ANSWER KEY & MARKING SCHEME SET 1

Chapter 3: **The Making of a Global World (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** imported food was cheaper than home-grown food	Cheaper food could be imported
2	**(c)** Indian migrants adapted their traditions in a new land	Muharram was transformed into a carnival-like Hosay
3	**(b)** keep trade and currencies stable	Stability in exchange rates encouraged trade
4	**(a)** carried meat over long distances without spoiling	Meat from Australia and America reached Europe
5	**(d)** prices of agricultural goods fell steeply	Falling prices cut incomes
6	**(a)** of poverty and false promises of recruiting agents	Agents gave false information about work and living conditions
7	**(b)** they still had to pay fixed land revenue	Colonial revenue demand did not fall
8	**(b)** keep grain prices high by restricting imports	They protected landlord incomes
9	**(b)** wages were low	Lower costs raised profits
10	**(a)** cheap imports poured in	Farmers could not compete

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Colonies needed labour for plantations and mines (1); Poverty and lack of jobs at home pushed people to migrate (1).	1+1
12	New crops from the Americas and silver from American mines increased the volume of trade (1); European colonies in the Americas created demand for goods and labour (1).	1+1
13	Railways, steamships and the telegraph made transport and communication faster and cheaper (1); Distant places became closely connected, e.g., food could reach faraway markets (1).	1+1
14	Indentured labourers were paid low wages and lived in poor housing (1); They were deceived by recruiters and had few legal rights (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Newly independent countries had poor economies and little control over their resources (1); The rich countries benefited more from the international order (1); They formed the G-77 to demand a NIEO for control of resources, fair prices and market access (1).	1+1+1
16	The colonisers introduced mining and plantations and forced Africans to work for wages (1); Rinderpest in the 1890s destroyed their cattle and weakened resistance (1); Africans lost land and their traditional systems of livelihood (1).	1+1+1
17	Indentured workers took their food, languages, festivals and music to new places (1); Muharram became Hosay in Trinidad (1); Chutney music in the Caribbean mixes Indian and local forms (1).	1+1+1
	OR: Silk Route trade carried luxury goods like silk and spices over land and sea, with religions and diseases also travelling (1); Nineteenth-century trade was far larger, with bulk goods like grain and cotton, carried by railways and steamships (1); In the nineteenth century trade was linked with colonial control and the flows of labour and capital (1).	1+1+1
18	Mass production of cars and household goods made them cheaper (1); Consumers bought them on credit and instalments (1); A large middle class and rising incomes created the mass consumption of the 1920s in the USA (1).	1+1+1
	OR: The Depression showed that markets alone could not ensure full employment (1); Governments began to intervene to regulate trade and employment (1); Post-war governments took responsibility for welfare and economic stability (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

19	Trade and food exchange along the Silk Routes show early globalisation (1); The discovery of the Americas spread crops across continents (1); The nineteenth century saw flows of trade, labour and capital (1); Migration and cultural exchange created hybrid cultures (1); Globalisation thus has a long history, though its pace and nature changed (1).	1+1+1+1+1
	OR: After 1945, Asian and African colonies became independent (1); They were poor and the international order favoured the rich nations (1); They formed the G-77 to demand a NIEO (1); NIEO meant control over resources, fair prices and better market access (1); Later TNCs and trade liberalisation changed their role in the global economy (1).	1+1+1+1+1
20	Railways and steamships moved goods and people across continents (1); The telegraph connected markets instantly (1); Refrigeration allowed export of meat and dairy (1); Transport and communication cost fell, increasing trade and migration (1); Technology also let colonial powers control and exploit colonies (1).	1+1+1+1+1
	OR: Pre-modern trade involved luxury goods, food and diseases moving slowly along the Silk Routes (1); The nineteenth-century economy had mass trade in grain and cotton, labour migration and capital flows (1); Technology such as railways, steamships and the telegraph made it faster (1); Colonial rule shaped the nineteenth-century economy more strongly (1); Large-scale cultural exchange occurred in both periods (1).	1+1+1+1+1

Mistakes to avoid:

- Describing the **Silk Routes** as a single road; they were a network of land and sea routes linking Asia, Europe and northern Africa.
- Saying **Corn Laws** encouraged imports; they *restricted* the import of corn, and their abolition made food cheaper and ruined British farmers.
- Calling **rinderpest** a human disease; it was a cattle plague that reached Africa in the 1890s.
- Equating **indentured labour** with slavery or free migration; it was bonded labour under a contract.
- Mixing up the **IMF** (short-term deficits and surpluses) with the **World Bank** (post-war reconstruction loans).
- Placing the Great Depression after the Second World War; it began in **1929**, and Bretton Woods came later in **1944**.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 3: **The Making of a Global World (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** force Africans into wage labour after cattle died	Loss of cattle made people dependent on wages
2	**(d)** fine quality	Handloom goods from India were prized for quality
3	**(d)** protectionism	Countries raised import duties to protect industries
4	**(c)** helped Britain's finances and recovery	Gold flowed out of India to Britain
5	**(a)** early 1970s	After this floating exchange rates began
6	**(c)** flow of labour	Labour migration was one of the three flows
7	**(c)** of trouble in the US economy	They also called back loans in Europe
8	**(a)** a creditor	Europe owed large amounts to it
9	**(c)** a stable post-war economic order was needed	This led to the Bretton Woods conference
10	**(b)** New Hampshire, USA	Delegates from 44 countries met there

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	India's exports and imports nearly halved between 1928 and 1934 (1); Agricultural prices fell and peasants got deeper into debt (1).	1+1
12	Factories closed because demand and prices fell sharply (1); Falling demand and bank failures led to job losses; in the US one in four workers lost jobs (1).	1+1
13	Traders and pilgrims carried religious ideas along the Silk Routes (1); Buddhism spread east from India and Christian missionaries and Muslim preachers also travelled these routes (1).	1+1
14	The war left Europe indebted to the USA, which became the major creditor (1); Industries were reorganised for war production and normal trade patterns were broken (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	The potato blight of 1845-49 caused great famine in Ireland as the poor depended on potatoes (1); Over a million people died of starvation (1); Thousands of Irish migrated to America and other countries to escape hunger (1).	1+1+1
16	Industrial workers lost jobs as demand and prices fell (1); In the US about one in four workers became unemployed (1); Those still working faced wage cuts and insecurity (1).	1+1+1
17	Fixed exchange rates gave stability to currency values (1); Traders could plan without exchange-rate risk (1); This encouraged growth of trade and capital flows from 1945 to the 1970s (1).	1+1+1
	OR: TNCs move production to countries where wages are low (1); Lower labour costs reduce their production costs (1); This raises profits and has shifted manufacturing to Asian countries like China (1).	1+1+1
18	In the First World War, imports from Britain fell, so Indian factories made goods for the army (1); Indian industrialists expanded production and profits (1); New factories were set up and the industrial base grew (1).	1+1+1
	OR: India exported raw materials like raw cotton and indigo to Britain (1); It imported British manufactured goods, so Britain had a trade surplus (1); This surplus helped Britain balance its deficits with other countries (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Colonies supplied raw materials like cotton and food crops to Europe and bought manufactured goods (1); In Africa, rinderpest and colonial mines forced people into wage labour (1); Indian handloom goods lost markets to British machine goods (1); Indentured labour took millions of Indians to colonial plantations (1); Colonial policy thus served the interests of the colonial powers (1).	1+1+1+1+1
	OR: Indian exports and imports halved between 1928 and 1934 (1); Agricultural prices fell and peasants could not pay land revenue (1); Peasants became indebted and sold gold (1); Jute growers and raw material exporters suffered (1); Urban people with fixed incomes gained, but the distress contributed to the national movement (1).	1+1+1+1+1

20	Bretton Woods in 1944 set up the IMF and the World Bank (1); Currencies were linked to the dollar at fixed exchange rates, and the dollar to gold (1); The IMF helped countries with deficits and the World Bank financed reconstruction (1); It stabilised trade until the early 1970s (1); It collapsed when the US could not keep the dollar's gold link, and floating rates began (1).	1+1+1+1+1
	OR: Overproduction of farm goods led to falling prices (1); US banks withdrew loans abroad as the economy slowed (1); The Wall Street crash of 1929 led to bank failures (1); Banks and industries in Europe and Latin America collapsed since they depended on US loans (1); The depression spread worldwide with fall in trade, employment and prices (1).	1+1+1+1+1

Mistakes to avoid:

- Describing the **Silk Routes** as a single road; they were a network of land and sea routes linking Asia, Europe and northern Africa.
- Saying **Corn Laws** encouraged imports; they *restricted* the import of corn, and their abolition made food cheaper and ruined British farmers.
- Calling **rinderpest** a human disease; it was a cattle plague that reached Africa in the 1890s.
- Equating **indentured labour** with slavery or free migration; it was bonded labour under a contract.
- Mixing up the **IMF** (short-term deficits and surpluses) with the **World Bank** (post-war reconstruction loans).
- Placing the Great Depression after the Second World War; it began in **1929**, and Bretton Woods came later in **1944**.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 3: **The Making of a Global World (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** cultural blending of Indian and local traditions	Indian migrants created new forms
2	**(b)** a rapid growth of world trade and incomes	Trade grew over 8 per cent annually in the 1950s and 1960s
3	**(b)** demand a fairer international economic order	They sought the NIEO
4	**(a)** sea routes carried more trade	Sea transport became cheaper
5	**(a)** mass consumption	Henry Ford paid higher wages to create buyers
6	**(b)** deal with the external surpluses and deficits of member countries	It helped countries facing payment problems
7	**(d)** overproduction and falling prices	Production exceeded demand
8	**(d)** exports and imports nearly halved between 1928 and 1934	Falling prices reduced volumes and values
9	**(c)** a new system of slavery	Conditions were harsh and escape was difficult
10	**(b)** overproduction and the crash of the stock market	Falling demand and bank failures worsened it

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Agricultural prices fell by half while debts and taxes remained the same (1); Farmers had to produce more, which pushed prices lower still (1).	1+1
12	A new order was needed to avoid another Depression like that of the 1930s (1); It was meant to stabilise currencies and encourage trade (1).	1+1
13	The USA lent heavily to Europe during and after the war (1); Its economy was strong and had grown during the war (1).	1+1
14	Newly independent countries became new markets and sources of raw materials (1); They demanded fair trade terms and formed the G-77 to press for a NIEO (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	The war and the Depression showed the need for an international order to avoid economic collapse (1); The 1944 Bretton Woods Conference created the IMF and the World Bank (1); It fixed exchange rates and aimed at full employment and steady trade (1).	1+1+1
16	Countries raised import duties to protect domestic industries, leading to protectionism (1); This reduced world trade and worsened the crisis (1); Later the Bretton Woods order tried to restore open trade (1).	1+1+1
17	Ford introduced the assembly line in his car factory (1); It speeded up production and made cars cheaper, so workers could afford them (1); Other industries copied it, spreading mass production (1).	1+1+1
	OR: The IMF deals with external surpluses and deficits of member countries (1); The World Bank was set up to finance post-war reconstruction (1); Later the World Bank turned to finance development in the developing countries (1).	1+1+1
18	Landowners suffered because cheaper imported grain reduced their prices and profits (1); Consumers gained from cheaper food (1); Many farmers left the land and went to cities to work in industries (1).	1+1+1
	OR: British manufactured goods flooded the Indian market, and Indian handloom weavers lost markets (1); Duties were low for British goods and high for Indian goods in Britain (1); Many weavers lost their incomes as machine-made cloth was cheaper (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

19	The First World War left Europe indebted and made the USA a creditor (1); It disrupted trade and led to a boom followed by a slump (1); The Depression followed in 1929, causing mass unemployment and protectionism (1); The Second World War destroyed economies, and led to the Bretton Woods order (1); Growth in the 1950s and 1960s was based on stable exchange rates and trade expansion (1).	1+1+1+1+1
	OR: Migrants took their food, festivals, language and music with them (1); Muharram became Hosay in Trinidad (1); Chutney music emerged in the Caribbean (1); New hybrid cultures developed in the colonies (1); Migration also caused hardship, family separation and social tension (1).	1+1+1+1+1
20	The USA lent to Europe after the First World War, so European recovery depended on US loans (1); US banks stopped lending in 1928, setting off the Depression (1); After the Second World War the USA dominated the Bretton Woods institutions (1); The USA led the post-war boom and the dollar became the main currency (1); US decisions on the dollar and gold ended fixed rates in the early 1970s (1).	1+1+1+1+1
	OR: Henry Ford's assembly line made production quicker and cheaper (1); Cars and consumer goods became affordable (1); Higher wages let workers buy these goods (1); Hire purchase made credit widely available (1); Overproduction and the dependence on credit led to the boom's end in 1929 (1).	1+1+1+1+1

Mistakes to avoid:

- Describing the **Silk Routes** as a single road; they were a network of land and sea routes linking Asia, Europe and northern Africa.
- Saying **Corn Laws** encouraged imports; they *restricted* the import of corn, and their abolition made food cheaper and ruined British farmers.
- Calling **rinderpest** a human disease; it was a cattle plague that reached Africa in the 1890s.
- Equating **indentured labour** with slavery or free migration; it was bonded labour under a contract.
- Mixing up the **IMF** (short-term deficits and surpluses) with the **World Bank** (post-war reconstruction loans).
- Placing the Great Depression after the Second World War; it began in **1929**, and Bretton Woods came later in **1944**.
