THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 7 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 3

Chapter 2: **Understanding the Weather** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Meteorologists use isobars on maps to show 1

(a) places with equal rain **(b)** places with equal temperature

(c) places with equal pressure **(d)** places with equal height

2. The rain gauge of area A shows 120 mm and area B 45 mm in the same month. A statement correct is 1

(a) A received more rain **(b)** B received more rain

(c) both equal **(d)** no rain

3. The statement 'the weather is changeable but the climate is stable' means 1

(a) weather varies daily while climate is a long-term pattern

(b) both change daily

(c) both are fixed

(d) no difference

4. The closer the isobars on a weather map, the 1

(a) weaker the winds **(b)** no wind

(c) stronger the winds **(d)** cooler

5. A forecast says 'relative humidity 95 per cent'. Which activity would be hardest? 1

(a) drying clothes outdoors **(b)** reading

(c) walking **(d)** swimming

6. What is the main reason for rain on the windward side of the Western Ghats? 1

(a) moist winds are forced to rise and cool **(b)** no clouds

(c) dry winds **(d)** no mountain

7. Which of these is likely to be accurately predicted for next week? 1

(a) exact hourly rain **(b)** exact cloud shape

(c) seasonal trends **(d)** exact wind gusts

8. On a day, max and min are 40 and 28 degrees C. A new day has the same mean but smaller range. Which could be its max and min? 1

(a) 42 and 26 **(b)** 44 and 24 **(c)** 45 and 23 **(d)** 37 and 31

9. A school records daily max temperatures: 30, 31, 33, 32. The mean is 1

(a) 31.5 degrees C **(b)** 126 degrees C **(c)** 33 degrees C **(d)** 30 degrees C

10. Which combination best shows scientific reasoning in weather forecasting? 1

(a) guesses **(b)** instruments, satellite data and models
(c) luck **(d)** rumours

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. Why does rain falling on bare ground cause floods? 2

12. Why do cyclones weaken on land? 2

13. Why is the troposphere important for weather? 2

14. Why do deserts have a large daily range? 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Analyse how rainfall variation affects agriculture. 3

16. Analyse the data: rainfall 0, 0, 2, 150, 300, 220, 80, 20, 0, 0, 0, 0 mm over months. Find the total and the wettest month. 3

17. Explain how pressure changes can be related to rainfall. 3

OR

Examine the reasons for sea breezes. 3

18. Compare the roles of a thermometer and a hygrometer. 3

OR

Analyse how altitude and latitude together affect temperature. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. Explain the role of the Sun and the atmosphere in the formation of weather. 5

OR

Explain how weather conditions influence human activity in different seasons. 5

20. Compare weather and climate with examples and discuss their importance. 5

OR

Design a school weather station with instruments, readings and how to use data. 5

END OF QUESTION PAPER Total: 40 Marks
