CLASS 10 — SOCIAL SCIENCE · MEDIUM LEVEL CHAPTER TEST SET 3

Chapter 8: **Water Resources (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Medium level: multi-step questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Cities face water scarcity mainly because of 1

(a) absence of rivers **(b)** absence of rain
(c) free supply of water **(d)** growing population and pollution

2. Which project was built mainly to control floods in the Mahanadi delta of Odisha? 1

(a) Hirakud **(b)** Bhakra-Nangal **(c)** Sardar Sarovar **(d)** Tehri

3. Which ancient site near Allahabad (Prayagraj) shows a water harvesting system? 1

(a) Sringaverapura **(b)** Hauz Khas **(c)** Hirakud **(d)** Tehri

4. A fall in groundwater levels is mostly due to 1

(a) over-extraction through tube wells **(b)** good rainfall
(c) dense forests **(d)** heavy recharge

5. Which of the following causes inter-state conflict over rivers? 1

(a) sharing of river water **(b)** wealth
(c) religion **(d)** difference of language

6. Sedimentation is a problem for dams because it 1

(a) increases the storage capacity
(b) stops floods
(c) reduces the storage capacity of the reservoir
(d) cleans the water

7. Only a small part of the fresh water is easily accessible because 1

(a) most of it is locked as ice or lies deep underground
(b) there is too much rain
(c) there are too many rivers
(d) lakes are too big

8. Which is an environmental cost of large dams? 1

(a) more fish
(b) more rainfall
(c) loss of forests and change in river ecosystems
(d) cleaner air

9. Which traditional system is used to divert river water to fields in the Western Himalayas? 1

(a) khadins **(b)** johads **(c)** tankas **(d)** guls or kuls

10. Which is a social cost of large dams? 1

(a) displacement of people **(b)** new jobs

(c) tourism **(d)** cheap electricity

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. How does a tanka work? 2

12. Why is groundwater over-extraction harmful? 2

13. Why is water 'renewable but limited'? 2

14. How do guls or kuls help hill farmers? 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain how floods and droughts are two faces of water problems. 3

16. Explain how green revolution increased groundwater use. 3

17. Explain why India faces water scarcity despite high rainfall. 3

OR

Explain how states manage groundwater. 3

18. Explain the role of communities in conserving water. 3

OR

Explain how households can save water. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. Explain the case for decentralised water management. 5

OR

Explain how water can be a source of conflict and cooperation. 5

20. Analyse the causes and effects of water scarcity in India. 5

OR

Explain how irrigation, industry and urbanisation affect groundwater. 5
