7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Why did the team's tiredness matter to the way the author tells the discovery? 1

(a) it proves the trek was pointless
(b) it shows they planned to rest
(c) it makes the unexpected nest feel like a lucky reward
(d) it explains the hyenas

2. The shrinkage of range from 20,000 to 200 sq km is about a fall to: 1

(a) one thousandth **(b)** one half **(c)** one tenth **(d)** one hundredth

3. Which statement about the ghara is an inference rather than a fact stated in the notes? 1

(a) It is a bulbous growth
(b) It develops at adolescence
(c) It helps the male win a mate in competition
(d) It makes a buzz-snort

4. A reader concludes that the nest on the Padma was 'perhaps the last in Bangladesh'. This tells us the species there was: 1

(a) growing fast **(b)** well protected
(c) close to disappearing **(d)** very common

5. Two of seven released gharials survived. The survival share is about: 1

(a) 29 per cent **(b)** 71 per cent **(c)** 50 per cent **(d)** 10 per cent

6. Which of these would the author most likely support? 1

(a) removing gharials from all rivers **(b)** closing all zoos immediately
(c) banning all research **(d)** river protection involving local people

7. Which statement is best supported by the jaw-clap observation? 1

(a) Gharials are silent
(b) Male gharials communicate with sound and display
(c) Gharials cannot hear
(d) Only females are noisy

8. The author's tone while describing parental care is mostly: 1

(a) bored **(b)** fearful
(c) warm and admiring **(d)** mocking

9. The sentence 'Only two survived' creates a tone of: 1

(a) disappointment **(b)** celebration **(c)** humour **(d)** anger

10. Why might a female gharial be willing to compete for nest sites? 1

(a) sand is rare in rivers **(b)** nests are used as food stores

(c) good sites improve the survival of eggs **(d)** males expect it

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why do you think the author describes the team as 'tired' just before the discovery? 2

12. Why might local fishers be important partners in gharial conservation? 2

13. Use 'camouflage' in a sentence of your own and explain how it fits the chapter. 2

14. Infer: why would the last nest in a country be so important? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Discuss how the chapter shows that animals are caring parents. 3

16. How does the author create sympathy for a reptile many people fear? 3

17. Write a slogan and explain it: for saving the gharial. 3

OR

Why is captive breeding useful yet not sufficient? 3

18. Discuss the role of international cooperation shown in the chapter. 3

OR

How does the chapter blend science and emotion? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. 'Saving a species means saving its home.' Discuss with reference to the gharial. 5

OR

Write a letter to the editor urging protection of river sand banks. 5

20. Analyse the author's purpose and her methods of persuasion. 5

OR

How does the chapter correct the idea that wild animals are only dangerous? 5

END OF QUESTION PAPER — Total: 40 Marks
