Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapter 13: **Saving the Gharial** | Class 8 English_Gulmohar | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** it makes the unexpected nest feel like a lucky reward	The weary team's find of a guarded nest becomes a moving moment.
2	**(d)** one hundredth	200 is 1/100 of 20,000.
3	**(c)** It helps the male win a mate in competition	Competition success is inferred.
4	**(c)** close to disappearing	Last recorded nest signals near extinction.
5	**(a)** 29 per cent	2/7 is roughly 29%.
6	**(d)** river protection involving local people	She links gharial and river protection.
7	**(b)** Male gharials communicate with sound and display	The behaviour is signalling.
8	**(c)** warm and admiring	She portrays gharial parents affectionately.
9	**(a)** disappointment	Few survivors show failure.
10	**(c)** good sites improve the survival of eggs	Better sites reduce risk.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	It increases the surprise and emotion of finding the nest (1) and shows their dedication to the work (1).	1+1
12	Their nets harm gharials (1). With their cooperation the risk can be reduced (1).	1+1
13	A suitable sentence (1). Connects to nests hidden in sand to escape hyenas (1).	1+1
14	It may represent the last chance for the species there (1). Protecting it could help re-establish the population (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Mother digs up nests (1). Both parents guard hatchlings; babies ride on the male's head (1). This challenges the idea that reptiles are cold and uncaring (1).	1+1+1
16	She shows parental care (1). She shows its decline (1). She uses specific, observed details (1).	1+1+1
17	A slogan such as 'Save the river, save the gharial' (1). It links animal and habitat (1). It appeals to all readers (1).	1+1+1
	OR: It protects eggs and young from early dangers (1). It adds numbers (1). Without safe rivers, released animals die, as at Satkosia (1).	1+1+1
18	Work happens in India, Bangladesh and Nepal (1). Rivers cross borders (1). Shared effort is needed to save a species across its range (1).	1+1+1
	OR: Facts and figures (1). Warm observation of parental care (1). The balance engages and informs the reader (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Gharial needs fish, sand, flowing water (1). Dams, nets, floods destroyed these (1). Release failed at Satkosia (1). Habitat protection is the base of conservation (1). Benefits people too (1).	2+2+1
	OR: Format (1). Introduction (1). Why sand banks matter to gharials (1). Threats and solutions (1). Conclusion (1).	2+2+1
20	Purpose: inform and persuade (1). Specific facts and numbers (1). Warm descriptions of parenting (1). Examples of failure (1). Appeal for rivers (1).	2+2+1
	OR: Gharials guard eggs and young (1). Mothers free hatchlings (1). Both parents care (1). Dangers come from people to animals too (1). Conclusion about understanding (1).	2+2+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 2

Chapter 13: **Saving the Gharial** | Class 8 English_Gulmohar | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** Protect the river and the gharial will live.	Habitat protection is central.
2	**(d)** predators cannot easily find them	Hidden nests escape notice.
3	**(b)** strong enough to override careful checking	She protects anything resembling a baby.
4	**(b)** frightened people may kill or ignore the animals	Fear leads to hostility.
5	**(b)** hyena	Hyenas dig up nests.
6	**(b)** the river itself was unsafe for them	Floods and nets still threatened them.
7	**(a)** disguise	Camouflage hides by blending.
8	**(a)** continuing to exist	Survival is continued existence.
9	**(a)** it needs sand for nesting	Nests are dug in deep sand.
10	**(a)** The gharial's snout is slender, which helps it catch fish.	Subject-verb agreement and punctuation are correct.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	From 20,000 to 200 sq km (1); 200/20,000 = one hundredth remains (1).	1+1
12	Healthy rivers supply water and fish (1). Protecting them protects the gharial and the people who depend on them (1).	1+1
13	It shows gharials communicate by display (1) and that males compete for mates and territory (1).	1+1
14	Strong protective instinct (1). It also shows that parental care is real and not merely a theory (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Dams change river flow and remove sand banks (1). Nets trap animals (1). Floods wash away nests and released young (1).	1+1+1
16	Fear causes people to harm animals (1). Misunderstanding hides their gentler behaviour (1). Education helps reduce fear (1).	1+1+1
17	More survey of sites (1). Nets must be controlled (1). Monitor released animals (1).	1+1+1
	OR: He observed jaw-clap and snout fights (1). Close study explains behaviour (1). Knowledge guides conservation steps (1).	1+1+1
18	It shows long effort (1). Success is not guaranteed (1). Conservation needs patience and persistence (1).	1+1+1
	OR: Snouts clash like swords (1). The simile makes the action vivid (1). It conveys both combat and risk, as teeth may break (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Catchy title and opening (1). Facts about the gharial (1). Threats (1). Conservation work (1). Closing appeal (1).	2+2+1
	OR: Emerging from sand with mother's help (1). Climbing on the father's head (1). Learning to catch fish (1). Dangers: nets, floods (1). Hope for safe river (1).	2+2+1
20	Worked: surveys, captive breeding (1). Worked: raised awareness (1). Failed: released animals died at Satkosia (1). Reason: unsafe habitat (1). Lesson: combine breeding with habitat protection (1).	2+2+1
	OR: Whitaker's observations of behaviour (1). Captive breeding studies (1). Long years of work (1). Some failures, e.g. Satkosia (1). Success needs persistence (1).	2+2+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 13: **Saving the Gharial** | Class 8 English_Gulmohar | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** many get entangled	As in Satkosia.
2	**(b)** net-free protected stretches and fisher cooperation	Reducing entanglement and involving local fishers helps.
3	**(c)** The eggs were collected by the team.	Object becomes subject with 'were collected'.
4	**(b)** progress was made but survival is still uncertain	The notes say survival remains uncertain.
5	**(c)** its health shows the state of the river	Its decline warns of river damage.
6	**(d)** climb with effort	Clamber is to climb awkwardly.
7	**(c)** Gharials deserve more care than any other reptile.	'Deserve more care' is a value judgment.
8	**(c)** dams and nets -> shrinking range	Habitat damage reduced the range.
9	**(d)** to put into	En- = cause to be in a state.
10	**(c)** mane : lion	A body feature found on the male of the species.

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The male has a ghara, which makes a buzz-snort (1). A relative clause joins the sentences (1).	1+1
12	Floods and fishing nets still kill them (1), as at Satkosia where only two of seven survived (1).	1+1
13	The eggs were collected by the team (1). Subject and object are swapped; 'were collected' is used (1).	1+1
14	Spread awareness or avoid polluting rivers (1). Gharials depend on clean, flowing rivers (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	The gharial depends on fish, sand and clean water (1). If the river is healthy, all can survive (1). So the gharial is a measure of river health (1).	1+1+1
16	Sitting on the bank, the mother guarded the nest (1). The participle replaces a clause (1). Same subject (1).	1+1+1
17	Each species has a role in the ecosystem (1). Its loss harms rivers and people (1). We have a duty to prevent extinction caused by humans (1).	1+1+1
	OR: Seven gharials were released (1). Floods and nets killed five (1). Lesson: site safety must be checked first (1).	1+1+1
18	Conserve = protect and use wisely (1). Preserve = keep unchanged (1). Example sentences (1).	1+1+1
	OR: Use gharial-safe fishing methods (1). Protect nesting sand banks (1). Report nests and support conservation workers (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Date and setting (1). Tiredness after the trek (1). The sight of the guarding mother (1). Decision to take eggs (1). Hope and worry for the species (1).	2+2+1
	OR: For: human needs are urgent (1). Against: healthy rivers serve people (1). Gharial protection protects water and fish (1). Balance is possible (1). Your conclusion (1).	2+2+1
20	Dams provide power and water (1). They also damage habitats (1). Need for planning and impact studies (1). Protected river stretches (1). Balanced approach (1).	2+2+1
	OR: Survey the river (1). Check nets and floods (1). Work with fishers (1). Protect nesting sand (1). Monitor survival (1).	2+2+1

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
