## ANSWER KEY & MARKING SCHEME SET 1

Chapter 7: **Forest and Wildlife Resources (Geography)** | Class 10 Social Science | Maximum Marks: 40

### SECTION — A (Objective Type) — Answers — 10 × 1 = 10

| Q. | Correct Option | Brief Reasoning |
|---|---|---|
| 1 | **(a)** natural home of an organism | Place |
| 2 | **(d)** Himalayan yew | Anti-cancer |
| 3 | **(d)** the government, private individuals and communities | Others |
| 4 | **(d)** variety of life | Life |
| 5 | **(c)** deforestation | Loss |
| 6 | **(c)** a wide variety of plants and animals | Habitat |
| 7 | **(a)** an endangered species | Predator |
| 8 | **(c)** Uttarakhand | Tiger reserve |
| 9 | **(d)** extinct species | Lost |
| 10 | **(b)** animals and plants | Fauna and flora |

### SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 11 | Wildlife means wild animals, birds, insects and plants that live in natural habitats (1); It is part of the biodiversity of a region (1). | 1+1 |
| 12 | Afforestation is planting trees where there were none before (1); It restores forest cover and checks erosion (1). | 1+1 |
| 13 | A sanctuary is a protected area where wild animals are safe from hunting (1); Some human activities like grazing may be permitted (1). | 1+1 |
| 14 | An extinct species is no longer found in the areas where it lived (1); Examples are the Asiatic cheetah and pink head duck (1). | 1+1 |

### SECTION — C (Short Answer) — Answers — 4 × 3 = 12

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 15 | Corbett National Park in Uttarakhand (1); Sunderbans in West Bengal (1); Manas in Assam, Periyar in Kerala or Bandhavgarh in MP (1). | 1+1+1 |
| 16 | Food and medicines (1); Tourism and income (1); Scientific research and ecological balance (1). | 1+1+1 |
| 17 | Normal species (1); Endangered species and vulnerable species (1); Rare, endemic and extinct species (1). | 1+1+1 |
| | **OR:** Black buck (1); Indian rhino (1); Crocodile or Indian wild ass (1). | 1+1+1 |
| 18 | They absorb carbon dioxide (1); They influence rainfall (1); They keep the air clean and moderate temperature (1). | 1+1+1 |
| | **OR:** Expansion of agriculture (1); Mining and big dams (1); Railways and timber felling (1). | 1+1+1 |

### SECTION — D (Long Answer) — Answers — 2 × 5 = 10

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 19 | India has about 8 per cent of the world's recorded species (1); It has over 47,000 plant species (1); It has many kinds of mammals, birds and reptiles (1); Its forests, wetlands and mountains provide habitats (1); Biodiversity is a great natural wealth (1). | 1+1+1+1+1 |
| | **OR:** Project Tiger was launched in 1973 (1); Tiger numbers had fallen from 55,000 to 1,827 (1); It created tiger reserves such as Corbett, Sunderbans and Manas (1); Poaching and habitat loss threatened tigers (1); It has helped to protect tigers and forests (1). | 1+1+1+1+1 |
| 20 | In Alwar, villagers protected a forest as Bhairodev Dakav 'Sonchuri' (1); Sacred groves are protected for religious reasons (1); The Chipko movement saved trees in the Himalayas (1); JFM involves villagers and officials together (1); Local people thus conserve forests (1). | 1+1+1+1+1 |
| | **OR:** IUCN divides species into normal, endangered, vulnerable, rare, endemic and extinct (1); Normal species include cattle, sal and pine (1); Endangered species are in danger of extinction (1); Vulnerable species may soon become endangered (1); Extinct species are not found anymore (1). | 1+1+1+1+1 |

**Mistakes to avoid:**

- Saying reserved and protected forests have the same status; **reserved** forests are the most valuable (more than half of forest land), **protected** almost one-third.
- Believing the Forest Department alone runs **JFM**; it needs village institutions, and the programme began in **Odisha (1988)**.
- Writing that Project Tiger started in **1972** (the year of the Wildlife Protection Act); it was launched in **1973**.
- Confusing the **Chipko movement** (resisting felling in the Himalayas) with the **Beej Bachao Andolan** (saving traditional seeds, Tehri).
- Treating **sacred groves** as government-protected areas; they are protected by community belief.
- Blaming only one cause for loss of forests; expansion of agriculture, large development projects, mining, grazing and fuel wood all contribute.

**Evaluator's note:** Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

# ANSWER KEY & MARKING SCHEME SET 2

Chapter 7: **Forest and Wildlife Resources (Geography)** | Class 10 Social Science | Maximum Marks: 40

## SECTION — A (Objective Type) — Answers — 10 × 1 = 10

| Q. | Correct Option | Brief Reasoning |
|---|---|---|
| 1 | **(d)** protected forest patches | Cultural |
| 2 | **(c)** fuel, fodder and timber | Resources |
| 3 | **(b)** Odisha | 1988 |
| 4 | **(d)** 1972 | Law |
| 5 | **(c)** reduces forests | Slash and burn |
| 6 | **(b)** tree-hugging movement | Himalayas |
| 7 | **(c)** protected area for wildlife and habitat | Conservation |
| 8 | **(a)** submerging large forest areas | Submergence |
| 9 | **(c)** illegal hunting | Illegal |
| 10 | **(c)** forests given the most protection | Largest |

## SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 11 | A habitat is the natural home or surroundings of a plant or animal (1); Loss of habitat is the main threat to wildlife (1). | 1+1 |
| 12 | A national park is a protected area where wildlife, plants and scenery are conserved (1); Hunting, grazing and farming are not allowed (1). | 1+1 |
| 13 | Poaching is illegal hunting or capturing of wild animals (1); It reduces numbers of tigers and rhinos (1). | 1+1 |
| 14 | Deforestation is the clearing of forests on a large scale (1); It causes soil erosion and loss of habitat (1). | 1+1 |

## SECTION — C (Short Answer) — Answers — 4 × 3 = 12

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 15 | Asiatic cheetah (1); Pink head duck (1); Some forest species with no recorded sightings (1). | 1+1+1 |
| 16 | It was launched in 1973 (1); It created tiger reserves in many states (1); It aims to protect tigers and their habitat (1). | 1+1+1 |
| 17 | Declaring national parks and sanctuaries (1); Passing laws such as the Wildlife Act (1); Involving local communities (1). | 1+1+1 |
| | **OR:** Soil erosion (1); Loss of wildlife habitat (1); Change in climate and rainfall (1). | 1+1+1 |
| 18 | Corbett National Park (1); Kaziranga National Park (1); Gir National Park (1). | 1+1+1 |
| | **OR:** Reserved forests (1); Protected forests (1); Unclassed forests (1). | 1+1+1 |

## SECTION — D (Long Answer) — Answers — 2 × 5 = 10

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 19 | Dams submerge large areas of forest (1); Wildlife loses its habitat (1); Tribals are displaced (1); Soil and river life are affected (1); Many forest species are lost (1). | 1+1+1+1+1 |
| | **OR:** The Wildlife (Protection) Act was passed in 1972 (1); It banned hunting of listed species (1); It protected habitats of wild animals (1); It provided for national parks and sanctuaries (1); It controlled trade in wildlife products (1). | 1+1+1+1+1 |
| 20 | Expansion of agriculture and shifting cultivation reduce forests (1); Mining and big dam projects clear forests (1); Hunting and poaching reduce wildlife (1); Overgrazing and forest fires damage habitat (1); Pollution and colonial exploitation also contributed (1). | 1+1+1+1+1 |
| | **OR:** The British cleared forests for railways and ships (1); They promoted plantations and commercial forestry (1); Agriculture expanded at the cost of forest (1); Tigers and other animals were hunted for sport (1); Forests came under state control and villagers lost access (1). | 1+1+1+1+1 |

**Mistakes to avoid:**

- Saying reserved and protected forests have the same status; **reserved** forests are the most valuable (more than half of forest land), **protected** almost one-third.
- Believing the Forest Department alone runs **JFM**; it needs village institutions, and the programme began in **Odisha (1988)**.
- Writing that Project Tiger started in **1972** (the year of the Wildlife Protection Act); it was launched in **1973**.

- Confusing the **Chipko movement** (resisting felling in the Himalayas) with the **Beej Bachao Andolan** (saving traditional seeds, Tehri).
- Treating **sacred groves** as government-protected areas; they are protected by community belief.
- Blaming only one cause for loss of forests; expansion of agriculture, large development projects, mining, grazing and fuel wood all contribute.

## ANSWER KEY & MARKING SCHEME SET 3

Chapter 7: **Forest and Wildlife Resources (Geography)** | Class 10 Social Science | Maximum Marks: 40

### SECTION — A (Objective Type) — Answers — 10 × 1 = 10

| Q. | Correct Option | Brief Reasoning |
|---|---|---|
| 1 | **(b)** normal species | Examples |
| 2 | **(c)** protected for wildlife | Wildlife |
| 3 | **(b)** lions | Gujarat |
| 4 | **(b)** rare | Small population |
| 5 | **(a)** endangered | Example |
| 6 | **(d)** about one-third of the forest area | Protected |
| 7 | **(d)** endemic | Local |
| 8 | **(a)** Assam | Rhino home |
| 9 | **(b)** 1973 | Programme |
| 10 | **(d)** West Bengal | Delta |

### SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 11 | The Chipko movement was started in the Himalayas to stop felling of trees (1); Villagers, especially women, hugged trees to save them (1). | 1+1 |
| 12 | An endangered species is in danger of extinction (1); Examples are the black buck and the Indian rhino (1). | 1+1 |
| 13 | Conservation is the careful protection and wise use of natural resources (1); It saves species and habitats for the future (1). | 1+1 |
| 14 | JFM is Joint Forest Management (1); Forest officials and local communities together protect forests and share the benefits (1). | 1+1 |

### SECTION — C (Short Answer) — Answers — 4 × 3 = 12

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 15 | Timber and fuel (1); Food, fodder and medicines (1); Protection of soil and regulation of rainfall (1). | 1+1+1 |
| 16 | Hunting of listed animals is banned (1); National parks and sanctuaries are established (1); Trade in wildlife products is regulated (1). | 1+1+1 |
| 17 | Villagers protect forests in Alwar (1); They create sacred groves (1); They join JFM committees (1). | 1+1+1 |
| | **OR:** They are patches of forest left untouched (1); They are protected for religious reasons (1); They preserve trees and wildlife (1). | 1+1+1 |
| 18 | Started in Odisha in 1988 (1); Villagers and forest officials work together (1); Villagers share forest produce (1). | 1+1+1 |
| | **OR:** Poaching and hunting (1); Habitat loss (1); Pollution and forest fires (1). | 1+1+1 |

### SECTION — D (Long Answer) — Answers — 2 × 5 = 10

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 19 | Tigers are at the top of the forest food chain (1); Their numbers fell from 55,000 to 1,827 by 1973 (1); Poaching, loss of habitat and loss of prey caused it (1); Project Tiger created reserves to save them (1); Tiger conservation also saves the forest (1). | 1+1+1+1+1 |
| | **OR:** Sacred groves are patches of forest protected for religion (1); Trees and animals within them are not harmed (1); Mundas and Santhals of Chota Nagpur worship mahua and kadamba trees (1); Other tribes worship tamarind and mango (1); These traditions conserve biodiversity (1). | 1+1+1+1+1 |
| 20 | Reserved forests are the most valuable and cover over half the forest area (1); Protected forests are about one-third of the forest area (1); Unclassed forests are owned by government, individuals and communities (1); Reserved and protected forests are permanent estates (1); Madhya Pradesh has the largest permanent forest area (1). | 1+1+1+1+1 |
| | **OR:** Forests give timber, fuel, food and medicines (1); They protect soil and prevent erosion (1); They regulate rainfall and water supply (1); They provide habitat to wildlife (1); They support forest-dwelling communities (1). | 1+1+1+1+1 |

**Mistakes to avoid:**

- Saying reserved and protected forests have the same status; **reserved** forests are the most valuable (more than half of forest land), **protected** almost one-third.
- Believing the Forest Department alone runs **JFM**; it needs village institutions, and the programme began in **Odisha (1988)**.
- Writing that Project Tiger started in **1972** (the year of the Wildlife Protection Act); it was launched in **1973**.
- Confusing the **Chipko movement** (resisting felling in the Himalayas) with the **Beej Bachao Andolan** (saving traditional seeds, Tehri).
- Treating **sacred groves** as government-protected areas; they are protected by community belief.
- Blaming only one cause for loss of forests; expansion of agriculture, large development projects, mining, grazing and fuel wood all contribute.
