ANSWER KEY & MARKING SCHEME SET 1

Chapter 22: **Sectors of the Indian Economy (Economics)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** primary sector	Fish come from natural resources
2	**(d)** Gross Domestic Product	It measures total production
3	**(b)** Banking	Banking helps in exchange of money
4	**(a)** could be removed without reducing production	The work does not need all of them
5	**(b)** paid leave	They have regular terms
6	**(d)** public sector	Government owns it
7	**(c)** secondary sector activity	Manufacturing is secondary
8	**(d)** A pair of shoes bought by a customer	It goes to the final user
9	**(c)** agriculture	Many depend on farming
10	**(d)** Providing irrigation facilities	Irrigation allows more crops

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	The sector that obtains goods directly from natural resources (1); Examples: agriculture, dairy, fishing, forestry (1)	1+1
12	Biscuits bought by a consumer (1); A television set bought for home use (1)	1+1
13	People find work only in some seasons (1); It is common in agriculture (1)	1+1
14	The sector in which natural products are changed into other forms by manufacturing (1); Example: making sugar or cloth (1)	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Fishing is primary (1); Weaving cloth is secondary (1); Banking is tertiary (1)	1+1+1
16	All three sectors have grown since independence (1); The tertiary sector has grown the fastest (1); The tertiary sector is now the largest producer (1)	1+1+1
17	Registered with the government (1); Regular and assured jobs (1); Benefits such as leave, gratuity and provident fund (1)	1+1+1
	OR: Natural products are processed into goods in factories (1); Examples are sugar, cloth and steel (1); Manufacturing is the central activity (1)	1+1+1
18	Need for hospitals, schools and banks (1); Demand for transport and trade from agriculture and industry (1); Higher incomes and new IT services (1)	1+1+1
	OR: Low and irregular wages (1); No paid leave or holidays (1); Jobs are insecure (1)	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Primary: use of natural resources directly (1); Secondary: manufacturing from natural products (1); Tertiary: services such as transport and banking (1); Examples of each sector (1); The three sectors depend on each other (1)	1+1+1+1+1
	OR: Right to work for rural households (1); 100 days of guaranteed work a year (1); Unemployment allowance if work is not given (1); Assets such as roads, ponds and wells are created (1); Passed by Parliament in 2005 (1)	1+1+1+1+1
20	It is the value of all final goods and services produced in a year (1); Final goods are counted (1); Intermediate goods are not counted (1); Values of the three sectors are added (1); A Central government ministry measures it (1)	1+1+1+1+1
	OR: Registered with the government (1); Follows rules such as Factories Act and Minimum Wages Act (1); Regular and assured jobs (1); Paid leave, holidays, provident fund and gratuity (1); Fixed working hours and overtime pay (1)	1+1+1+1+1

Mistakes to avoid:

- Mixing up the sectors: **primary** (natural products: agriculture, dairy, fishing, forestry), **secondary** (manufacturing), **tertiary** (services); cotton growing is primary but making cloth from it is secondary.
- Counting **intermediate goods** along with final goods in GDP; this is double counting.

- Saying the tertiary sector employs most people: it produces the most, but **primary** still employs the largest share of workers.
- Confusing **disguised unemployment** (many working, but some surplus, hidden) with open unemployment (no work at all).
- Using 'organised/unorganised' for 'public/private': **organised vs unorganised** is about registration and rules; **public vs private** is about ownership of assets.
- Calling the unorganised sector 'illegal'; it is a sector of small, scattered units where rules are **not followed**.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 2

Chapter 22: **Sectors of the Indian Economy (Economics)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(a)** street vendor	Vendors have no fixed benefits
2	**(d)** private sector	Ownership is by an individual
3	**(b)** tertiary sector	Teaching is a service
4	**(b)** a particular year	It is an annual measure
5	**(c)** Software development	IT services are new tertiary services
6	**(b)** rural areas	It is a rural employment law
7	**(d)** can ask workers to leave without a reason	Jobs are not secure
8	**(d)** public welfare	The government serves the people
9	**(b)** primary sector	Minerals come directly from nature
10	**(b)** within the country	Domestic means within the country

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Cotton used in a spinning mill (1); Steel used to make cars (1)	1+1
12	100 days of wage employment a year (1); To every rural household that asks for work (1)	1+1
13	The sector that provides services and helps other sectors (1); Example: transport, trade, banking (1)	1+1
14	To compare production across years (1); To know how the economy is growing (1)	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Transport and communication (1); Banking and insurance (1); Teaching and medical services (1)	1+1+1
16	Other sectors have not created enough jobs (1); People depend on land for a living (1); Most farmers are small and cannot leave their farms (1)	1+1+1
17	Casual labourers in construction (1); Street vendors (1); Agricultural labourers (1)	1+1+1
	OR: Cotton is grown in the primary sector (1); Cloth is made in a mill in the secondary sector (1); It is carried and sold in the tertiary sector (1)	1+1+1
18	People seem busy but are not needed in the work (1); Output would not fall if some left (1); It is mostly found in farming (1)	1+1+1
	OR: Factories Act (1); Minimum Wages Act (1); Payment of Gratuity Act (1)	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	Production of all sectors has grown (1); The tertiary sector is now the largest in GDP (1); Agriculture still gives work to about half the workforce (1); Employment has not shifted as fast as production (1); Hence agriculture has under-employment (1)	1+1+1+1+1
	OR: Small and scattered units outside government control (1); Rules are not followed (1); Low and irregular pay (1); No leave or holidays (1); Job insecurity and need for protection (1)	1+1+1+1+1
20	Need for basic services (1); Growth of farming and industry needs transport and trade (1); Rising incomes raise demand for services (1); New IT-based services (1); More banks, insurance and communication services (1)	1+1+1+1+1
	OR: Public sector: government owns assets and provides services (1); Private sector: individuals or companies own assets (1); Public sector works for welfare (1); Private sector works for profit (1); Examples: Indian Railways and TISCO (1)	1+1+1+1+1

Mistakes to avoid:

- Mixing up the sectors: **primary** (natural products: agriculture, dairy, fishing, forestry), **secondary** (manufacturing), **tertiary** (services); cotton growing is primary but making cloth from it is secondary.
- Counting **intermediate goods** along with final goods in GDP; this is double counting.

- Saying the tertiary sector employs most people: it produces the most, but **primary** still employs the largest share of workers.
- Confusing **disguised unemployment** (many working, but some surplus, hidden) with open unemployment (no work at all).
- Using 'organised/unorganised' for 'public/private': **organised vs unorganised** is about registration and rules; **public vs private** is about ownership of assets.
- Calling the unorganised sector 'illegal'; it is a sector of small, scattered units where rules are **not followed**.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

ANSWER KEY & MARKING SCHEME SET 3

Chapter 22: **Sectors of the Indian Economy (Economics)** | Class 10 Social Science | Maximum Marks: 40

SECTION — A (Objective Type) — Answers — 10 × 1 = 10

Q.	Correct Option	Brief Reasoning
1	**(d)** basic service	Hospitals serve people directly
2	**(c)** up to 100 days of work	The guarantee is for 100 days a year
3	**(d)** the organised sector	These rules guide organised employment
4	**(c)** taxes	It spends the tax collected
5	**(b)** Secondary sector	Processing is manufacturing
6	**(a)** Tertiary	Services lead
7	**(d)** increases	People spend on more services
8	**(d)** seasons when there is little farm work	That is seasonal unemployment
9	**(b)** organised sector	Terms are regular and assured
10	**(d)** give medical care at low cost	It is a welfare service

SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

Q.	Expected Answer / Value Points	Marks
11	Paid leave and holidays (1); Provident fund and gratuity (1)	1+1
12	It gives services that help primary and secondary production (1); It also provides services directly to people (1)	1+1
13	Hospitals and schools (1); Banks, police and courts (1)	1+1
14	Indian Railways (1); Government hospitals and post offices (1)	1+1

SECTION — C (Short Answer) — Answers — 4 × 3 = 12

Q.	Expected Answer / Value Points	Marks
15	Intermediate goods are used up in making final goods (1); Their value is already in the final good (1); Counting them would double count (1)	1+1+1
16	Irrigation to grow more crops (1); Small industries and services in rural areas (1); Employment guarantee schemes such as MGNREGA (1)	1+1+1
17	Public sector assets belong to the government; private to individuals or firms (1); Public sector aims at welfare; private at profit (1); Railways and post office are public; Reliance and TISCO are private (1)	1+1+1
	OR: The total value of final goods and services produced (1); How big the economy is (1); How it is growing over the years (1)	1+1+1
18	To give work and income to rural households (1); To build useful assets such as roads and ponds (1); To reduce rural poverty (1)	1+1+1
	OR: To supply foodgrains to the poor at affordable prices (1); Government buys grain from farmers and stocks it (1); It ensures food security (1)	1+1+1

SECTION — D (Long Answer) — Answers — 2 × 5 = 10

Q.	Expected Answer / Value Points	Marks
19	People seem employed but are not fully used (1); A farm family of five on two hectares of land (1); Two members could leave without cutting output (1); They are disguised unemployed (1); Also seasonal unemployment occurs in farming (1)	1+1+1+1+1
	OR: Roads, ports and dams need huge money (1); It supports farmers with minimum support prices (1); It runs ration shops for the poor (1); It provides health and education (1); It develops backward areas (1)	1+1+1+1+1
20	Build irrigation to allow two crops (1); Provide credit and storage (1); Set up small industries (1); Promote tourism, education and IT (1); Run employment guarantee schemes (1)	1+1+1+1+1
	OR: Schools and colleges for education (1); Hospitals for health (1); Roads and railways for transport (1); Post offices for communication (1); Dams and canals for irrigation (1)	1+1+1+1+1

Mistakes to avoid:

- Mixing up the sectors: **primary** (natural products: agriculture, dairy, fishing, forestry), **secondary** (manufacturing), **tertiary** (services); cotton growing is primary but making cloth from it is secondary.
- Counting **intermediate goods** along with final goods in GDP; this is double counting.
- Saying the tertiary sector employs most people: it produces the most, but **primary** still employs the largest share of workers.
- Confusing **disguised unemployment** (many working, but some surplus, hidden) with open unemployment (no work at all).
- Using 'organised/unorganised' for 'public/private': **organised vs unorganised** is about registration and rules; **public vs private** is about ownership of assets.
- Calling the unorganised sector 'illegal'; it is a sector of small, scattered units where rules are **not followed**.

Evaluator's note: Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
