- Chalcolithic means **copper and stone**, not bronze; Mehrgarh is the oldest known farming village in the subcontinent, not a Mature Harappan city.
- The Harappan script is **undeciphered**; do not say it has been read. Sumerian writing is cuneiform and Egyptian writing is hieroglyphs.
- Do not call the Neolithic change a sudden event: the so-called revolution was gradual and happened at different times in different regions.
- Keep civilisations apart: Mesopotamia (ziggurat, cuneiform, Hammurabi of Babylon, Sargon of Akkad), Egypt (pharaoh, Nile, papyrus), China (Qin first imperial dynasty).
- Early humans first appeared in Africa; Homo habilis means 'handy man' and Homo sapiens are modern humans.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
