THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 7: **Forest and Wildlife Resources (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Assertion (A): Mining is a major cause of deforestation. Reason (R): It requires clearing of large areas of land. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

2. Which sequence shows increasing risk to a species? 1

(a) normal, vulnerable, endangered, extinct **(b)** vulnerable, extinct, normal, endangered
(c) extinct, endangered, vulnerable, normal **(d)** endangered, normal, extinct, vulnerable

3. Which of these is an extinct species in India? 1

(a) rhinoceros **(b)** pink head duck **(c)** tiger **(d)** lion

4. A forest officer reports that the numbers of a species are falling and it may soon be endangered. The category is 1

(a) vulnerable **(b)** extinct **(c)** normal **(d)** endemic

5. The Mundas and Santhals of Chota Nagpur worship which trees? 1

(a) teak and sal **(b)** mahua and kadamba
(c) mango and coconut **(d)** neem and sandalwood

6. Sal and pine are classified as 1

(a) rare species **(b)** endemic species **(c)** normal species **(d)** extinct species

7. Assertion (A): The Himalayan yew has become a threatened species. Reason (R): Its bark and needles were extracted heavily to make taxol. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

8. Permanent forest estates consist of 1

(a) private forests **(b)** community-owned forests
(c) reserved and protected forests **(d)** unclassed forests

9. **Assertion (A):** Joint Forest Management began in 1988 when Odisha passed the first resolution. 1
Reason (R): Under JFM, local communities are denied any share in forest products.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Protected forests are regarded as the most valuable forests for conservation. 1
Reason (R): More than half of the total forest land has been declared reserved forests.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. Why are conservation laws not enough alone? 2

12. Why did the cheetah disappear in India? 2

13. How do dams change river forests? 2

14. Why is traditional knowledge useful for conservation? 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Analyse why big dams and mines are controversial in forest regions. 3

16. Explain the effect of shifting cultivation on forests. 3

17. Explain how awareness campaigns help. 3

OR

Explain how conserved habitats help climate. 3

18. Explain how poaching networks threaten species. 3

OR

Explain how JFM changed forest governance. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** In the 1980s, a village in Odisha formed a local committee to protect a degraded forest managed by the Forest Department. Odisha had passed the first resolution for joint forest management in 1988. In return for protection, the villagers are entitled to benefits such as non-timber forest products and a share in the timber from successful protection. 5
(i) Which state passed the first resolution on JFM?
(ii) Who undertakes the protection work under JFM?
(iii) Give any one benefit the community gets.
(iv) How is JFM better than a policy in which only the Forest Department protects forests?

20. Explain how traditional beliefs and modern law complement conservation. 5

OR

Assess the role of women and local people in forest protection. 5

END OF QUESTION PAPER Total: 40 Marks
