	OR: Faster services (1); Less paperwork (1); Transparency (1); Grievance redress (1); Inclusion (1).	1+1+1+1+1

Mistakes to avoid:

- **Government** refers to institutions (legislature, executive, judiciary); **governance** is the wider process of decision-making, implementation and monitoring involving many actors.
- Policy gives direction, a programme turns goals into strategies and a scheme gives concrete benefits. Do not use them as synonyms.
- A rule meant for a private group such as a housing society or a school is not a public policy; public policy is made by the government for the public.
- Differentiate transparency (openness), accountability (explaining decisions) and inclusiveness (equal opportunities); do not write one for another.
- Do not say e-governance has no limits: it requires internet, devices and digital skills, and may exclude some citizens.
- Remember the policy cycle (formulation, adoption, implementation, monitoring and evaluation) and that Satyameva Jayate (truth alone triumphs) differs from Yato Dharmastato Jayah (the Supreme Court motto).

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
