THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 8 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 3

Chapter 13: **Dynamics of Population** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A government plans more colleges and skill centres. The probable reason is 1

(a) high death rate **(b)** falling density
(c) an ageing population **(d)** a large youth population

2. Which of these would be the best policy for a country with a very low fertility rate and ageing? 1

(a) cut schools
(b) cut health
(c) support for families, pensions and skilled migration
(d) ban migration

3. Why is migration both an opportunity and a challenge? 1

(a) it has no effect on cities
(b) it always raises the birth rate
(c) it only helps villages
(d) it brings workers to cities but strains services

4. Which is a problem of rapid urban migration? 1

(a) surplus land **(b)** less crowding
(c) no jobs anywhere **(d)** slums and strain on water and transport

5. A village's pyramid shows a very small age group of 20-35. Most likely cause is 1

(a) high deaths **(b)** baby boom
(c) war **(d)** out-migration for jobs

6. If the total fertility rate is 1.6, then the number of births needed to reach replacement is 1

(a) fewer **(b)** zero
(c) more than currently being born **(d)** equal

7. What does a median age of 50 for Japan and 28 for India imply? 1

(a) India has more youth while Japan faces ageing
(b) both are young
(c) both are old
(d) Japan is younger

8. Which statement correctly links the sex ratio and society? 1

(a) the sex ratio depends only on the number of cities
(b) the ratio has no effect on marriage or safety
(c) skewed ratios reflect preference for sons and harm women
(d) a low ratio shows that women live longer

9. **Assertion (A):** Education of girls and women's employment tend to lower fertility rates. 1
Reason (R): Educated women are more likely to take decisions about family size and marriage.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** World population rose rapidly after 1950 mainly because death rates fell. 1
Reason (R): China introduced its One-Child Policy in 1979.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why do some countries now encourage births? 2

12. What can be inferred from a pyramid with a hollow middle? 2

13. Why does density not show the quality of life? 2

14. Why do states differ in demographic transition stage? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Analyse how health improvement can raise growth in the short run. 3

16. Discuss how girls' education affects the demographic indicators. 3

17. Examine whether a falling fertility rate is always good news. 3

OR

Evaluate the one-child policy's long-term consequences. 3

18. Analyse the role of government in managing the demographic dividend. 3

OR

Evaluate the role of campaigns like Beti Bachao Beti Padhao. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** Sunita left her village in Odisha, where there were few jobs, and moved to Bengaluru, which offered better jobs. She is one of many migrants who shift between places. The census, held every 10 years, helps planners estimate how many homes, schools and hospitals cities need. 5
(i) What is migration?
(ii) Name the push factor in the passage.
(iii) Name the pull factor in the passage.
(iv) Explain how census data is useful for planners.

20. Evaluate how migration shapes both the places people leave and the places they reach. 5

OR

Evaluate the statement: 'Population is a resource, not only a problem'. 5

END OF QUESTION PAPER — Total: 40 Marks
