ANSWER KEY & MARKING SCHEME SET 1

Chapter 11: **Manufacturing Industries (Geography)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** steel	Mineral-based
2	**(b)** cluster of industries	Industrial hub
3	**(d)** the environment and human health	Air, water
4	**(b)** creating jobs and adding value to raw materials	Employment
5	**(d)** discharge of hot water from factories and power plants	Power plants
6	**(d)** vehicles	Cars
7	**(c)** individuals	Companies
8	**(d)** golden fibre	Bengal
9	**(d)** limestone	Gypsum
10	**(a)** raw materials to other industries	Steel

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The IT industry deals with software and information services (1); Bengaluru is a major centre (1).	1+1
12	Jute is a fibre called the golden fibre (1); It is used for sacks and ropes (1).	1+1
13	Steel is an alloy of iron and carbon (1); It is used for machines and construction (1).	1+1
14	A private sector industry is owned by individuals or companies (1); TISCO is an example (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Iron and steel (1); Cement (1); Aluminium (1).	1+1+1
16	Iron ore (1); Coking coal (1); Limestone (1).	1+1+1
17	Sacks (1); Mats (1); Ropes (1).	1+1+1
	OR: Cotton textile (1); Jute (1); Sugar (1).	1+1+1
18	Jobs (1); Exports (1); Modern agriculture (1).	1+1+1
	OR: Air pollution (1); Water pollution (1); Noise and thermal pollution (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Manufacturing converts raw material into goods (1); It creates jobs (1); It brings foreign exchange (1); It supports farming (1); It reduces regional gaps (1).	1+1+1+1+1
	OR: Jute is the golden fibre (1); It is grown near the Hugli (1); The first mill was at Rishra (1); It makes sacks and mats (1); Synthetics compete (1).	1+1+1+1+1
20	Aluminium is light and strong (1); It is made from bauxite (1); Smelting needs much power (1); It resists corrosion (1); It is used in aircraft (1).	1+1+1+1+1
	OR: By raw material: agro and mineral based (1); By ownership: public, private, joint and cooperative (1); By role: basic and consumer (1); By size: small and large scale (1); By weight: heavy and light (1).	1+1+1+1+1

Mistakes to avoid:

- Placing **Jamshedpur** in Odisha or West Bengal; TISCO is located in **Jharkhand**.
- Mixing classifications: industries by **raw material** (agro-based, mineral-based), by **ownership** (public, private, joint, cooperative) and by **role** (basic, consumer).
- Giving the wrong dates: first successful cotton mill in **Mumbai in 1854**; first jute mill in **1855** at Rishra near Kolkata.
- Saying sugar mills are shifting north; they are moving to **south and west** because of higher sucrose content and a longer crushing season.

- Listing only air pollution as industrial pollution; also note **water** (thermal, effluents), **noise** and **land** pollution.
- Confusing public-sector steel plants (**SAIL**: Bhilai, Durgapur, Rourkela, Bokaro) with the private-sector TISCO.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

MASTERMIND

ANSWER KEY & MARKING SCHEME SET 2

Chapter 11: **Manufacturing Industries (Geography)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** sugarcane	Cane
2	**(d)** agriculture	Nutrients
3	**(c)** Mumbai	1854
4	**(c)** machinery and generators	Factories
5	**(a)** light raw materials	Electronics
6	**(b)** 1984	Madhya Pradesh
7	**(c)** smoke and toxic gases released by factories	Factories
8	**(c)** steel	TISCO
9	**(d)** textile industry	Agro-based
10	**(d)** government	State

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	A basic industry supplies raw material to other industries (1); Iron and steel is an example (1).	1+1
12	Cement is a building material made from limestone, silica and gypsum (1); It is used in construction (1).	1+1
13	An industry is an economic activity of making goods or providing services (1); Manufacturing industries convert raw materials into products (1).	1+1
14	Pollution is the contamination of the environment with harmful substances (1); It harms living things (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Treat effluents (1); Install filters in chimneys (1); Recycle water (1).	1+1+1
16	Food and sweets (1); Gur or jaggery (1); Ethanol or molasses (1).	1+1+1
17	Houses (1); Bridges (1); Dams and roads (1).	1+1+1
	OR: Owned by the government (1); Aim at public welfare (1); Examples are SAIL and BHEL (1).	1+1+1
18	Owned by individuals or companies (1); Run for profit (1); Examples are TISCO and Dabur (1).	1+1+1
	OR: Bhilai (1); Rourkela (1); Durgapur or Bokaro (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Industries cause air, water, noise and thermal pollution (1); Smoke and effluents harm health (1); Bhopal gas tragedy was an example (1); Control needs filters and treatment (1); Recycling helps (1).	1+1+1+1+1
	OR: Sugar is made from sugarcane (1); Mills are near cane fields (1); It is seasonal (1); Maharashtra has cooperative mills (1); Industry has moved south (1).	1+1+1+1+1
20	The first mill was in Mumbai in 1854 (1); Maharashtra and Gujarat have most mills (1); Cotton and port help (1); Weaving is decentralised (1); Power cuts and old machines are problems (1).	1+1+1+1+1
	OR: Cement uses limestone, silica and gypsum (1); The first plant was in Chennai (1); Used for houses, bridges (1); Spread in many states (1); Linked to construction (1).	1+1+1+1+1

Mistakes to avoid:

- Placing **Jamshedpur** in Odisha or West Bengal; TISCO is located in **Jharkhand**.
- Mixing classifications: industries by **raw material** (agro-based, mineral-based), by **ownership** (public, private, joint, cooperative) and by **role** (basic, consumer).
- Giving the wrong dates: first successful cotton mill in **Mumbai in 1854**; first jute mill in **1855** at Rishra near Kolkata.
- Saying sugar mills are shifting north; they are moving to **south and west** because of higher sucrose content and a longer crushing season.
- Listing only air pollution as industrial pollution; also note **water** (thermal, effluents), **noise** and **land** pollution.

- Confusing public-sector steel plants (**SAIL**: Bhilai, Durgapur, Rourkela, Bokaro) with the private-sector TISCO.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 11: **Manufacturing Industries (Geography)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(b)** software	Bengaluru
2	**(b)** processing raw materials into finished goods	Secondary
3	**(b)** discharge of untreated effluents	Effluents
4	**(a)** Chhattisgarh	SAIL
5	**(c)** electronics	IT capital
6	**(b)** light metal	Bauxite
7	**(a)** bulky raw materials	Steel
8	**(b)** construction	Buildings
9	**(c)** producers or suppliers of raw materials	Sugar
10	**(c)** finished goods of higher value	Output

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Raw material is the basic material from which goods are made (1); Cotton is the raw material of textiles (1).	1+1
12	A public sector industry is owned by the government (1); SAIL and BHEL are examples (1).	1+1
13	A consumer industry produces goods for direct use by consumers (1); Sugar and soap are examples (1).	1+1
14	A cooperative industry is owned by producers or suppliers of raw material (1); Sugar mills in Maharashtra are examples (1).	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Machines (1); Construction (1); Vehicles (1).	1+1+1
16	Owned by producers (1); Run for members' benefit (1); Sugar mills in Maharashtra are examples (1).	1+1+1
17	Health problems (1); Damage to water and soil (1); Climate change (1).	1+1+1
	OR: Bengaluru (1); Hyderabad (1); Pune or Noida (1).	1+1+1
18	Gurugram (1); Chennai (1); Pune (1).	1+1+1
	OR: Limestone (1); Silica (1); Gypsum (1).	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	IT makes software and services (1); Bengaluru is a hub (1); STPs promote exports (1); It gives jobs to educated youth (1); It causes less pollution (1).	1+1+1+1+1
	OR: Automobile industry makes cars, trucks and bikes (1); It is near Gurugram, Pune, Chennai (1); It uses steel and rubber (1); It gives jobs (1); It causes pollution (1).	1+1+1+1+1
20	Iron and steel is a basic industry (1); It uses iron ore, coking coal and limestone (1); Plants are at Bhilai, Rourkela, Durgapur, Bokaro (1); SAIL markets steel (1); It supplies machines and tools (1).	1+1+1+1+1
	OR: Chemical industries make fertilisers, paints, soaps (1); They make drugs (1); They are in Gujarat and Maharashtra (1); Some are polluting (1); They support farming (1).	1+1+1+1+1

Mistakes to avoid:

- Placing **Jamshedpur** in Odisha or West Bengal; TISCO is located in **Jharkhand**.
- Mixing classifications: industries by **raw material** (agro-based, mineral-based), by **ownership** (public, private, joint, cooperative) and by **role** (basic, consumer).
- Giving the wrong dates: first successful cotton mill in **Mumbai in 1854**; first jute mill in **1855** at Rishra near Kolkata.
- Saying sugar mills are shifting north; they are moving to **south and west** because of higher sucrose content and a longer crushing season.
- Listing only air pollution as industrial pollution; also note **water** (thermal, effluents), **noise** and **land** pollution.

- Confusing public-sector steel plants (**SAIL**: Bhilai, Durgapur, Rourkela, Bokaro) with the private-sector TISCO.
