CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 2

Chapter 11: **Manufacturing Industries (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. A mill owned by sugarcane farmers is a 1

(a) joint sector industry **(b)** private sector industry
(c) public sector industry **(d)** cooperative industry

2. A cause of low productivity in the steel industry is 1

(a) cheap coking coal **(b)** surplus power
(c) new technology **(d)** old technology

3. Assertion (A): The jute industry faces competition from synthetic fibres. Reason (R): Synthetic substitutes are cheaper and more durable. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

4. Which steel plant is port-based and uses imported raw material? 1

(a) Bokaro **(b)** Durgapur **(c)** Visakhapatnam **(d)** Bhilai

5. Which sector faces the most pollution complaints? 1

(a) banking **(b)** IT **(c)** chemicals **(d)** tourism

6. Which policy change after 1991 helped industries? 1

(a) controls **(b)** quotas **(c)** liberalisation **(d)** licence raj

7. If cotton is cheap and a port is nearby, cotton textile mills are likely to 1

(a) cluster there **(b)** disappear
(c) shift to the Himalayas **(d)** stop production

8. Assertion (A): The Bhopal gas tragedy was caused by an industrial accident. Reason (R): Methyl isocyanate leaked from a pesticide plant in 1984. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. **Assertion (A):** The sugar industry is shifting towards the southern and western states. 1
Reason (R): The cane grown in India's northern states has a higher sucrose content.
Choose the correct option:

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Industrial pollution is caused only by air pollution. 1
Reason (R): Thermal pollution of water occurs when hot water from factories and thermal plants is drained into rivers and ponds before cooling.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. Why is automobile growth linked to steel and rubber? 2

12. Why do others prefer market locations? 2

13. Why are SEZs created? 2

14. Why are cooperative sugar mills efficient? 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Analyse locational shifts in the sugar industry. 3

16. Explain how manufacturing helps reduce poverty. 3

17. Explain the role of technology in industries. 3

OR

Explain regional imbalance in industrial development. 3

18. Explain how cement industry contributes to infrastructure. 3

OR

Analyse how IT parks changed India's economy. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** The iron and steel industry is a basic industry since all other industries depend on it for their machinery. Its raw materials are iron ore, coking coal, limestone and manganese. The plants at Bhilai, Durgapur, Rourkela and Bokaro are public-sector units run by SAIL, while the Tata Iron and Steel Company is a private-sector unit located at Jamshedpur. 5
(i) Why is the iron and steel industry called a basic industry?
(ii) Name two raw materials of the industry.
(iii) Name the state in which Jamshedpur is located.
(iv) Why are steel plants located near iron ore and coal fields?

20. Analyse the contribution of manufacturing to the Indian economy and challenges. 5

OR

Examine why industrial development has been uneven. 5
