THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

ANSWER KEY & MARKING SCHEME SET 1

Chapter 9: **Agriculture (Geography)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** Rabi oilseed	Winter
2	**(a)** monsoon	June
3	**(d)** coarse grains	Nutritious
4	**(d)** pulses	World
5	**(c)** high-yielding variety (HYV) seeds	Seeds
6	**(d)** summer months	Short season
7	**(c)** improve soil fertility and yield	Inputs
8	**(b)** Karnataka	Kodagu
9	**(d)** cash crop	Sugar source
10	**(d)** oilseed	Kharif

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The Green Revolution used HYV seeds, fertilisers and irrigation to raise foodgrain output (1); It began in the 1960s in Punjab and Haryana (1).	1+1
12	Pulses are leguminous crops that give protein (1); Tur, urad, moong and gram are examples (1).	1+1
13	Millets are coarse grains (1); Jowar, bajra and ragi are millets (1).	1+1
14	A plantation is a large estate growing a single crop for sale (1); Tea, coffee and rubber are grown on plantations (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Rice (1); Maize and jowar (1); Cotton, jute and groundnut (1).	1+1+1
16	Minimum support price (1); Kisan Credit Card (1); Crop insurance (1).	1+1+1
17	Groundnut (1); Mustard (1); Sesamum, castor or linseed (1).	1+1+1
	OR: Wheat (1); Mustard (1); Gram, barley or peas (1).	1+1+1
18	Sugar (1); Gur or jaggery (1); Molasses (1).	1+1+1
	OR: Tea (1); Coffee (1); Rubber (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Primitive subsistence farming uses simple tools on small plots (1); Intensive subsistence farming is practised where land is scarce (1); Commercial farming grows crops for sale with modern inputs (1); Plantation farming grows a single crop on a large estate (1); Examples are jhumming, rice in Odisha, wheat in Punjab and tea in Assam (1).	1+1+1+1+1
	OR: Wheat is a Rabi crop (1); It needs a cool growing season (1); Bright sunshine is needed at ripening (1); It grows in the Ganga-Satluj plains (1); UP, Punjab and Haryana are main producers (1).	1+1+1+1+1
20	Sugarcane is a cash crop (1); It needs a hot, humid climate (1); It grows in Uttar Pradesh, Maharashtra and Karnataka (1); It gives sugar, gur and molasses (1); India is the second largest producer after Brazil (1).	1+1+1+1+1
	OR: Rabi crops are sown in winter (1); Kharif crops are sown with monsoon (1); Zaid crops are grown in summer (1); Wheat is Rabi, rice is Kharif and watermelon is Zaid (1); Seasons depend on rain and temperature (1).	1+1+1+1+1

Mistakes to avoid:

- Mixing seasons: **rabi** (wheat, gram, mustard, barley, peas), **kharif** (rice, maize, cotton, jute, bajra, jowar) and **zaid** (watermelon, cucumber, fodder).
- Calling ragi, jowar and bajra pulses; they are **millets** (coarse grains). Pulses (tur, moong, urad, gram) fix nitrogen in the soil.
- Saying India is the largest producer of sugarcane or rice; it is the **second** largest producer of both (after Brazil and China respectively).
- Confusing **primitive subsistence** (small plots, hoe, dao; slash and burn) with **intensive subsistence** (high population pressure, high doses of inputs) and with commercial farming.

- Using **Green Revolution** (package technology for foodgrains) and **White Revolution** (Operation Flood, milk) as synonyms.
- Writing that Bhoodan was started by Gandhiji; **Vinoba Bhave** started it after Gandhiji's martyrdom.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

MASTERMIND

ANSWER KEY & MARKING SCHEME SET 2

Chapter 9: **Agriculture (Geography)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** Rabi crop	Winter
2	**(c)** milk	Dairy
3	**(b)** winter	October
4	**(c)** the cultivation of fruits and vegetables	Gardening
5	**(a)** Bhoodan	1951
6	**(c)** make land ownership more equitable	Equity
7	**(a)** protein	Diet
8	**(c)** Kharif crop	Fibre
9	**(b)** primary activity	Farming
10	**(d)** gift of land	Land

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Zaid crops are grown in the short summer season between Rabi and Kharif (1); Watermelon and cucumber are examples (1).	1+1
12	Oilseeds are crops from which edible oil is extracted (1); Groundnut, mustard and sesamum are oilseeds (1).	1+1
13	Rabi crops are sown in winter and harvested in summer (1); Wheat, barley and mustard are examples (1).	1+1
14	Land reform is the change in the system of land ownership and use (1); It includes abolition of zamindari and consolidation of holdings (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Uttar Pradesh (1); Punjab (1); Haryana (1).	1+1+1
16	Cotton (1); Jute (1); Hemp or natural silk (1).	1+1+1
17	Tur or arhar (1); Moong and urad (1); Gram, masur and peas (1).	1+1+1
	OR: Small land holdings (1); Mainly family labour (1); Crops for family use (1).	1+1+1
18	Modern inputs such as HYV seeds (1); Crops grown for sale (1); Higher productivity (1).	1+1+1
	OR: Watermelon (1); Muskmelon (1); Cucumber (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Land reforms ended zamindari and consolidated holdings (1); They aimed at fairer ownership (1); Vinoba Bhave started Bhoodan in 1951 (1); Landlords were asked to donate land (1); Gramdan meant village land in common (1).	1+1+1+1+1
	OR: Jowar, bajra and ragi are millets (1); Ragi is rich in iron and calcium (1); Maize is used as food and fodder (1); These are grown in drier areas (1); They are nutritious coarse grains (1).	1+1+1+1+1
20	Rice is a Kharif crop (1); It needs temperature above 25 degrees Celsius (1); Annual rainfall above 100 cm is required (1); It grows in plains, deltas and coastal areas (1); West Bengal, Punjab and UP are major producers (1).	1+1+1+1+1
	OR: Tea needs warm, moist, frost-free climate (1); It grows in Assam, Darjeeling and the south (1); Coffee is grown in the Nilgiris of Karnataka, Kerala and Tamil Nadu (1); Arabica coffee came from Yemen (1); Both are plantation crops for export (1).	1+1+1+1+1

Mistakes to avoid:

- Mixing seasons: **rabi** (wheat, gram, mustard, barley, peas), **kharif** (rice, maize, cotton, jute, bajra, jowar) and **zaid** (watermelon, cucumber, fodder).
- Calling ragi, jowar and bajra pulses; they are **millets** (coarse grains). Pulses (tur, moong, urad, gram) fix nitrogen in the soil.
- Saying India is the largest producer of sugarcane or rice; it is the **second** largest producer of both (after Brazil and China respectively).

- Confusing **primitive subsistence** (small plots, hoe, dao; slash and burn) with **intensive subsistence** (high population pressure, high doses of inputs) and with commercial farming.
- Using **Green Revolution** (package technology for foodgrains) and **White Revolution** (Operation Flood, milk) as synonyms.
- Writing that Bhoodan was started by Gandhiji; **Vinoba Bhave** started it after Gandhiji's martyrdom.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 9: **Agriculture (Geography)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** plantation crop	Assam
2	**(b)** large commercial estates of a single crop	Large estates
3	**(a)** crops to grow when rain is scarce	Water
4	**(b)** cereal	Food and fodder
5	**(a)** north-east	Slash and burn
6	**(a)** Kerala	Humid
7	**(b)** nitrogen	Soil fertility
8	**(c)** Kharif crop	Monsoon
9	**(c)** subsistence farming	Small holdings
10	**(d)** fibre crop	Golden fibre

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Kharif crops are sown with the onset of monsoon and harvested in autumn (1); Rice, maize and cotton are examples (1).	1+1
12	Commercial farming is growing crops mainly for sale (1); It uses modern inputs like HYV seeds and fertilisers (1).	1+1
13	Subsistence farming is growing crops mainly for the family's own needs (1); It uses small plots and family labour (1).	1+1
14	A cash crop is grown mainly for sale rather than for own use (1); Cotton and sugarcane are examples (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Jowar (1); Bajra (1); Ragi (1).	1+1+1
16	High temperature above 25 degrees Celsius (1); Annual rainfall above 100 cm (1); Fertile alluvial soil (1).	1+1+1
17	Cool growing season (1); Bright sunshine at ripening (1); 50 to 75 cm rain (1).	1+1+1
	OR: West Bengal (1); Punjab (1); Uttar Pradesh or Odisha (1).	1+1+1
18	Higher foodgrain production (1); Regional inequality (1); Soil and water degradation (1).	1+1+1
	OR: Abolition of zamindari (1); Consolidation of holdings (1); Land ceiling laws (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	The Green Revolution started in the 1960s (1); It used HYV seeds, fertilisers and irrigation (1); Wheat and rice output rose sharply (1); India became self-sufficient in foodgrains (1); Gains were mostly in Punjab, Haryana and western UP (1).	1+1+1+1+1
	OR: Cotton grows well in black soil of the Deccan (1); It needs high temperature and light rain (1); Jute grows in flood plains of West Bengal and Assam (1); Jute is called golden fibre (1); Both supply raw material to industry (1).	1+1+1+1+1
20	Pulses are rich in protein (1); Tur, urad, moong, masur and gram are major pulses (1); They fix nitrogen in the soil (1); They are rotated with cereals (1); India is the largest producer and consumer (1).	1+1+1+1+1
	OR: Oilseeds give edible oil (1); Groundnut, mustard, sesamum and linseed are oilseeds (1); Groundnut is a Kharif crop (1); They are used in cooking, soaps and cosmetics (1); India is among the leading producers (1).	1+1+1+1+1

Mistakes to avoid:

- Mixing seasons: **rabi** (wheat, gram, mustard, barley, peas), **kharif** (rice, maize, cotton, jute, bajra, jowar) and **zaid** (watermelon, cucumber, fodder).
- Calling ragi, jowar and bajra pulses; they are **millets** (coarse grains). Pulses (tur, moong, urad, gram) fix nitrogen in the soil.
- Saying India is the largest producer of sugarcane or rice; it is the **second** largest producer of both (after Brazil and China respectively).
- Confusing **primitive subsistence** (small plots, hoe, dao; slash and burn) with **intensive subsistence** (high population pressure, high doses of inputs) and with commercial farming.

- Using **Green Revolution** (package technology for foodgrains) and **White Revolution** (Operation Flood, milk) as synonyms.
- Writing that Bhoodan was started by Gandhiji; **Vinoba Bhave** started it after Gandhiji's martyrdom.
