ANSWER KEY & MARKING SCHEME SET 1

Chapter 5: **Print Culture and the Modern World (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** Ninety-Five Theses	1517
2	**(c)** Pride and Prejudice	Women writer
3	**(b)** Sambad Kaumudi	1821
4	**(d)** the growing number of ordinary people who could read	Print effect
5	**(d)** Bengal Gazette	1780
6	**(b)** control and censor the Indian-language press	Censorship
7	**(c)** 19th century	Print widened reading
8	**(a)** debate and new ideas	Public sphere
9	**(c)** mass-produced pictures of gods and goddesses	Popular prints
10	**(d)** three years	180 copies

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Johann Gutenberg was a German goldsmith who developed the printing press with movable metal type at Strasbourg and Mainz (1); The first book he printed was the Bible, in about 1448 (1).	1+1
12	The Ninety-Five Theses were written by Martin Luther in 1517, criticising practices of the Roman Catholic Church (1); Their printed copies spread widely and started the Protestant Reformation (1).	1+1
13	The Vernacular Press Act of 1878 was passed by the colonial government to control Indian language newspapers (1); It allowed officials to censor reports and seize press equipment of papers that published seditious reports (1).	1+1
14	Censorship is official control over what may be published or said (1); The colonial government used it to suppress nationalist writing (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	China had a long tradition of woodblock printing; the state was the major producer of printed material, especially for civil service examinations (1); In the seventeenth century, urban culture led to printing for leisure, such as stories and poetry (1); In Japan, the Buddhist Diamond Sutra was printed in 868 CE and Edo developed illustrated books and ukiyo prints (1).	1+1+1
16	Jyotiba Phule wrote Gulamgiri (1871) on the injustices of the caste system (1); In the twentieth century, B.R. Ambedkar and Periyar wrote powerful critiques of caste (1); Local protest writings by workers like Kashibaba exposed caste and class (1).	1+1+1
17	Gutenberg adapted the olive press to make a press with movable metal type (1); He developed metal moulds for the letters of the alphabet (1); The press could print 250 sheets per side per hour, and he printed 180 copies of the Bible in three years (1).	1+1+1
	OR: Printed books spread ideas of Enlightenment thinkers such as Voltaire and Rousseau (1); Print created a culture of dialogue and debate, and people began to question authority (1); Cartoons and satires mocked the monarchy, making people critical of it before 1789 (1).	1+1+1
18	The Vernacular Press Act was passed in 1878, modelled on Irish Press Laws (1); It gave the government the right to censor the reports and editorials of vernacular papers (1); Papers that published seditious reports were warned, and their press seized if they continued (1).	1+1+1
	OR: Martin Luther wrote the Ninety-Five Theses in 1517 criticising Church practices (1); Printed copies spread quickly, and a new translation of the New Testament sold thousands within weeks (1); This led to a division in the Church and the Protestant Reformation (1).	1+1+1

SECTION — D (Long Answer) — Answers

2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	The Roman Church feared that print would allow people to read books and question its teachings (1); It began to keep an Index of Prohibited Books from 1558 (1); Menocchio was executed for heretical ideas (1); Monarchs and officials feared that print would spread discontent (1); Later the colonial government imposed censorship laws like the Vernacular Press Act (1).	1+1+1+1+1
	OR: The Portuguese brought the printing press to Goa in the mid-sixteenth century (1); Jesuits printed Konkani texts; the first Tamil book appeared in 1579 and Malayalam in 1713 (1); Dutch missionaries printed many Tamil texts (1); English language presses came with the East India Company, the Bengal Gazette began in 1780 (1); Before print, India had a rich tradition of handwritten manuscripts which were expensive and fragile (1).	1+1+1+1+1
20	Luther's Ninety-Five Theses of 1517 were printed and widely circulated (1); His translation of the New Testament sold thousands of copies (1); This led to the Protestant Reformation (1); In France, writings of thinkers such as Rousseau and Voltaire spread ideas of liberty and equality (1); Cartoons and satires mocked the monarchy and prepared the ground for the French Revolution (1).	1+1+1+1+1
	OR: Printing allowed pictures, cartoons and caricatures to be produced in large numbers (1); Raja Ravi Varma produced mass prints of gods and goddesses (1); Calendars and cheap prints hung in homes and shops (1); Cartoons criticised both the colonial rulers and Indian society (1); Visual images reached even those who could not read (1).	1+1+1+1+1

Mistakes to avoid:

- Writing that Gutenberg invented printing; printing began in **China, Japan and Korea**, and Gutenberg developed the **first-known printing press** in Europe in the 1430s.
- Giving the wrong date for Marco Polo's return from China (**1295**) or confusing him with Gutenberg.
- Mixing Martin Luther's **Ninety Five Theses (1517)** with the Index of Prohibited Books started by the Roman Church from the mid-sixteenth century.
- Saying that print *caused* the French Revolution; historians say it created conditions for a new culture of debate and dissent.
- Confusing **chapbooks** (England), **almanacs** and ballads with the **Bibliotheque Bleue** of France.
- Forgetting that the **Vernacular Press Act** (1878) targeted Indian-language papers and was modelled on the Irish Press Laws.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 5: **Print Culture and the Modern World (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** China, Japan and Korea	East Asia
2	**(d)** the experiences of women, including their lack of education	Bengal women writer
3	**(b)** China	1295
4	**(d)** Stree Purush Tulna	Marathi work
5	**(c)** Bal Gangadhar Tilak	Nationalist paper
6	**(a)** miller in Italy	Questioned church
7	**(c)** Jyotiba Phule	1871
8	**(b)** Portuguese missionaries	Goa
9	**(a)** Bible	180 copies
10	**(b)** Portuguese missionaries	16th century Goa

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Woodblocks are wooden blocks with carved letters or pictures used to print on paper or cloth (1); This early technology was developed in China, Japan and Korea (1).	1+1
12	The Bible was the first major book printed by the press, about 180 copies in three years (1); It showed that mass production of books was possible (1).	1+1
13	The Index of Prohibited Books was a list of banned books maintained by the Roman Catholic Church from 1558 (1); It was meant to control heretical ideas (1).	1+1
14	The Bengal Gazette was a weekly magazine started by James Augustus Hickey in 1780 (1); It was critical of the colonial officials and was persecuted by Warren Hastings's government (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Marco Polo brought woodblock printing knowledge from China to Italy in the late thirteenth century (1); Books for the rich were printed on expensive vellum while cheaper books were also made (1); Demand grew for more books, which led to Gutenberg's invention (1).	1+1+1
16	Menocchio was a miller in Italy who read books and formed his own ideas about God and creation (1); The Roman Church considered his ideas heretical and he was hauled up and executed (1); The case shows why the Church feared print and started to control it (1).	1+1+1
17	Kitagawa Utamaro was a Japanese artist known for his ukiyo or 'pictures of the floating world' (1); His prints depicted urban life and beautiful women (1); They show how print culture in Edo produced illustrated books and woodblock prints for the common people (1).	1+1+1
	OR: Newspapers reported on the colonial government's misrule and spread nationalist ideas (1); Papers like Kesari, edited by Tilak, inspired political awakening (1); The colonial government's censorship only strengthened nationalist feelings (1).	1+1+1
18	Cheap prints and calendars of gods and leaders were widely sold (1); Raja Ravi Varma's pictures of gods and goddesses were mass produced (1); Caricatures and cartoons criticised both the British and Indian society (1).	1+1+1
	OR: Women became important readers and writers as more of them were literate (1); Penny magazines and novels were written for them (1); Jane Austen and the Brontë sisters created new women's roles in fiction (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Women began reading and writing in the nineteenth century, though many families opposed it (1); Rashsundari Debi wrote Amar Jiban in 1876 (1); Kailashbashini Debi wrote about women's lives (1); Tarabai Shinde wrote Stree Purush Tulna in 1882 (1); Journals for women were edited by women and some, like Ramabai, wrote about their rights (1).	1+1+1+1+1

	OR: Newspapers reported on the misrule of the British and spread nationalist ideas (1); Vernacular papers reached ordinary people in their own languages (1); Nationalist leaders such as Tilak used Kesari to criticise colonial policies (1); The government's repression of the press made the people angrier (1); Print thus helped to create a feeling of unity among Indians (1).	1+1+1+1+1
20	Gutenberg's press brought the print revolution in the fifteenth century (1); Books could be produced in thousands rather than a few copies by hand (1); They became cheaper, reaching ordinary people (1); Reading culture spread and a new reading public emerged (1); People could think for themselves and question authority (1).	1+1+1+1+1
	OR: Reformers such as Ram Mohan Roy used newspapers to spread ideas against sati (1); Orthodox groups also printed rival papers, which led to public debate (1); Jyotiba Phule wrote Gulamgiri on caste injustice (1); Muslim ulama issued fatwas through print and religious texts were printed in local languages (1); Print thus made reform and religious debate public (1).	1+1+1+1+1

Mistakes to avoid:

- Writing that Gutenberg invented printing; printing began in **China, Japan and Korea**, and Gutenberg developed the **first-known printing press** in Europe in the 1430s.
- Giving the wrong date for Marco Polo's return from China (**1295**) or confusing him with Gutenberg.
- Mixing Martin Luther's **Ninety Five Theses (1517)** with the Index of Prohibited Books started by the Roman Church from the mid-sixteenth century.
- Saying that print *caused* the French Revolution; historians say it created conditions for a new culture of debate and dissent.
- Confusing **chapbooks** (England), **almanacs** and ballads with the **Bibliotheque Bleue** of France.
- Forgetting that the **Vernacular Press Act** (1878) targeted Indian-language papers and was modelled on the Irish Press Laws.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 5: **Print Culture and the Modern World (History)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(c)** the lives of ordinary working people and the poor	Novelist of Victorian Britain
2	**(d)** Protestant Reformation	Church challenged
3	**(d)** criticise authorities	Visual satire
4	**(d)** Amar Jiban	First full autobiography in Bengali
5	**(b)** woodblocks	Hand printing
6	**(c)** Istri Dharm Vichar	Women's behaviour guide
7	**(d)** pedlars	Cheap books
8	**(a)** 1878	Controlled Indian-language papers
9	**(a)** Strasbourg	1430s
10	**(c)** Prohibited Books	1558

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Gulamgiri was a book written by Jyotiba Phule in 1871 (1); It criticised the caste system and compared the condition of lower castes with slavery (1).	1+1
12	A vernacular language is the everyday language of a region as opposed to the language of the elite (1); Examples are Bengali, Marathi and Tamil (1).	1+1
13	A chapbook is a small, cheap book sold by pedlars called chapmen (1); It carried popular ballads, folk tales and religious tracts for the poor (1).	1+1
14	A caricature is a humorous or exaggerated drawing of a person or event (1); It was used to criticise authorities and shape public opinion (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Print led to the circulation of religious texts and tracts in local languages (1); Debates between reformers and orthodox groups such as on sati and widow remarriage took place in print (1); Muslim groups such as Deoband issued fatwas and printed religious texts (1).	1+1+1
16	The first printing press came to Goa with Portuguese missionaries in the mid-sixteenth century (1); Konkani and Kanarese books were printed by Jesuit priests and the first Tamil book in 1579 (1); English presses came later, with the Bengal Gazette in 1780 (1).	1+1+1
17	Cheap books and chapbooks were sold by pedlars to the poor (1); Public libraries and circulating libraries were set up (1); Workers wrote their own accounts and used print for education (1).	1+1+1
	OR: Raja Ram Mohan Roy started the Sambad Kaumudi in 1821 to spread reformist ideas against sati (1); Orthodox groups responded with the Samachar Chandrika (1); This created a public debate on social reform through newspapers (1).	1+1+1
18	Rashsundari Debi's autobiography Amar Jiban was published in 1876, describing a woman's life (1); Kailashbashini Debi wrote about the experiences of women and the lack of education (1); Tarabai Shinde's Stree Purush Tulna (1882) criticised the social differences between men and women (1).	1+1+1
	OR: Literacy rose and a new reading public appeared (1); Books became cheaper and more available, creating a 'reading mania' (1); Reading moved from reading aloud to silent reading and was no longer restricted to the elite (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks

19	Primary education became compulsory in the nineteenth century, so literacy grew (1); Publishers produced children's books and school texts (1); Women became both readers and writers, with penny magazines (1); Circulating libraries gave readers access, including to workers (1); New technology such as the rotary press and offset printing increased output and lowered costs (1).	1+1+1+1+1
	OR: Phule's Gulamgiri (1871) criticised the caste system (1); B.R. Ambedkar and Periyar wrote powerful critiques of caste (1); Local protest writings in the twentieth century questioned caste and class discrimination (1); Kashibaba of Kanpur wrote about caste and class exploitation in 1938 (1); Print thus gave a voice to the oppressed (1).	1+1+1+1+1
20	China had woodblock printing, and the imperial state produced printed material for civil service exams (1); In Japan, the oldest book printed was the Buddhist Diamond Sutra of 868 CE (1); Marco Polo brought woodblock technology from China to Italy in the thirteenth century (1); Gutenberg developed the press with movable metal type in Germany, around 1448 (1); From 1450 to 1550, printing presses spread to most European countries (1).	1+1+1+1+1
	OR: The Vernacular Press Act of 1878 was passed after the revolt of 1857 (1); It allowed the government to censor reports and editorials (1); Newspapers that published seditious reports were warned, and press and machinery were seized (1); The government kept a watch on the vernacular press (1); Nationalist newspapers reacted angrily and grew stronger (1).	1+1+1+1+1

Mistakes to avoid:

- Writing that Gutenberg invented printing; printing began in **China, Japan and Korea**, and Gutenberg developed the **first-known printing press** in Europe in the 1430s.
- Giving the wrong date for Marco Polo's return from China (**1295**) or confusing him with Gutenberg.
- Mixing Martin Luther's **Ninety Five Theses (1517)** with the Index of Prohibited Books started by the Roman Church from the mid-sixteenth century.
- Saying that print *caused* the French Revolution; historians say it created conditions for a new culture of debate and dissent.
- Confusing **chapbooks** (England), **almanacs** and ballads with the **Bibliotheque Bleue** of France.
- Forgetting that the **Vernacular Press Act** (1878) targeted Indian-language papers and was modelled on the Irish Press Laws.
