THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 9: **Agriculture (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Assertion (A): The Kisan Credit Card helps farmers. Reason (R): It provides easy credit for buying inputs. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

2. Assertion (A): Land reforms were needed in India. Reason (R): Land ownership was highly unequal. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

3. Which factor helped India become self-sufficient in foodgrains? 1

(a) the Yellow Revolution **(b)** the Blue Revolution
(c) the Red Revolution **(d)** the Green Revolution

4. Which is a government price assurance given to farmers? 1

(a) goods and services tax **(b)** minimum support price
(c) maximum retail price **(d)** equated monthly instalment

5. Why do small farmers often fall into debt? 1

(a) dependence on moneylenders at high interest
(b) very large holdings
(c) very high crop prices
(d) cheap bank credit

6. A farmer grows rice in the monsoon and wheat in winter on the same field. This is 1

(a) plantation farming **(b)** primitive farming
(c) double cropping **(d)** shifting cultivation

7. Assertion (A): The Green Revolution benefited all regions of India equally. Reason (R): It was concentrated in some states like Punjab and Haryana. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

8. Assertion (A): Pulses are rotated with cereals. Reason (R): Pulses fix atmospheric nitrogen in the soil. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. **Assertion (A):** Tea is grown as a plantation crop in Assam and West Bengal. 1
Reason (R): Tea bushes require a cold, dry climate with frost during the growing season.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Primitive subsistence farming is carried out on large holdings using modern machines. 1
Reason (R): It is practised on small patches of land with primitive tools such as the hoe, dao and digging stick.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. Why is rice cultivation water-intensive? 2

12. Why is institutional credit better than moneylender credit? 2

13. Why is soil testing useful? 2

14. Why do fragmented holdings hamper agriculture? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Compare farming in Punjab and in Assam. 3

16. Explain why farmers need price stability. 3

17. Explain why Kharif and Rabi seasons suit different crops. 3

OR

Explain how supply chains affect farmers' profits. 3

18. Explain how irrigation expansion changed cropping. 3

OR

Explain how Indian agriculture supports industry. 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** To improve Indian agriculture, the Government embarked on reforms in the 1960s and 1970s. The Green Revolution based on package technology and the White Revolution (Operation Flood) were launched. The government also announces a minimum support price (MSP) for important crops, and schemes such as the Kisan Credit Card help farmers get loans. But development remained concentrated in a few selected areas. 5
(i) Name the revolution connected with milk.
(ii) What is the purpose of MSP?
(iii) Name one scheme to help farmers mentioned in the passage.
(iv) Why is the Green Revolution criticised even though it raised output?

20. Discuss the impact of globalisation and trade policy on Indian farmers. 5

OR

Assess the sustainability of intensive farming in India. 5
