 1 both rates high; Stage 2 death rate falls, birth rate high (rapid growth).
- Reading a wide-based pyramid as an ageing population; a wide base means young, a wide top means ageing.
- Confusing push factors (lack of jobs at home) with pull factors (better jobs in cities).
- Saying a large young population automatically gives a demographic dividend; it needs skills and jobs. Population density is per square kilometre, and the census is every 10 years.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 13: **Dynamics of Population** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** Stage 2	Rapid growth
2	**(a)** many young people are still entering parenthood	Momentum
3	**(c)** health care and pensions	Needs shift
4	**(a)** slowing growth as births fall	Growth continues but slows
5	**(d)** higher female literacy goes with lower fertility	Bihar 3.0 vs Delhi 1.6
6	**(a)** schools and jobs	Needs shift
7	**(c)** below replacement level	Population will fall eventually
8	**(a)** a high birth rate	Many children
9	**(c)** city life, schooling and costs favour smaller families	Smaller families
10	**(a)** doubles	Density is proportional

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Benefit of many workers (1); Requires jobs (1).	1+1
12	Better medicines (1); Better sanitation (1).	1+1
13	In-migration raises it (1); Out-migration lowers it (1).	1+1
14	Half are younger (1); Half are older (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Young: wide base (1); Ageing: narrow base (1); Examples (1).	1+1+1
16	Stage 1 high both rates (1); Stage 3 low rates (1); Growth differs (1).	1+1+1
17	Median age rose (1); Population ageing slowly (1); Needs change (1).	1+1+1
	OR: Young leave (1); Elderly remain (1); Workforce shrinks (1).	1+1+1
18	Large young group (1); Falling deaths (1); Momentum (1).	1+1+1
	OR: More elderly (1); Broader top (1); Needs change (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Push (1); Pull (1); Jobs (1); Slums (1); Services (1).	1+1+1+1+1
	OR: Density = 750000/2500 = 300 (1); Births = 750 x 22 = 16,500 (1); Deaths = 750 x 8 = 6,000 (1); Natural increase = 10,500 (1); Rate 14 per 1,000 (1).	1+1+1+1+1
20	Meaning (1); Youth (1); Education (1); Jobs (1); Risks (1).	1+1+1+1+1
	OR: Young (1); Working age (1); Elderly (1); Needs (1); Planning (1).	1+1+1+1+1

Mistakes to avoid:

- Forgetting that birth rate and death rate are per **1,000** people per year, and that sex ratio is **females per 1,000 males** (943 in 2011, not 94.3 or 1.06).
- Mixing fertility rate (children per woman, replacement level about 2.1) with birth rate (births per 1,000 population).
- Reversing demographic transition stages: Stage 1 both rates high; Stage 2 death rate falls, birth rate high (rapid growth).
- Reading a wide-based pyramid as an ageing population; a wide base means young, a wide top means ageing.
- Confusing push factors (lack of jobs at home) with pull factors (better jobs in cities).
- Saying a large young population automatically gives a demographic dividend; it needs skills and jobs. Population density is per square kilometre, and the census is every 10 years.
