THE MASTERMIND COACHING CLASSES

CBSE / RBSE • NURSERY – CLASS XII • JAIPUR

Road No. 5, VKIA, Jaipur — 9887258679

CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 3

Chapter 11: **Manufacturing Industries (Geography)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Assertion (A): The IT industry is a major source of air pollution. Reason (R): It does not burn large quantities of fuel. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

2. Industries cluster in or near cities because they get 1

(a) no banks **(b)** infrastructure, labour and markets
(c) no labour **(d)** no power

3. The first successful modern cotton mill in India was started in 1

(a) Delhi in 1947 **(b)** Chennai in 1904 **(c)** Mumbai in 1854 **(d)** Kolkata in 1855

4. Which industry is energy intensive? 1

(a) aluminium smelting **(b)** printing
(c) information technology **(d)** tailoring

5. The automobile industry helps other sectors because it 1

(a) creates demand for steel, glass and rubber
(b) reduces employment
(c) only pollutes
(d) reduces steel demand

6. Which measure reduces thermal pollution of water? 1

(a) releasing hot water directly
(b) burning more coal
(c) treating hot water in cooling ponds before release
(d) dumping waste

7. A factor in the Bhopal gas tragedy was 1

(a) lack of safety measures **(b)** excess safety
(c) a cyclone **(d)** heavy rain

8. Assertion (A): Cooperative industries are owned by the government. Reason (R): Producers or suppliers of raw materials own them. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. **Assertion (A):** The jute industry is concentrated in the Hugli basin of West Bengal. 1
Reason (R): The area has jute growing nearby, cheap water transport, abundant water for processing and cheap labour.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Mumbai was the site of the first successful modern cotton textile mill in 1854. 1
Reason (R): Ahmedabad is also a major centre of the cotton textile industry.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) 4 × 2 = 8

Answer in about 20–30 words each.

11. Why are small industries significant? 2

12. Why do fertiliser units need gas? 2

13. Why are state-owned steel plants often underperforming? 2

14. Why do some industries prefer raw-material locations? 2

SECTION — C (Short Answer Type) 4 × 3 = 12

Answer in about 40–60 words each.

15. Evaluate environmental regulations on industries. 3

16. Explain why textile industry has both mills and handlooms. 3

17. Evaluate the importance of fertiliser industry. 3

OR

Explain the effect of automobile industry on pollution. 3

18. Evaluate the role of public and private sectors in steel. 3

OR

Explain why industries must adopt cleaner technology. 3

SECTION — D (Long Answer Type) 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** The sugar industry is seasonal in nature. Its raw material, sugarcane, is bulky and its sucrose content reduces during haulage. Mills were earlier concentrated in Uttar Pradesh and Bihar, but the industry has shifted to southern and western states, especially Maharashtra, where cane has higher sucrose content, the cooler climate ensures a longer crushing season and cooperatives are more successful. 5
(i) Why is the sugar industry seasonal?
(ii) Which state is a leading centre of the shift?
(iii) What reduces during haulage of sugarcane?
(iv) Why are sugar mills located close to cane fields?

20. Compare agro-based and mineral-based industries with examples. 5

OR

Discuss the shift in manufacturing from traditional to modern industries. 5

END OF QUESTION PAPER Total: 40 Marks
