THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 1

Chapter 7: **Forest and Wildlife Resources (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Joint Forest Management in India first began in 1

(a) Rajasthan in 1950 **(b)** Gujarat in 1972
(c) Odisha in 1988 **(d)** Kerala in 2000

2. Assertion (A): Sacred groves are a form of traditional conservation. Reason (R): Communities protect them for religious reasons. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

3. Assertion (A): Endemic species are at greater risk of extinction. Reason (R): They are found only in a limited area. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

4. A village protects a patch of forest as the abode of a deity. This is a 1

(a) sacred grove **(b)** wildlife sanctuary
(c) dam site **(d)** national park

5. Which attitude reflects colonial forest policy? 1

(a) conserving for community use
(b) seeing forests as sacred
(c) joint management with villagers
(d) treating forests mainly as sources of timber and revenue

6. Assertion (A): Project Tiger was launched in 1973. Reason (R): The tiger population had fallen sharply by the 1970s. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

7. Assertion (A): Large dams help to protect forests. Reason (R): They submerge large areas of forest. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

8. Assertion (A): All forests in India are reserved forests. Reason (R): Some forests are protected and unclassed. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. **Assertion (A):** Sacred groves have preserved many virgin forests in their pristine form. 1
Reason (R): Local people regard these patches of forest as the forests of gods and goddesses and ban any interference.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** The Chipko movement started in the Himalayas. 1
Reason (R): The Beej Bachao Andolan in Tehri shows that diversified crop production without synthetic chemicals is possible.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. How do forests help soil and water? 2

12. Why do tigers matter to forest ecosystems? 2

13. Why are community forests often well managed? 2

14. Why has Joint Forest Management helped forests? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain how India's laws and community efforts complement each other. 3

16. Compare tiger conservation and rhino conservation. 3

17. Explain the role of forests in tribal economies. 3

OR

Explain why forests are called lungs of the earth. 3

18. Explain how the IUCN categories guide policy. 3

OR

Explain how sacred groves preserve rare species. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** Forests in India are classified by the Forest Department into three categories. More than half of the total forest land has been declared reserved forests, which are regarded as the most valuable for the conservation of forest and wildlife. Almost one-third of the total forest area is protected forest, which is protected from further depletion. The remaining forests and wastelands belong to both government and private individuals and communities. 5
(i) Name the three categories of forests.
(ii) Which category is regarded as the most valuable for conservation?
(iii) Which category forms almost one-third of the forest area?
(iv) Why is it important to protect forests as well as wildlife?

20. Discuss the importance of community-based conservation with examples. 5

OR

Examine the causes of decline in forest and wildlife resources and suggest measures. 5
