THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 1

Chapter 8: **Water Resources (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Assertion (A): Water is a renewable resource. Reason (R): Its availability is unlimited at all places. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

2. A report says a dam has silted up. The effect is 1

(a) greater storage capacity **(b)** reduced storage capacity
(c) no change **(d)** more power

3. Assertion (A): Johads help recharge groundwater. Reason (R): They store monsoon run-off, which percolates into the ground. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

4. Which project is on the Bhagirathi river? 1

(a) Hirakud dam **(b)** Bhakra dam **(c)** Sardar Sarovar **(d)** Tehri dam

5. Which factor does NOT increase water scarcity? 1

(a) pollution **(b)** overuse
(c) rainwater harvesting **(d)** population growth

6. Assertion (A): Traditional water harvesting systems are obsolete. Reason (R): Tamil Nadu made rooftop harvesting compulsory in all houses. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

7. Which approach would help an arid region most? 1

(a) local rainwater harvesting **(b)** building a huge dam far away
(c) open canals only **(d)** water imports by tanker

8. Which statement is correct? 1

(a) water is non-renewable **(b)** water is a limited resource
(c) water is a biotic resource **(d)** water is infinite

9. **Assertion (A):** Jawaharlal Nehru called dams the 'temples of modern India'. 1
Reason (R): Multi-purpose dams integrate the development of agriculture and the village economy with rapid industrialisation and urban growth.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** The Hirakud project is built in the Mahanadi basin. 1
Reason (R): The Bhakra-Nangal project uses the water of the Sutlej-Beas basin for hydel power and irrigation.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. How do dams change river ecosystems? 2

12. Why does irrigation need to be efficient? 2

13. How does water scarcity affect agriculture? 2

14. Why can dams intensify floods? 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain the idea of rights over water. 3

16. Examine why Tamil Nadu's rooftop law was effective. 3

17. Explain how traditional structures adapt to climate. 3

OR

Explain how dams influence regional inequality. 3

18. Explain how Meghalaya's bamboo drip system is sustainable. 3

OR

Analyse the effects of high-yield seeds on water. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** Multi-purpose river valley projects were launched after Independence with an integrated water resources management approach. For example, in the Sutlej-Beas river basin the Bhakra-Nangal project water is used both for hydel power production and irrigation, and the Hirakud project in the Mahanadi basin integrates conservation of water with flood control. 5
(i) What is a multi-purpose river project?
(ii) Name the river on which the Hirakud project is built.
(iii) Name one use of the Bhakra-Nangal project.
(iv) How do dams harm rivers and the people living near them?

20. Discuss ancient and medieval Indian hydraulic engineering. 5

OR

Explain how traditional water management systems reflect adaptation to regions. 5

END OF QUESTION PAPER Total: 40 Marks
