Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 1

Chapter 9: **Agriculture (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Which crop is both a Kharif crop and an oilseed? 1

(a) gram **(b)** mustard **(c)** groundnut **(d)** wheat

2. Which state pair is a major producer of both tea and coffee in the hills? 1

(a) Bihar and Jharkhand **(b)** Kerala and Karnataka

(c) Rajasthan and Punjab **(d)** Haryana and Delhi

3. Assertion (A): Agriculture is vital for India. Reason (R): It employs about two-thirds of the population. 1

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

4. If winter rains fail, the crop most at risk is 1

(a) cotton **(b)** wheat **(c)** rice **(d)** jute

5. Which factor promotes organic farming? 1

(a) health concerns and demand for chemical-free food

(b) shortage of seeds

(c) subsidies on pesticides

(d) cheaper chemical fertilisers

6. A drought in July would mainly affect 1

(a) Kharif sowing **(b)** Rabi harvest **(c)** Zaid watermelon **(d)** tea in Assam

7. Which pair is correct? 1

(a) rubber - Rajasthan **(b)** cotton - black soil

(c) rice - desert **(d)** tea - Punjab

8. Which of these is a pulse? 1

(a) maize **(b)** ragi **(c)** gram **(d)** jowar

9. **Assertion (A):** Wheat is a rabi crop. 1

Reason (R): Rabi crops are sown in winter and harvested in summer, and wheat needs a cool growing season and bright sunshine at ripening.

Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.

(b) Both A and R are true but R is not the correct explanation of A.

(c) A is true but R is false.

(d) A is false but R is true.

10. **Assertion (A):** Jute is known as the golden fibre. 1
Reason (R): Jute grows well on well-drained fertile soils in flood plains where soils are renewed every year.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why do farmers' suicides link to debt? 2

12. Why is horticulture growth important? 2

13. Why is agriculture in India said to be a gamble in the monsoon? 2

14. How does globalisation influence crop choices? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Explain the role of cooperatives in agriculture. 3

16. Explain why pulses production is low despite demand. 3

17. Explain the role of technology in raising yield. 3

OR

Explain the role of fruits and vegetable exports. 3

18. Evaluate the role of institutional reforms in improving agriculture. 3

OR

Explain how climate change threatens Indian agriculture. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** India has three cropping seasons. Rabi crops are sown in winter from October to December and harvested in summer from April to June. Kharif crops are grown with the onset of the monsoon and harvested in September-October. In between the rabi and kharif seasons there is a short season in the summer months. Some of its crops are watermelon, muskmelon, cucumber, vegetables and fodder crops. 5
(i) Name the short summer cropping season.
(ii) Give two rabi crops.
(iii) Give two kharif crops.
(iv) Why does the success of rabi crops depend on winter rainfall in the north, and how did the Green Revolution help?

20. Discuss the role of institutional and technological reforms in agricultural development. 5

OR

Examine the diversity of Indian agriculture in terms of types, crops and seasons. 5
