SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	(i) To obtain information on the money sanctioned and spent on the road (1). (ii) Transparency (1). (iii) An accountable government (1). (iv) Citizens can examine decisions and expenses and ask officials to explain; the fear of exposure makes the government careful about misuse and corruption (2).	1+1+1+2

Mistakes to avoid:

- Writing that democracy **guarantees** prosperity and no inequality; the chapter says it does not automatically deliver faster growth or remove inequality.
- Forgetting the three expected outcomes of a democratic government: **accountable, responsive and legitimate**.
- Mixing up **political equality** (one person, one vote) with **economic equality**; democracy gives the first but has not fully achieved the second.
- Saying democracy has made no progress for women and disadvantaged groups; it has increased **dignity and freedom**, though gaps remain.
- Quoting the growth figures the wrong way round: 1950-2000 **dictatorial regimes 4.42**, **democratic regimes 3.95**, but among poor countries 4.34 vs 4.28; do not conclude that dictatorship is better.
- Forgetting that a democratic government can be slower in taking decisions, but this is the cost of **consultation and accountability**.
