Mistakes to avoid:

- Saying 'pankha' comes from a metal or cloth word. It is linked to **pankh**, a bird's feather, because early hand fans were made of feathers.
- Writing that hand fans are the same everywhere. They differ from region to region because craftspeople used **local materials** and added their own designs.
- Giving 'electricity' as the only reason the craft is at risk. The fuller answer is modern technology and machine-made cooling, which reduced demand, so hand fans survive mostly as decorative pieces.
- Missing the pun in the title: 'Winds of Change' refers both to the wind a fan makes and to change in society. Say 'double meaning', not 'a storm'.

- In 'Canvas of Soil', calling the gardener a thief or saying the poem is about farming for profit. The poem treats the garden as a painting: seeds are **brushstrokes** and the gardener is an artist (metaphor).
- Grammar slips: *Craftspeople **have** kept the art alive* (plural subject), and **an** artisan (vowel sound), not 'a artisan'.
