Mistakes to avoid:

- Treating the first piece as a story. 'The World of Limitless Possibilities' is an **interview** with Dr Deepa Malik, so answers should say 'she says' and use question-and-answer content.
- Mixing up the medal: Dr Malik won a **silver** medal in shot put at the Rio Paralympics (2016). Do not call it an Olympic gold; the Paralympics are for athletes with disabilities.
- Explaining 'ability beyond disability' as 'disabled people cannot work'. It means talent and strength go beyond physical limits, and sport changes how society sees persons with disabilities.
- Stating that the main hurdle was only the body. She points to society's attitude and underestimation; the answer must include resilience, treating setbacks as chances to grow.

- In 'Nine Gold Medals', saying one runner wins. The nine runners finish together, so **compassion matters more than winning**, which explains the title.
- Spelling and article slips: *Paralympic* (not 'Paraolympic'), *an* athlete, plural *medals*; do not mix up 'success' and 'failure' when asked for an opposite.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
