# ANSWER KEY & MARKING SCHEME SET 1

Chapter 22: **Sectors of the Indian Economy (Economics)** | Class 10 Social Science | Maximum Marks: 40

## SECTION — A (Objective Type) — Answers — 10 × 1 = 10

| Q. | Correct Option | Brief Reasoning |
|---|---|---|
| 1 | **(a)** Primary and secondary | Cane growers and the mill both lose out |
| 2 | **(a)** 30 per cent | 1,200 / 4,000 |
| 3 | **(d)** emergence of new services in the tertiary sector | New services have been created |
| 4 | **(d)** under-employed | They added nothing to output |
| 5 | **(b)** Small scattered units, low irregular pay and no benefits | Matches its features |
| 6 | **(c)** private sector | Ownership and profit aim are private |
| 7 | **(b)** tertiary sector | Software development is a service |
| 8 | **(d)** Rs 4,500 crore | That is double counting |
| 9 | **(a)** Both A and R are true and R is the correct explanation of A. | Counting intermediate goods separately would count the same value twice; R explains A. |
| 10 | **(b)** Both A and R are true but R is not the correct explanation of A. | Both are true; they are consecutive stages but R does not explain why cultivation is primary. |

## SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 11 | Only final value is counted (1); Rs 40,000 (1) | 1+1 |
| 12 | Many workers remain tied to low-income farming (1); Not enough new good jobs are created in industry and services (1) | 1+1 |
| 13 | They offer jobs close to home (1); They use local raw materials and labour (1) | 1+1 |
| 14 | GDP counts goods produced in the year (1); A second-hand sale only transfers an existing item (1) | 1+1 |

## SECTION — C (Short Answer) — Answers — 4 × 3 = 12

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 15 | Farm is primary and mill and bakery are secondary (1); Delivery van is tertiary (1); Each stage uses the output of the previous stage (1) | 1+1+1 |
| 16 | They have no other source of income (1); Non-farm jobs are scarce (1); They need basic skills or capital for other work (1) | 1+1+1 |
| 17 | Cheap and timely credit (1); Storage, marketing and fair price support (1); Supply of raw materials and market links for small units (1) | 1+1+1 |
| | **OR:** GDP = Rs 4,000 crore (1); Primary 15 per cent and secondary 25 per cent (1); Tertiary 60 per cent (1) | 1+1+1 |
| 18 | Irrigation raises the number of crops and farm jobs (1); Food processing adds value and creates jobs outside the farm (1); Both use local resources and increase income (1) | 1+1+1 |
| | **OR:** It is unregistered and scattered (1); Inspection is difficult (1); The employer may not follow labour laws (1) | 1+1+1 |

## SECTION — D (Long Answer) — Answers — 2 × 5 = 10

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 19 | (i) Biscuits (1). (ii) Wheat or flour (1). (iii) 4 x 20 = Rs 80 (1). (iv) The value of final goods already includes that of intermediate goods, so counting wheat and flour again would amount to double counting (2). | 1+1+1+2 |
| 20 | GDP contribution = Rs 80,000, the value of the final good only (1); Mill value added = 48,000 - 30,000 = Rs 18,000 (1); Biscuit firm: inputs = 48,000 + 6,000 = Rs 54,000 (1); Biscuit firm value added = 80,000 - 54,000 = Rs 26,000 (1); Farmer 30,000 + mill 18,000 + biscuit 26,000 + packaging 6,000 = Rs 80,000 (1) | 1+1+1+1+1 |
| | **OR:** Roads, ports and dams need heavy investment (1); Health and education for the poor (1); Minimum support price and ration shops (1); Development of backward regions (1); Private firms look mainly for profit (1) | 1+1+1+1+1 |

**Mistakes to avoid:**

- Mixing up the sectors: **primary** (natural products: agriculture, dairy, fishing, forestry), **secondary** (manufacturing), **tertiary** (services); cotton growing is primary but making cloth from it is secondary.
- Counting **intermediate goods** along with final goods in GDP; this is double counting.
- Saying the tertiary sector employs most people: it produces the most, but **primary** still employs the largest share of workers.
- Confusing **disguised unemployment** (many working, but some surplus, hidden) with open unemployment (no work at all).
- Using 'organised/unorganised' for 'public/private': **organised vs unorganised** is about registration and rules; **public vs private** is about ownership of assets.
- Calling the unorganised sector 'illegal'; it is a sector of small, scattered units where rules are **not followed**.

**Evaluator's note:** Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

## ANSWER KEY & MARKING SCHEME SET 2

Chapter 22: **Sectors of the Indian Economy (Economics)** | Class 10 Social Science | Maximum Marks: 40

### SECTION — A (Objective Type) — Answers — 10 × 1 = 10

| Q. | Correct Option | Brief Reasoning |
|---|---|---|
| 1 | **(d)** in an unorganised-type job inside an organised unit | Employers use temporary contracts |
| 2 | **(d)** providing roads, schools and clinics | Welfare goal |
| 3 | **(c)** Wheat grown, flour milled, bread sold in a shop | Primary to secondary to tertiary |
| 4 | **(b)** Rs 8,000 | 14,000 minus 6,000 (wages are part of value added) |
| 5 | **(a)** More restaurants, schools and clinics open | Higher income raises demand for services |
| 6 | **(d)** Villagers get paid work near home | Local work reduces the need to move |
| 7 | **(a)** Not enough organised jobs are available | Scarce better jobs |
| 8 | **(a)** private sector | Ownership shifts |
| 9 | **(c)** A is true but R is false. | A is true: in terms of production it has overtaken the primary sector. R is false: the primary sector, mainly agriculture, is still the largest employer. |
| 10 | **(d)** A is false but R is true. | A is false: jobs are low-paid, not regular and lack paid leave. R is true. |

### SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 11 | Services may grow faster (1); So the farm share falls even though output increases (1) | 1+1 |
| 12 | It lowers costs and avoids benefits (1); Workers lose security and benefits (1) | 1+1 |
| 13 | Transport and trade need goods from farms and factories (1); Banks serve farmers and industrialists (1) | 1+1 |
| 14 | 8 - 5 = 3 are disguised unemployed (1); Provide irrigation or non-farm jobs for them (1) | 1+1 |

### SECTION — C (Short Answer) — Answers — 4 × 3 = 12

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 15 | Total sales = 1,00,000 (1); Real production of final good = Rs 50,000 (1); Counting every stage double-counts cotton and yarn (1) | 1+1+1 |
| 16 | Jobs created = 45 + 30 = 75 (1); Remaining = 120 - 75 = 45 (1); More jobs can come from irrigation or MGNREGA works (1) | 1+1+1 |
| 17 | Passengers are few and profit is low (1); The government can run buses at a loss for welfare (1); It can subsidise the service to link the village (1) | 1+1+1 |
| | **OR:** Value added is output minus intermediate goods (1); It shows the new value created by the firm (1); Adding value added across firms equals the final value, avoiding double counting (1) | 1+1+1 |
| 18 | Households earn wages for 100 days (1); Roads, ponds and wells are created (1); These assets raise future farm productivity and village welfare (1) | 1+1+1 |
| | **OR:** Government raises money by taxes (1); It spends it on common facilities such as roads and schools (1); Services are provided at low or no cost to users (1) | 1+1+1 |

### SECTION — D (Long Answer) — Answers — 2 × 5 = 10

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 19 | (i) Disguised unemployment (underemployment) (1). (ii) Primary sector (1). (iii) Two (five minus three) (1). (iv) The plot needs only three persons; the two moved out were surplus, so the work is still done, and their wages add to the family income (2). | 1+1+1+2 |
| 20 | Land holdings are small and are shared by all family members (1); Irrigation can allow more crops (1); Credit, storage and marketing improve farm income (1); Small industries and services create non-farm jobs (1); Employment guarantee works such as MGNREGA give income in slack months (1) | 1+1+1+1+1 |
| | **OR:** 7 - 4 = 3 are disguised unemployed (1); MGNREGA work for up to 100 days (1); Irrigation to grow a second crop (1); A small food-processing or craft unit (1); Tourism or service work if available (1) | 1+1+1+1+1 |

**Mistakes to avoid:**

- Mixing up the sectors: **primary** (natural products: agriculture, dairy, fishing, forestry), **secondary** (manufacturing), **tertiary** (services); cotton growing is primary but making cloth from it is secondary.
- Counting **intermediate goods** along with final goods in GDP; this is double counting.
- Saying the tertiary sector employs most people: it produces the most, but **primary** still employs the largest share of workers.
- Confusing **disguised unemployment** (many working, but some surplus, hidden) with open unemployment (no work at all).
- Using 'organised/unorganised' for 'public/private': **organised vs unorganised** is about registration and rules; **public vs private** is about ownership of assets.
- Calling the unorganised sector 'illegal'; it is a sector of small, scattered units where rules are **not followed**.

**Evaluator's note:** Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.

## ANSWER KEY & MARKING SCHEME SET 3

Chapter 22: **Sectors of the Indian Economy (Economics)** | Class 10 Social Science | Maximum Marks: 40

### SECTION — A (Objective Type) — Answers — 10 × 1 = 10

| Q. | Correct Option | Brief Reasoning |
|---|---|---|
| 1 | **(b)** provide services and not goods | Their output is a service |
| 2 | **(a)** Rs 22,000 | The guarantee is per household, so 100 x 220 |
| 3 | **(b)** Organised sector | It applies to registered establishments |
| 4 | **(b)** All children, including the poor, must be able to study | Equal access is a welfare aim |
| 5 | **(a)** Both A and R are true and R is the correct explanation of A. | Counting them again is double counting |
| 6 | **(c)** A is true but R is false. | Many services such as small shops pay little |
| 7 | **(d)** Farm labourers without work after harvest | Work depends on the farm season |
| 8 | **(a)** Both A and R are true and R is the correct explanation of A. | The allowance gives the right force |
| 9 | **(a)** Both A and R are true and R is the correct explanation of A. | The surplus workers in a family plot make the unemployment hidden; R explains A. |
| 10 | **(b)** Both A and R are true but R is not the correct explanation of A. | Both are true, but the TISCO fact does not explain why railways and the post office are public. |

### SECTION — B (Very Short Answer) — Answers — 4 × 2 = 8

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 11 | Market prices may fall below cost (1); Farmers need an assured income (1) | 1+1 |
| 12 | Intermediate inputs = 20,000 + 3,000 = Rs 23,000 (1); Value added = 40,000 - 23,000 = Rs 17,000 (1) | 1+1 |
| 13 | It makes work a legal entitlement (1); The government must give an allowance if work is denied (1) | 1+1 |
| 14 | Private company: to earn profit (1); Government: to supply cheap power to all, including poor and remote areas (1) | 1+1 |

### SECTION — C (Short Answer) — Answers — 4 × 3 = 12

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 15 | New services such as call centres and software appear (1); They raise the sector's share in GDP (1); They create jobs mainly for educated people, so the benefit is uneven (1) | 1+1+1 |
| 16 | They protect safety and ensure wages (1); They apply to registered units only (1); Most workers are in the unorganised sector outside regulation (1) | 1+1+1 |
| 17 | It assures farmers a fair price (1); The government must pay and store large stocks (1); The cost is met from taxes (1) | 1+1+1 |
| | **OR:** Agriculture still holds half of workers (1); Industry and services create fewer jobs than output growth (1); Growth then does not reach many families (1) | 1+1+1 |
| 18 | Organised jobs are few (1); Many workers have low skill or education (1); Even organised units shift to temporary hiring (1) | 1+1+1 |
| | **OR:** TISCO is privately owned and aims at profit (1); Indian Railways is government owned (1); Its objectives include public service and national integration (1) | 1+1+1 |

### SECTION — D (Long Answer) — Answers — 2 × 5 = 10

| Q. | Expected Answer / Value Points | Marks |
|---|---|---|
| 19 | (i) Organised sector (1). (ii) Kanta (1). (iii) Any one: Factories Act, Minimum Wages Act, Payment of Gratuity Act, Shops and Establishments Act (1). (iv) Their jobs are low-paid, irregular and without benefits, rules are not followed, and many belong to disadvantaged groups who face discrimination, so they need protection and support (2). | 1+1+1+2 |
| 20 | Too few organised jobs exist (1); Workers lack skills and capital (1); Better enforcement of wage laws (1); Credit, raw material and market support for small units (1); Special protection for SC, ST and backward community workers (1) | 1+1+1+1+1 |
| | **OR:** Many workers share a small total income (1); Productivity per worker is low (1); Under-employment is likely (1); Workers must be shifted to better jobs (1); Policies must expand industry and services with jobs (1) | 1+1+1+1+1 |

**Mistakes to avoid:**

- Mixing up the sectors: **primary** (natural products: agriculture, dairy, fishing, forestry), **secondary** (manufacturing), **tertiary** (services); cotton growing is primary but making cloth from it is secondary.
- Counting **intermediate goods** along with final goods in GDP; this is double counting.
- Saying the tertiary sector employs most people: it produces the most, but **primary** still employs the largest share of workers.
- Confusing **disguised unemployment** (many working, but some surplus, hidden) with open unemployment (no work at all).
- Using 'organised/unorganised' for 'public/private': **organised vs unorganised** is about registration and rules; **public vs private** is about ownership of assets.
- Calling the unorganised sector 'illegal'; it is a sector of small, scattered units where rules are **not followed**.

**Evaluator's note:** Award step marks as shown; accept any correct alternative method. In internal-choice questions, evaluate only the option attempted. Deduct up to ½ mark for missing units or figures where required.
