THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 1

Chapter 6: **Resources and Development (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The first step in resource planning is 1

(a) sale of resources
(b) identification and inventory by surveying and mapping
(c) implementation of plans
(d) review

2. Assertion (A): Water is a renewable resource. Reason (R): The water cycle continuously replenishes it. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

3. Which farming method reduces soil loss on hill slopes? 1

(a) dry farming **(b)** plantation farming
(c) terrace farming **(d)** shifting cultivation

4. Assertion (A): Over-irrigation causes salinisation of land. Reason (R): Excess water raises the water table and brings salts to the surface. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

5. Assertion (A): Resources are 'functional'. Reason (R): Their utility depends on human technology, culture and needs. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

6. Which pair is INCORRECT? 1

(a) laterite - alluvial deposits of rivers **(b)** khadar - new alluvium
(c) regur - black soil **(d)** bhangar - old alluvium

7. Which soil needs fertilisers to be productive for plantation crops? 1

(a) black soil **(b)** laterite soil **(c)** forest soil **(d)** alluvial soil

8. Assertion (A): Black soil is unsuitable for growing cotton. Reason (R): It retains moisture for a long time. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. **Assertion (A):** Black soil is ideal for growing cotton. 1
Reason (R): Black soil is made of fine clayey material formed from volcanic rock and is good at retaining moisture.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Laterite soil develops in areas of high temperature and heavy rainfall. 1
Reason (R): Red soil develops on crystalline igneous rocks in areas of low rainfall.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why is soil called a resource? 2

12. Why must technology be used carefully with resources? 2

13. How does overirrigation harm fertility? 2

14. Why does overgrazing occur in Gujarat and Rajasthan? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain how agricultural practices cause land degradation. 3

16. Compare soil conservation methods for hills and plains. 3

17. Analyse causes of land degradation in three states. 3

OR

Explain why Gandhi's quote remains relevant. 3

18. Explain the link between land use and population pressure. 3

OR

Explain why alluvial soil supports dense population. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** Ramesh, a farmer near Nagpur in Maharashtra, grows cotton on black soil. The soil is black in colour, becomes sticky when wet and develops wide cracks in the dry season. It was formed by the weathering of the volcanic rocks of the Deccan trap region and is rich in calcium carbonate, magnesium, potash and lime but poor in phosphoric content. 5
(i) By what other name is this soil known?
(ii) From which rocks is it formed?
(iii) Name one crop other than cotton suited to this soil.
(iv) Why is this soil called 'self-ploughing'?

20. Discuss land degradation and conservation in India. 5

OR

Examine the classification of resources and its practical importance. 5

END OF QUESTION PAPER — Total: 40 Marks
