THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 9 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 3

Chapter 2: **The Price Puzzle (Economics)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Which scenario shows a rightward shift of demand for umbrellas? 1

(a) End of monsoon **(b)** Fall in number of buyers
(c) Onset of monsoon **(d)** Fall in umbrella price

2. The 'ease of doing business' is lower when 1

(a) licences and approvals are many and complex
(b) rules are simple
(c) taxes are zero
(d) approvals are quick

3. If price falls from Rs 150 to Rs 50 and market demand rises from 6 to 18 kg, the increase in demand is 1

(a) 6 kg **(b)** 18 kg **(c)** 12 kg **(d)** 3 kg

4. Assertion (A): Hoarding reduces supply in the market. Reason (R): Hoarders sell goods immediately at low prices. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

5. Which is the BEST example of complements moving together? 1

(a) Rising demand for smartphones and earphones
(b) Rising supply of wheat
(c) Falling price of mango and rising demand for banana
(d) Rising demand for tea and falling demand for coffee

6. Assertion (A): Market demand is flatter than individual demand. Reason (R): It adds the demands of many buyers. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

7. A rumour of a petrol price rise leads to panic buying. This is best explained by 1

(a) future price expectations **(b)** technology
(c) monopoly **(d)** price floor

8. Assertion (A): Hotels vary tariffs frequently. Reason (R): Demand and competition change from day to day. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. **Assertion (A):** Hoarding reduces the supply of a good in the market. 1
Reason (R): Hoarders store goods beyond need in the hope of selling them later at higher prices.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Better technology that lowers the cost of production raises supply. 1
Reason (R): At market equilibrium the quantity demanded equals the quantity supplied.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why does the demand for a good change when the price of a related good changes? 2

12. Why may free markets leave the poor without essentials? 2

13. State two reasons why equilibrium keeps changing in real markets. 2

14. Why is a price war between sellers beneficial to buyers but risky for sellers? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. A government wishes to control the price of a medicine. Explain the possible gain and risk. 3

16. Distinguish between a movement along a demand curve and a shift in demand. 3

17. Explain with an example how complements move together when price of one changes. 3

OR

Examine how a shift in taste can alter market equilibrium. 3

18. Show how population composition changes demand with two examples. 3

OR

A farmer supplies more wheat when price rises from Rs 20 to Rs 30. Show the law and add a factor that may offset it. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** In Shimla, sales of woollens rise every December. When the price of coffee rises sharply, many customers switch to tea. Buyers of smartphones usually also buy earphones. A family hears that a TV sale will be held next month, so it decides to wait before buying one. 5
(i) Which factor explains the rise in woollen sales in December?
(ii) What type of goods are tea and coffee?
(iii) What type of goods are smartphones and earphones?
(iv) How will expectation of a sale next month affect today's demand for TVs, and why?

20. Discuss whether regulation harms or helps innovation. 5

OR

Analyse how sustainability affects supply, using overfishing and groundwater. 5
