THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 9 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 10: **Life on Earth (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. If a lake dries and fish die, which biome is affected? 1

(a) freshwater **(b)** tundra **(c)** desert **(d)** taiga

2. A Gram Sabha controlling tree felling shows 1

(a) colonial rule **(b)** no rules

(c) community forest governance **(d)** private ownership

3. A community-led fishery needs 1

(a) rules for sustainable catch **(b)** no rules

(c) private control **(d)** dynamite fishing

4. A forest village is cut off from healthcare and the fuelwood fumes harm women. Which scheme would help most? 1

(a) PMAY **(b)** PM Kisan **(c)** PM Ujjwala **(d)** MGNREGA

5. Which statement is true? 1

(a) Biodiversity is only rivers

(b) Biodiversity is only animals

(c) Biodiversity is only plants

(d) Biodiversity includes genes, species and ecosystems

6. Which pair is correct? 1

(a) Steppes - Africa **(b)** Prairies - North America

(c) Savanna - Europe **(d)** Taiga - Equator

7. Which is a human threat to commons? 1

(a) Encroachment **(b)** Sun **(c)** Rain **(d)** Wind

8. A district's tea gets GI tag. The most direct benefit is 1

(a) protection of brand and price **(b)** more rain

(c) less labour **(d)** free water

9. **Assertion (A):** Wildlife corridors help in the gene flow between animal populations. 1

Reason (R): Corridors separate habitats from each other.

Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

10. **Assertion (A):** Commons are always private property. 1
Reason (R): Commons are shared resources used by a community.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why do pollinators matter? 2

12. How do GI tags benefit conservation of crop varieties? 2

13. Why are hotspots under threat? 2

14. How do forests regulate climate? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Evaluate the claim that ecotourism is always sustainable. 3

16. Why are corridors in Western Ghats critical? 3

17. Explain how government support for forest dwellers can be improved. 3

OR

Explain how biodiversity hotspots overlap with human pressure. 3

18. Compare Bishnoi and Chipko movements. 3

OR

Explain how a biome pyramid shows impact of removing top predators. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** In a grassland ecosystem the producers are plants, which are eaten by insects and rabbits, which in turn are eaten by snakes and hawks. At each step much of the energy is lost as heat. In the Western Ghats, a biodiversity hotspot, roads have split the forest into pieces, and the forest department plans corridors for animals. 5
(i) With which organisms does a food chain start?
(ii) Why does energy decrease at higher levels of a pyramid?
(iii) What is the use of a wildlife corridor?
(iv) Why are top consumers fewest in number?

20. Analyse the importance of ecological commons and ways to revive them. 5

OR

Discuss how biodiversity loss would affect humans. 5

END OF QUESTION PAPER — Total: 40 Marks
