- Forgetting the collections: from kindergarten he collected **butterflies**, then rocks, fossils and coins, and became an eager astronomer.
- Missing the turning point: a **book** on butterflies (and a later project on monarch butterflies) shaped his career; the chapter asks how a book changed his life.
- Calling him a famous scientist as a child; he was a shy boy who could not play team sports and so *collected things*.
- Spelling slips: *Ebright, scientist, curiosity, butterfly, telescope*; and tense mixing.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
