THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 3

Chapter 7: **Forest and Wildlife Resources (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. The government bans cutting of trees and grazing in a forest to protect its timber. This forest is 1

(a) community-owned **(b)** unclassed **(c)** private **(d)** reserved

2. Which pair is correct? 1

(a) Sundarbans - lion **(b)** Corbett - rhinoceros

(c) Gir - Asiatic lion **(d)** Kaziranga - tiger

3. Assertion (A): The Chipko movement helped protect forests. Reason (R): Villagers, especially women, hugged trees to stop felling. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

4. A benefit of involving the community in conservation is 1

(a) conflict over forest produce **(b)** local ownership and care of the forest

(c) higher costs **(d)** delay in projects

5. A decline in tiger numbers affects 1

(a) only soil **(b)** nothing

(c) the entire food chain of the forest **(d)** only rainfall

6. Which pair is INCORRECT? 1

(a) Sariska - Rajasthan **(b)** Periyar - Kerala

(c) Manas - Assam **(d)** Gir - Kerala

7. Which most clearly indicates success of a conservation effort? 1

(a) extinction

(b) falling numbers

(c) rising population of a threatened species

(d) illegal trade

8. Which is most likely to reduce poaching? 1

(a) strict laws along with local community involvement

(b) tourism only

(c) ignoring the problem

(d) profit from skins

9. **Assertion (A):** The Indian Wildlife (Protection) Act was implemented in 1972. 1
Reason (R): It banned hunting, gave legal protection to habitats and published an all-India list of protected species.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Project Tiger was launched in 1973 to protect the tiger. 1
Reason (R): The tiger population had dwindled to 1,827 by 1973 from an estimated 55,000 at the turn of the century.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. How can development and conservation clash? 2

12. How can eco-tourism support conservation? 2

13. Why is habitat protection more effective than only banning hunting? 2

14. Why are rare species easily pushed to extinction? 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain how endemic species help ecosystems. 3

16. Explain why species conservation needs both law and people. 3

17. Evaluate the Chipko movement's lessons. 3

OR

Explain how development can be made less harmful to forests. 3

18. Evaluate the impact of colonial forest policies on biodiversity. 3

OR

Explain why forest fires and grazing are threats. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** In the Himalayas, villagers in Uttarakhand hugged trees to stop contractors from felling them. The Chipko movement showed that communities could resist deforestation and that community afforestation with indigenous species can be successful. Meanwhile, the tiger population in India fell sharply, and Project Tiger was launched in 1973 to protect it. 5
(i) Name the movement in which people hugged trees.
(ii) In which year was Project Tiger launched?
(iii) Name one threat to tigers.
(iv) Why do sacred groves also help conservation?

20. Discuss the global and Indian significance of biodiversity. 5

OR

Discuss how species classification supports conservation strategy. 5

END OF QUESTION PAPER Total: 40 Marks
