CLASS 10 — SOCIAL SCIENCE · HARD LEVEL CHAPTER TEST SET 1

Chapter 18: **Development (Economics)** | RBSE Pattern | Session 2026–27

Time: 1 Hour 30 Minutes Name: _____ Roll No.: _____ **Maximum Marks: 40**

General Instructions:

1. All questions are compulsory.
2. Q. 1–10 are Objective Type (1 mark each).
3. Q. 11–14 are Very Short Answer Type (2 marks each).
4. Q. 15–18 are Short Answer Type (3 marks each).
5. Q. 19–20 are Long Answer Type (5 marks each).
6. Internal choice is given in Q. 17 to 20.
7. Write the question number before each answer.
8. Hard level: application and higher-order questions.

SECTION — A (Objective Type Questions) 10 × 1 = 10

Choose the correct option and write it in your answer book.

1. Assertion (A): Development cannot be judged by income alone. Reason (R): Money cannot buy a pollution-free environment or protection from infectious diseases without public facilities. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

2. Which of the following, if falling, indicates improving health? 1

(a) life expectancy **(b)** per capita income
(c) literacy rate **(d)** infant mortality rate

3. Assertion (A): Groundwater can be used without any limit. Reason (R): Groundwater is a renewable resource that is replenished by rainfall. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

4. The per capita availability of foodgrains is higher in a state but many people go hungry. This suggests: 1

(a) PDS is perfect
(b) availability does not ensure access for the poor
(c) income is equal
(d) no hunger exists

5. A person prefers a lower paid job in a safe environment with respect. This shows that: 1

(a) money is everything **(b)** respect is irrelevant
(c) goals are not only about money **(d)** safety is not valued

6. If a country wants to reduce dependence on crude oil, a sustainable step would be: 1

(a) increasing imports only **(b)** wasting fuel
(c) using renewable energy sources **(d)** using more oil

7. A minister claims: 'Because our per capita income has doubled, everyone is better off.' A good response is: 1

(a) Average hides distribution, so we must check how the gains are shared
(b) Income is irrelevant
(c) Inflation never matters
(d) He is right in all cases

8. Assertion (A): Crude oil is a non-renewable resource. Reason (R): Once crude oil is used it cannot be replenished within a human lifetime. 1

(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

9. **Assertion (A):** Different persons can have different developmental goals. 1
Reason (R): What one person considers development may not be so for another, as they have different life situations and aspirations.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

10. **Assertion (A):** Per capita income is the average income of a country. 1
Reason (R): It is calculated by dividing the total income of the country by its total population.
Choose the correct option:
(a) Both A and R are true and R is the correct explanation of A.
(b) Both A and R are true but R is not the correct explanation of A.
(c) A is true but R is false.
(d) A is false but R is true.

SECTION — B (Very Short Answer Type) — 4 × 2 = 8

Answer in about 20–30 words each.

11. How can a state have both high income and poor human development? 2

12. Why is sustainable use of groundwater important? 2

13. Why is the environment a development issue? 2

14. What does a falling infant mortality rate imply? 2

SECTION — C (Short Answer Type) — 4 × 3 = 12

Answer in about 40–60 words each.

15. Why might the same dam be seen as development by some and not by others? 3

16. Analyse why the World Bank classification does not give full picture of development. 3

17. Examine the limitations of comparing Haryana and Kerala only by income. 3

OR

How do public facilities improve the quality of life of the poor? 3

18. Argue whether per capita income or HDI is better. 3

OR

Why should future generations matter in development decisions? 3

SECTION — D (Long Answer Type) — 2 × 5 = 10

Answer in about 100–150 words each.

19. **Case study.** A village has five families whose monthly incomes are Rs 8,000, Rs 12,000, Rs 10,000, Rs 6,000 and Rs 14,000. Another village also has five families but each family earns Rs 10,000. Villagers of both places think that they are developing, yet the first village has families earning much less than the second village's families. 5
(i) Find the average monthly income of the first village.
(ii) What is the average of the second village?
(iii) Can the averages tell us everything about the villages?
(iv) What do the averages hide?

20. Evaluate the Human Development Report as a measure of development. 5

OR

Discuss how conflicting developmental goals make development a complex issue. Suggest solutions. 5
