THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 8 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 13: **Dynamics of Population** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A country's population grew from 40 million to 50 million. The percentage growth is 1

(a) 50% **(b)** 10% **(c)** 25% **(d)** 20%

2. Which of these data would best indicate ageing? 1

(a) proportion above 60 years **(b)** density
(c) child mortality **(d)** sex ratio

3. Which is the best explanation for a state with high literacy and low fertility? 1

(a) literacy forces people to migrate
(b) literacy lowers the median age
(c) literacy raises the death rate
(d) education delays marriage and increases awareness

4. Which policy gap could explain slow decline of fertility in a state? 1

(a) poor girl education and weak health services
(b) few births
(c) high female literacy
(d) many colleges

5. A rise in life expectancy with constant fertility will 1

(a) enlarge the elderly share **(b)** shrink the elderly
(c) double births **(d)** stop deaths

6. Why can a population keep growing even when fertility is below 2.1 for some years? 1

(a) births are zero **(b)** a large young cohort is having children
(c) deaths are high **(d)** migrants leave

7. Which indicator would a government use to plan primary schools? 1

(a) median age of elderly **(b)** density only
(c) sex ratio only **(d)** number of children aged 6-14

8. Which statement on census is true? 1

(a) it is done yearly
(b) it counts only cities
(c) it counts only farms
(d) it is a source of reliable population data for the whole country

9. **Assertion (A):** A population pyramid with a wide base indicates a young population. 1
Reason (R): A wide base means that there are very few children.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** In Stage 2 of the demographic transition the birth rate falls rapidly while the death rate stays high. 1
Reason (R): In Stage 2 the death rate falls while the birth rate stays high.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why is demographic dividend time-limited? 2

12. Why is child mortality a better indicator of development than density? 2

13. Why may fertility be low in a state with high incomes? 2

14. How can ageing be an opportunity? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Compare the pyramids of India in 1950 and now. 3

16. A district's density changes from 400 to 440 in a decade. Compute percentage change and comment. 3

17. Examine how rural-urban migration can affect families left behind. 3

OR

Examine the consequences of a skewed sex ratio. 3

18. A city has 8,00,000 people, 12,800 births and 4,800 deaths in a year. Find birth and death rates. 3

OR

Discuss the limitations of using density alone. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** Country A has a population pyramid with a very wide base and a narrow top. Country B has a pyramid that is narrow at the base and wide at the top. Japan is an example of a country like B. 5
(i) What does the pyramid of Country A show?
(ii) What does the pyramid of Country B show?
(iii) Name one country that resembles B.
(iv) Which services should each country plan for?

20. Discuss the causes, effects and solutions of the sex-ratio imbalance. 5

OR

A state has 3,000 sq km, population 9,00,000, birth rate 20 and death rate 7 per 1,000. Compute the density, births, deaths and natural increase, and comment. 5

END OF QUESTION PAPER — Total: 40 Marks
