ANSWER KEY & MARKING SCHEME SET 1

Chapter 13: **Dynamics of Population** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** 12	18 - 6
2	**(a)** the population shrinks	Fewer births
3	**(d)** high birth, falling death	Rapid growth
4	**(d)** 200,000	250 x 800
5	**(a)** youth lack education and jobs	Needs skills
6	**(d)** hilly forest terrain limits farming and settlement	Geography effect
7	**(d)** 10	1,500/150
8	**(d)** 10%	30/300
9	**(a)** Both A and R are true and R is the correct explanation of A.	Fewer births than replacement leads to decline, as R explains.
10	**(b)** Both A and R are true but R is not the correct explanation of A.	Both are true, but R is only a definition and does not explain why the figure was 943.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Reflects social attitudes (1); Shows treatment of girls (1).	1+1
12	China used a one-child law (1); India used campaigns and education (1).	1+1
13	Natural increase is births minus deaths (1); Total includes migration (1).	1+1
14	3,200/100 = 32 (1); 32 per 1,000 (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Workers and market (1); Needs skills (1); Pressure on resources (1).	1+1+1
16	Labour supply (1); Remittances (1); Skills (1).	1+1+1
17	Needs differ by age (1); Dependency (1); Workforce (1).	1+1+1
	OR: Higher female literacy (1); Health services (1); Later marriage (1).	1+1+1
18	Birth rates (1); Death rates (1); Growth (1).	1+1+1
	OR: Japan older now (1); India young now (1); India will age later (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) 150/5000 x 1000 = 30 per 1,000 (1). (ii) 50/5000 x 1000 = 10 per 1,000 (1). (iii) Stage 2: death rate falls while birth rate stays high (1). (iv) 30 - 10 = 20 per 1,000 (2 per cent); better medicine and sanitation lowered deaths (2).	1+1+1+2
20	Young India (1); Ageing Japan (1); Dependency (1); Services (1); Policy (1).	1+1+1+1+1
	OR: Wide base (1); Bell shape (1); Inverted base (1); Needs (1); Policies (1).	1+1+1+1+1

Mistakes to avoid:

- Forgetting that birth rate and death rate are per **1,000** people per year, and that sex ratio is **females per 1,000 males** (943 in 2011, not 94.3 or 1.06).
- Mixing fertility rate (children per woman, replacement level about 2.1) with birth rate (births per 1,000 population).
- Reversing demographic transition stages: Stage 1 both rates high; Stage 2 death rate falls, birth rate high (rapid growth).
- Reading a wide-based pyramid as an ageing population; a wide base means young, a wide top means ageing.
- Confusing push factors (lack of jobs at home) with pull factors (better jobs in cities).
- Saying a large young population automatically gives a demographic dividend; it needs skills and jobs. Population density is per square kilometre, and the census is every 10 years.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 13: **Dynamics of Population** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** 25%	10/40
2	**(a)** proportion above 60 years	Elderly share
3	**(d)** education delays marriage and increases awareness	Female literacy and fertility
4	**(a)** poor girl education and weak health services	Reasons
5	**(a)** enlarge the elderly share	Age shift
6	**(b)** a large young cohort is having children	Momentum
7	**(d)** number of children aged 6-14	Age structure
8	**(d)** it is a source of reliable population data for the whole country	Decennial
9	**(c)** A is true but R is false.	A is true. R is false: a wide base means many children and a high birth rate.
10	**(d)** A is false but R is true.	A is false and R is true.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Youth will age (1); Dependency will rise (1).	1+1
12	Reflects health (1); Reflects care (1).	1+1
13	Late marriage (1); Education and work (1).	1+1
14	Experience (1); Silver economy (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Wide base then (1); Narrower base now (1); Larger working-age share (1).	1+1+1
16	40/400 = 10% (1); Population rising (1); Pressure on resources (1).	1+1+1
17	Women and elderly left (1); Remittances (1); Farm labour shortage (1).	1+1+1
	OR: Marriage squeeze (1); Safety (1); Social imbalance (1).	1+1+1
18	16 per 1,000 (1); 6 per 1,000 (1); Natural increase 10 per 1,000 (1).	1+1+1
	OR: Averages hide variation (1); Ignores terrain (1); Ignores resources (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) A young population with a high birth rate (1). (ii) An ageing population (1). (iii) Japan (1). (iv) A needs schools and jobs; B needs health care and pension services (2).	1+1+1+2
20	Causes (1); Effects (1); Laws (1); Education (1); Campaigns (1).	1+1+1+1+1
	OR: Density = 300 (1); Births 18,000 (1); Deaths 6,300 (1); Natural increase 11,700 (1); Comment on growth (1).	1+1+1+1+1

Mistakes to avoid:

- Forgetting that birth rate and death rate are per **1,000** people per year, and that sex ratio is **females per 1,000 males** (943 in 2011, not 94.3 or 1.06).
- Mixing fertility rate (children per woman, replacement level about 2.1) with birth rate (births per 1,000 population).
- Reversing demographic transition stages: Stage 1 both rates high; Stage 2 death rate falls, birth rate high (rapid growth).
- Reading a wide-based pyramid as an ageing population; a wide base means young, a wide top means ageing.
- Confusing push factors (lack of jobs at home) with pull factors (better jobs in cities).
- Saying a large young population automatically gives a demographic dividend; it needs skills and jobs. Population density is per square kilometre, and the census is every 10 years.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 13: **Dynamics of Population** | Class 8 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** a large youth population	Youth bulge
2	**(c)** support for families, pensions and skilled migration	Balance
3	**(d)** it brings workers to cities but strains services	Delhi, Mumbai, Bengaluru
4	**(d)** slums and strain on water and transport	Common result
5	**(d)** out-migration for jobs	Missing workers
6	**(c)** more than currently being born	2.1 needed
7	**(a)** India has more youth while Japan faces ageing	Contrast
8	**(c)** skewed ratios reflect preference for sons and harm women	Beti Bachao Beti Padhao
9	**(a)** Both A and R are true and R is the correct explanation of A.	R gives a reason for the trend.
10	**(b)** Both A and R are true but R is not the correct explanation of A.	Both are true but unrelated.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Low fertility (1); Ageing (1).	1+1
12	Out-migration of working-age people (1); Few workers locally (1).	1+1
13	Ignores resources (1); Ignores distribution (1).	1+1
14	Differences in education (1); Differences in health (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Deaths fall (1); Births remain (1); Rapid growth (1).	1+1+1
16	Fertility falls (1); Child mortality falls (1); Higher employment (1).	1+1+1
17	Reduces pressure (1); Ageing risk (1); Needs planning (1).	1+1+1
	OR: Ageing (1); Labour shortage (1); Gender imbalance (1).	1+1+1
18	Education (1); Skills (1); Jobs (1).	1+1+1
	OR: Awareness (1); Education of girls (1); Limits of campaigns (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) Moving from one place to another to live, temporarily or permanently (1). (ii) Lack of jobs at home (1). (iii) Better jobs in the city (1). (iv) It gives population size, age and distribution, so services such as schools, housing and health care can be planned (2).	1+1+1+2
20	Push and pull (1); Cities (1); Villages (1); Economy (1); Policy (1).	1+1+1+1+1
	OR: Human capital (1); Markets (1); Pressure (1); Skills (1); Conclusion (1).	1+1+1+1+1

Mistakes to avoid:

- Forgetting that birth rate and death rate are per **1,000** people per year, and that sex ratio is **females per 1,000 males** (943 in 2011, not 94.3 or 1.06).
- Mixing fertility rate (children per woman, replacement level about 2.1) with birth rate (births per 1,000 population).
- Reversing demographic transition stages: Stage 1 both rates high; Stage 2 death rate falls, birth rate high (rapid growth).
- Reading a wide-based pyramid as an ageing population; a wide base means young, a wide top means ageing.
- Confusing push factors (lack of jobs at home) with pull factors (better jobs in cities).

- Saying a large young population automatically gives a demographic dividend; it needs skills and jobs. Population density is per square kilometre, and the census is every 10 years.
