THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 6: **Resources and Development (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A state has abundant minerals but poor infrastructure. This shows the need for 1

(a) stopping mining **(b)** ending trade
(c) no planning **(d)** careful resource planning

2. Which pair is correctly matched? 1

(a) laterite soil - wheat **(b)** arid soil - paddy
(c) alluvial soil - tea **(d)** regur soil - cotton

3. Which of the following is a human-induced cause of soil degradation? 1

(a) rainfall **(b)** natural winds **(c)** overgrazing **(d)** slope of land

4. A district has surveyed wind energy potential but has built no turbines. The wind energy there is a 1

(a) developed resource **(b)** reserve
(c) potential resource **(d)** waste

5. Which is a cause of resource depletion? 1

(a) recycling **(b)** over-exploitation
(c) conservation **(d)** planning

6. Assertion (A): Alluvial soil is highly fertile. Reason (R): It is deposited by rivers and rich in potash, phosphoric acid and lime. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

7. Assertion (A): Resource planning is essential in India. Reason (R): Resources are unevenly distributed across regions. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

8. Which statement about reserves is correct? 1

(a) they are potential
(b) they cannot be used
(c) they can be used with the present technology but are not yet fully used
(d) they are in use

9. **Assertion (A):** Khadar is the newer alluvium and is more fertile than bangar. 1
Reason (R): Bangar soil has a lower concentration of kankar nodules than khadar.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Renewable resources cannot be replenished after use. 1
Reason (R): Solar and wind energy are renewable resources.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why is community involvement vital for conservation? 2

12. Why is the idea 'resources are a function of human activities' important? 2

13. Why are forests important in soil conservation? 2

14. Why is the colonial legacy relevant to resource distribution? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Analyse the regional imbalance in resource development with examples. 3

16. Explain the idea of resource conservation in the Rio Summit. 3

17. Explain how forest cover prevents erosion. 3

OR

Explain how colonialism affected resource use. 3

18. Evaluate the importance of sustainable development for India. 3

OR

Explain how gully erosion affects farmers. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** In a village in Rajasthan, the panchayat owns a pasture and a village pond used by all families, while each family also owns its own fields. The sea off the coast up to 12 nautical miles belongs to the nation, and the ocean beyond the Exclusive Economic Zone is administered by international institutions. 5
(i) What are resources owned collectively by a community called?
(ii) Give one example from the passage.
(iii) Up to how many nautical miles from the coast do the territorial waters extend?
(iv) Who controls ocean resources beyond 200 nautical miles of the EEZ, and why can no country use them freely?

20. Compare erosion types and conservation techniques. 5

OR

Analyse the impact of mining and overgrazing on land. 5

END OF QUESTION PAPER — Total: 40 Marks
